IMPORTANT INFORMATION

FCC COMPLIANCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide more reasonable protection against harmful interference in a residential installation, and are more stringent than "outdoor" requirements.

Operation is subjected to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult an experienced radio/TV technician.

WARNING

Points to Observe for Safe Usage

- *Read this manual carefully before using this disc and the system components. They contain instructions on how to use this product in a safe and effective manner. Alpine cannot be responsible for problems resulting from failure to observe the instructions in this manual.*
- *This manual uses various pictorial displays to show you how to use this product safely and to alert you to potential dangers resulting from improper connections and operation. Following are the meanings of these pictorial displays. It is important to fully understand the meanings of these pictorial displays in order to use this manual and the system properly.*
- *This product may be used with software applications. Please follow all usage instructions and warnings when using this product at all times. Do not use this product or any software application in a manner which will hinder safe operation of your vehicle.*

WARNING

- Operation of the system while driving is dangerous. Users should stop vehicle before operating the software.
- Road conditions and regulations take precedence over information contained on the map display: observe actual traffic restrictions and circumstances while driving.
- This software is designed for use exclusively in the unit. It cannot and may not be used in conjunction with other hardware.

WARNING

This symbol means important instructions. Failure to heed them can result in serious injury or death.

INSTALL THE PRODUCT CORRECTLY SO THAT THE DRIVER CANNOT WATCH TV/VIDEO UNLESS THE VEHICLE IS STOPPED AND THE EMERGENCY BRAKE IS APPLIED.

It is dangerous for the driver to watch TV/Video while driving a vehicle. Installing this product incorrectly enables the driver to watch TV/Video while driving. This may cause a distraction, preventing the driver from looking ahead, thus causing an accident. The driver or other people could be severely injured.

DO NOT WATCH VIDEO WHILE DRIVING.

Watching the video may distract the driver from looking ahead of the vehicle and cause an accident.

DO NOT OPERATE ANY FUNCTION THAT TAKES YOUR ATTENTION AWAY FROM SAFELY DRIVING YOUR VEHICLE.

Any function that requires your prolonged attention should only be performed after coming to a complete stop. Always stop the vehicle in a safe location before performing these functions. Failure to do so may result in an accident.

KEEP THE VOLUME AT A LEVEL WHERE YOU CAN STILL HEAR OUTSIDE NOISES WHILE DRIVING.

Excessive volume levels that obscure sounds such as emergency vehicle sirens or road warning signals (train crossings, etc.) can be dangerous and may result in an accident. LISTENING AT LOUD VOLUME LEVELS IN A CAR MAY ALSO CAUSE HEARING DAMAGE.

MINIMIZE DISPLAY VIEWING WHILE DRIVING.

Viewing the display may distract the driver from looking ahead of the vehicle and cause an accident.

DO NOT DISASSEMBLE OR ALTER.

Doing so may result in an accident, fire or electric shock.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

KEEP SMALL OBJECTS SUCH AS SCREWS OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

USE THE CORRECT AMPERE RATING WHEN REPLACING FUSES.

Failure to do so may result in fire or electric shock.

DO NOT BLOCK VENTS OR RADIATOR PANELS.

Doing so may cause heat to build up inside and may result in fire.

USE THIS PRODUCT FOR MOBILE 12V APPLICATIONS.

Use for other than its designed application may result in fire, electric shock or other injury.

MAKE THE CORRECT CONNECTIONS.

Failure to make the proper connections may result in fire or product damage.

BEFORE WIRING, DISCONNECT THE CABLE FROM THE NEGATIVE BATTERY TERMINAL.

Failure to do so may result in electric shock or injury due to electrical shorts.

DO NOT ALLOW CABLES TO BECOME ENTANGLED IN SURROUNDING OBJECTS.

Arrange wiring and cables in compliance with the manual to prevent obstructions when driving. Cables or wiring that obstruct or hang up on places such as the steering wheel, gear lever, brake pedals, etc. can be extremely hazardous.

DO NOT SPLICE INTO ELECTRICAL CABLES.

Never cut away cable insulation to supply power to other equipment. Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock.

DO NOT DAMAGE PIPE OR WIRING WHEN DRILLING HOLES.

When drilling holes in the chassis for installation, take precautions so as not to contact, damage or obstruct pipes, fuel lines, tanks or electrical wiring. Failure to take such precautions may result in fire.

DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.

Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.

DO NOT INSTALL IN LOCATIONS WHICH MIGHT HINDER VEHICLE OPERATION, SUCH AS THE STEERING WHEEL OR GEARSHIFT.

Doing so may obstruct forward vision or hamper movement etc. and results in serious accident.

**CAUTION**

This symbol means important instructions. Failure to heed them can result in injury or material property damage.

HALT USE IMMEDIATELY IF A PROBLEM APPEARS.

Failure to do so may cause personal injury or damage to the product. Return it to your authorized Alpine dealer or the nearest Alpine Service Center for repairing.

HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.

The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done.

USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.

Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure.

ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.

Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges. This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole.

DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.

Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

NOTICE

Product Cleaning

Use a soft dry cloth for periodic cleaning of the product. For more severe stains, please dampen the cloth with water only. Anything else has the chance of dissolving the paint or damaging the plastic.

Temperature

Be sure the temperature inside the vehicle is between +45°C (+113°F) and 0°C (+32°F) before turning your unit on.

Maintenance

If you have problems, do not attempt to repair the unit yourself. Return it to your Alpine dealer or the nearest Alpine Service Station for servicing.

Protecting the USB connector

- Only an iPhone or USB flash drive can be connected to the USB connector on this unit. Correct performance using other USB products cannot be guaranteed.
- If the USB connector is used, be sure to use only the supplied connector cable with the unit. A USB hub is not supported.
- Depending on the connected USB flash drive, the unit may not function or some functions may not be performed.
- The audio file format that can be played back on the unit is MP3/WMA/AAC/FLAC.
- Artist/song name, etc., can be displayed. Certain, special characters may not be correctly displayed.

CAUTION

Alpine accepts no responsibility for lost data, etc., even if data, etc., is lost while using this product.

On Handling USB Flash drive

- This unit can control a memory storage device that supports the USB Mass Storage Class (MSC) protocol. Playable audio file formats are MP3, WMA, AAC and FLAC.
- USB Flash drive function is not guaranteed. Use USB flash drive according to the terms of agreement. Read the USB flash drive Owner's Manual thoroughly.
- Avoid usage or storage in the following locations:
 - Anywhere in the car exposed to direct sunlight or high temperatures.
 - Anywhere the possibility of high humidity or corrosive substances are present.
- Fix the USB flash drive in a location where driver operation will not be hindered.
- USB Flash drive may not function correctly at high or low temperature.
- Use only certified USB flash drive. Note that even certified USB flash drive, may not function correctly depending on its type or state.
- Depending on the settings of the USB flash drive type, memory state or encoding software, the unit may not play back or display properly.
- USB Flash drive may take time to start playback. If there is a particular file other than audio in the USB flash drive, it may take considerable time before the file is played back or searched.
- The unit can play back "mp3," "wma" or "m4a" file extensions.
- Do not add the above extensions to a file other than audio data. This non-audio data will not be recognized. The resulting playback may contain noise that can damage speakers and/or amplifiers.
- It is recommended to back up important data on a personal computer.
- Do not remove the USB device while playback is in progress. Change SOURCE to something other than USB, then remove the USB device to prevent possible damage to its memory.

An independent license for such use is required. For details, please visit <http://www.mp3licensing.com>

Getting Started

Location of Controls

- ① **Dimmer Sensor**
Sense the brightness of the car interior.
- ② **- / + (DOWN/UP) button**
Touch to adjust the volume.
- ③ **(MUTE) button**
Touch to activate/deactivate the mute mode.
- ④ **(HOME)/(Power Off) button**
Activates the HOME screen.
Touch and hold this button for at least 1 second to turn the power off.
- ⑤ **(PHONE) button**
Depending on the connected smartphone, touch to activate Siri function or voice recognition mode.
- ⑥ **(PHONE) button**
When a Hands-Free Phone is not connected:
The Bluetooth setting screen is displayed.
When a Hands-Free Phone is connected:
The phone number input screen (Keypad) is activated.
Touch and hold the button for at least 2 seconds to redial the most recent incoming call.
During an incoming call:
The phone call is started.
During a call:
The call finishes.

About the button descriptions used in this Owner's Manual

The buttons found on the face of the unit are expressed in bold (e.g. **(HOME)**). The buttons found on the touch-screen display are shown in bold within brackets, [] (e.g. [**X**]).

Turning Power On or Off

Some of this unit's functions cannot be performed while the vehicle is in motion. Be sure to stop your vehicle in a safe location and apply the parking brake, before attempting these operations.

- 1 **Turn the ignition key to the ACC or ON position.**
The system turns on.
 - When turned on, the system displays the last screen that was displayed before the ignition key was turned off. For example, if the unit is in radio mode when ignition is turned off, it will remain in radio mode when ignition is turned back on.
- 2 **Touch and hold the (HOME)/(Power Off) button for at least 1 second to turn the power off.**
 - When the system is used for the first time, the language selection menu is displayed. Select the desired language, and then touch [OK].
 - The unit can be turned on by touching the (HOME) button, (PHONE) button or (PHONE) button.
 - The unit is a precision device. Careful handling of the unit should provide you with years of trouble-free operation.

Turning the System On

When the system is used for the first time, the language selection menu is displayed.

Select a language, and then touch [OK].

- Some of this unit's functions cannot be performed while the vehicle is in motion. Be sure to stop your vehicle in a safe location and apply the parking brake before attempting these operations.

Adjusting the Volume

Adjust the volume by touching -/+.

Volume decreases/increases continuously by touching and holding -/+.

Volume: 0 - 35

Lowering Volume Quickly

Audio Mute function instantly lowers the volume level to 0.

- 1 **Touch the (MUTE) button to activate the MUTE mode.**
The audio level will be 0.
- 2 **Touching the (MUTE) button again will bring the audio back to its previous level.**

Touch Screen Operation

You can operate the system by using the touch panel on the screen.

- Be sure to touch the onscreen button lightly with the pad of your finger to avoid scratching the display.

Touch a button or list item on the screen lightly.

- If you touch a button and there is no reaction, remove your finger.
- Onscreen buttons that cannot be operated are dimmed.

About the HOME Screen

In the HOME screen, you can select the audio source and perform various setups or operations on the unit.

Touch the  (HOME) button.

The HOME screen is displayed.

HOME screen example

Radio	Displays the Radio main screen (page 26).
USB	You can play back music files (MP3/WMA/AAC/FLAC/WAV), video files (MP4/AVI/WMV/MOV) and photo files (JPG/PNG/BMP) stored in a USB flash drive (page 27). • If a USB flash drive is not connected, this widget is not available.
iPod	Displays the iPod main screen (page 29). • If an iPhone is not connected, this widget is not available.
Connectivity	You can use Apple CarPlay (page 25) or Android Auto (page 25). • If an iPhone 5s or later compatible with the Apple CarPlay function or a smartphone installed with the Android Auto App is not connected, this widget is not available. • When Apple CarPlay or Android Auto is available, the widget changes to [Apple CarPlay] / [Android Auto].
SiriusXM	Displays the SiriusXM main screen (page 31). • If a SiriusXM Tuner (Optional) is not connected, this widget is not available.
Bluetooth Audio	Displays the Bluetooth audio main screen (page 37).
Camera	Displays camera images (page 39).
Setup	Displays the Setup screen (page 12).

About the Indicator Display

The Indicator Bar at the top of the screen displays various types of information, like the current time.

- ① Indicates the current time.
You can switch between the 12 hour display and 24 hour display options (page 19).
- ② Indicates the strength of the SiriusXM satellite radio signal.
- ③ Indicates the selected equalizer (page 13).
- ④ Lights up when connected to a Bluetooth compatible device. (Does not display when connection is set to OFF.)
ⓧ (Both): Bluetooth connections to the audio device and Hands Free Phone.
ⓧ (Audio): Bluetooth connection to audio device.
ⓧ (Hands-free): Bluetooth connection to Hands-Free Phone.
- ⑤ Indicates the battery level of the connected Bluetooth device.

Battery Level	Level 3	Level 2	Level 1	No Battery
Icon				

This may not be displayed depending on the connected Bluetooth device.

- ⑥ Indicates the signal strength level of the connected Bluetooth compatible device.
Displayed when Bluetooth setting is ON.

0	1	2	3	4	5

- ⑦ Indicates the volume on/off status and shows the volume setting bar.

How to Input Characters and Numbers (Keypad)

The displayed screens and procedures may vary slightly depending on the function used, but the basic input method is the same.

- ① Input screen area.
- ② Cancel
Keypad mode finishes.
- ③ (Delete)
Returns to the previous character and erases it.
Touching here for more than 2 seconds will erase all input characters.
- ④ Input number is confirmed.
- ⑤ Character keypad
- ⑥ Space

Setup

Setup Operation

To display the Setup Menu screen:

Your vehicle must be parked with the ignition key in the ACC or ON position. To do this, follow the procedures below.

- 1 Bring your vehicle to a complete stop at a safe location. Engage the parking brake.
 - 2 Release the parking brake. (For safety, release the parking brake while depressing the foot brake pedal).
 - 3 Engage the parking brake again.
- For automatic transmission vehicles, place the transmission lever in the Park position.
 - "Simple Sound Settings" (page 13) and "Connectivity Setup" (page 20) can be set even not engaging the parking brake.

Now, the locking system for the Setup operation has been released. Engaging the parking brake can reactivate the Setup Menu, as long as the car's ignition has not been turned off. It is not necessary to repeat the above procedure (1 through 3).

Each time the ignition is turned OFF, perform the above procedure.

3 Touch the required setting icon, then touch the setting item.

Setting items:

Sound: See "Sound Setup" (page 13).
Volume: See "Volume Setup" (page 18).
System: See "System Setup" (page 19).
Connectivity: See "Connectivity Setup" (page 20).
SiriusXM: See "SiriusXM Setup" (page 21).
Bluetooth: See "Bluetooth Setup" (page 22).
Camera: See "Camera Setup" (page 23).
Information: See "Information" (page 24).

1 Touch the (HOME) button.

The HOME screen is displayed.

[Setup] button

2 Touch [Setup].

The Setup main screen is displayed.

Sound Setup

[Sound] is selected on the Setup menu screen.

You can set up items related to the sound quality.

Touch [Advanced] or [Simple] to change the setting screen.

<Setting item>

Simple	
Fad./Bal.	(page 13)
Bass/Treble	(page 13)
EQ	(page 13)
Sub.W	(page 14)
Advanced*	
X-Over	(page 14)
P-EQ	(page 15)
TCR	(page 15)
MX	(page 16)
Defeat	(page 16)

* Touch [>>] or [<<] to show further hierarchies.

Simple Sound Settings

[Simple] is selected on the Sound Setup menu screen.

Setting item:

Fad./Bal., Bass/Treble, EQ, Sub.W

Setting the Fader/Balance

- ① Cancel
Sound setup finishes.
- ② Fader/Balance Image area

Touch the desired point within the image area, or touch [◀], [▲], [▼] or [▶].

Fader:

[10]Front to [10]Rear

Balance:

[10]Left to [10]Right

- To reset to the initial setting (Fader: F=R, Balance: L=R), touch [⊕].

Adjusting the Bass/Middle/Treble

Touch [▲] or [▼] for each item to be adjusted.

Setting item:

Bass, Middle, Treble

Setting contents:

-7 to 7 (Initial setting: 0)

- To reset the initial setting (Bass: 0, Middle: 0, Treble: 0), touch [Flat].
- When the Defeat setting is [On], you cannot perform the set up.

Setting an Equalizer

5 typical equalizer settings are preset at the factory for a variety of musical source material. You can also preset an equalizer by customizing.

Setting item:

EQ

Setting contents:

Flat (Initial setting), Jazz, Rock, Classical, Pop, Custom

- When the Defeat setting is [On], you cannot perform the set up.
- Only one type can be set.
- When you select [Custom], the P-EQ setting screen is displayed (page 15).
- If you select a content except for [Custom] on this setting, P-EQ setting (page 15) will change P-EQ Setting.

Setting the Subwoofer

Turning Subwoofer ON/OFF

If an optional subwoofer is connected to the unit, make the following setting.

Setting item:

Sub.W

Setting contents:

Off (Initial setting), On

Adjusting the Subwoofer Level

Setting item:

Level

Setting contents:

0 (Initial setting) to 15

- This setting is only available when "Sub.W" is set to [On].

Setting the Subwoofer Phase

The subwoofer output phase is toggled Subwoofer Normal (0°) or Subwoofer Reverse (180°).

Setting item:

Phase

Setting contents:

0° (Initial setting), 180°

- This setting is only available when "Sub.W" is set to [On].

Advanced sound settings

[Advanced] is selected on the Sound Setup menu screen.

Setting item:

X-Over, P-EQ, TCR, MX, Defeat

Adjusting the Crossover Settings (X-Over)

Before performing the following procedures, see "About the Crossover" (page 16).

Setting item:

X-Over

1 Touch [Channel] to select the channel.

Each time you touch, the channel switches.

- The channel being adjusted is displayed in red.

Front HPF → Rear HPF → SubW LPF → Front HPF

2 Adjust the crossover to your preference.

Selecting the Cut-Off Frequency

Touch [◀] or [▶] of "Frequency," and then select the cut-off frequency.

Setting contents:

20 / 25 / 31.5 / 40 / 50 / 63 / 80 (Initial setting) / 100 / 125 / 160 / 200 Hz

Adjusting the Slope

Touch [◀] or [▶] of "Slope," and then adjust the HPF or LPF slope.

Setting contents:

0 (Initial setting) / 6 / 12 / 18 / 24 dB/oct.

Adjusting the Level

Touch [–] or [+] of "Level," and then adjust the HPF or LPF level.

Setting contents:

-12 to 0 dB (Initial setting: 0)

3 Repeat steps 1 to 2 to make adjustment to the other channels.

4 To store the adjusted setting value, touch and hold [Preset 1], [Preset 2], or [Preset 3] for at least 2 seconds.

- Touch [Flat] to initialize all values.
- If the Subwoofer setting is [Off], the Subwoofer setting cannot be edited (page 14).
- While adjusting the X-Over you should consider the frequency response of the connected speakers.

Calling the X-Over adjusted value

Calling the pre-set X-Over adjusted value.

Touch [Preset 1], [Preset 2], or [Preset 3] on the X-Over screen.

The setting stored in the Preset will be recalled.

Adjusting the Parametric Equalizer Curve (P-EQ)

Parametric Equalizer (P-EQ) can adjust the center frequency/Q Factor (bandwidth)/level for the front and rear speakers independently. You can adjust only to the approximate frequency zone, but can then compensate by performing advanced correction of the sound.

Setting item:

P-EQ

- When the Defeat setting is [On], you cannot perform the set up.

1 Adjust the P-EQ to your preference.

Adjusting the Band

Touch [Band] to select the band to be adjusted.

Band1 → Band2 → ... → Band8 → Band9 → Band1

- You can select a band directly by touching the screen.

Adjusting the Frequency

Touch [◀] or [▶] of "Frequency" to adjust the frequency of the selected band.

Adjustable frequency bands:

20 Hz to 20 kHz (in 1/3 octave steps)

Band1:	20 Hz to 100 Hz (63 Hz)
Band2:	63 Hz to 315 Hz (125 Hz)
Band3:	125 Hz to 500 Hz (250 Hz)
Band4:	250 Hz to 1 kHz (500 Hz)
Band5:	500 Hz to 2 kHz (1 kHz)
Band6:	1 kHz to 4 kHz (2 kHz)
Band7:	2 kHz to 7.2 kHz (4 kHz)
Band8:	5.8 kHz to 12 kHz (8 kHz)
Band9:	9 kHz to 20 kHz (16 kHz)

Adjusting the Level

Touch [—] or [+] of "Level" to adjust the level of selected band.

Setting contents:

-7 to 7 (Initial setting: 0)

Setting the Bandwidth

Touch [◀] or [▶] of "Q Factor" to select the bandwidth.

Setting contents:

Narrow / Medium / Wide (Initial setting)

2 To adjust another band, repeat step 1, and adjust all bands.

3 To store the adjusted setting value, touch and hold [Preset 1], [Preset 2], or [Preset 3] for at least 2 seconds.

- Band2 and Band5 are the same as the Bass and Middle controls. For details on setting Bass and Treble, see "Adjusting the Bass/Middle/Treble" (page 13).
- Settings exceeding the frequency of adjacent bands are not available.

- While adjusting the P-EQ, you should consider the frequency response of the connected speakers.
- To reflect the P-EQ setting, set "EQ" to [Custom] (page 13).
- Touch [Flat] to initialize all values.

Calling the P-EQ adjusted value

Calling the pre-set P-EQ adjusted value.

Touch [Preset 1], [Preset 2], or [Preset 3] on the P-EQ screen.

The setting stored in the Preset will be recalled.

- Presets can be called on [Custom] of the "EQ" setting (page 13).

Adjusting the Time Correction (TCR)

Before performing the following procedures, see "About Time Correction" (page 17).

Correction mode

Setting item:

TCR

1 Touch the Correction mode button to select [ms], [cm] or [inch].

2 Touch [—] or [+] for each speaker to adjust the time or distance.

0.0 msec to 9.9 msec (0.1 msec/step)

0.0 cm (0.0 inch) to 336.6 cm (133.7 inch) (3.4 cm/step)

All speaker setting values are adjustable in the range of 15 ms or 510 cm.

3 To store the adjusted setting value, touch and hold [Preset 1], [Preset 2], or [Preset 3] for at least 2 seconds.

- Touch [Flat] to set all values to 0.0.
- If the Subwoofer setting is [Off], the Subwoofer setting cannot be edited (page 14).

Calling the Time Correction Value

Calling the pre-set time correction value.

Touch [Preset 1], [Preset 2], or [Preset 3] on the time correction screen.

The setting stored in the Preset will be recalled.

Setting the Media Xpander (MX)

Media Xpander (MX) makes vocals or instruments sound distinct regardless of the music source. The SiriusXM, USB Flash drive and iPhone, will be able to reproduce the music clearly even in cars with a lot of road noise.

Setting item:
MX

1 Touch [On] of "All MX OFF/ON".

2 Touch any of [Off] [] [] [] [].

- To cancel MX mode, set [Off] in step 1.
- MP3/WMA/AAC can have its own MX setting.
- When the Defeat setting is [On], you cannot perform the set up.
- The MX setting can be performed only when a source is currently selected.

Setting Defeat

If Defeat is [On], the MX and Equalizer setting are turned Off. This disables any settings made for these functions.

Setting item:
Defeat

Setting contents:
Off (Initial setting) / On

About the Crossover

Crossover (X-Over):

This unit is equipped with an active crossover. The crossover limits the frequencies delivered to the outputs. Each channel is controlled independently. Thus, each speaker pair can be driven by the frequencies for which they have been optimally designed.

The crossover adjusts the HPF (high pass filter) or LPF (low pass filter) of each band, and also the slope (how fast the filter rolls off the highs or lows).

Adjustments should be made according to the reproduction characteristics of the speakers. Depending on the speakers, a passive network may not be necessary. If you are unsure about this point, please consult your authorized Alpine dealer.

	Cut-off frequency (1/3 octave steps)		Slope		Level
	HPF	LPF	HPF	LPF	
Subwoofer (LPF)	----	20 Hz - 200 Hz	----	0, 6, 12, 18, 24 dB/oct.	0 to -12 dB
Rear speaker (HPF)	20 Hz - 200 Hz	----	0, 6, 12, 18, 24 dB/oct.	----	0 to -12 dB
Front speaker (HPF)	20 Hz - 200 Hz	----	0, 6, 12, 18, 24 dB/oct.	----	0 to -12 dB

- HPF (high pass filter): Cuts the lower frequencies and allows the higher frequencies to pass.
- LPF (low pass filter): Cuts the higher frequencies and allows the lower frequencies to pass.
- Slope: The level change (in dB) for a frequency change of one octave.
- The higher the slope value, the steeper the slope becomes.
- Adjust the slope to FLAT to bypass the HP or LP filters.
- Do not use a tweeter without the HPF on or set to a low frequency, as it may cause damage to the speaker due to the low frequency content.
- Adjustment should be made according to the recommended crossover frequency of the connected speakers. Determine the recommended crossover frequency of the speakers. Adjusting to a frequency range outside that recommended may cause damage to the speakers. For the recommended crossover frequencies of Alpine speakers, refer to the respective Owner's Manual.

We are not responsible for damage or malfunction of speakers caused by using the crossover outside the recommended value.

About Time Correction

The distance between the listener and the speakers in a car vary widely due to the complex speaker placement. This difference in the distances from the speakers to the listener creates a shift in the sounds image and frequency characteristics. This is caused by the time delay between the sound reaching the listener's right versus the left ear.

To correct this, this unit is able to delay the audio signal to the speakers closest to the listener. This effectively creates a perception of increased distance for those speakers. The listener can be placed at an equal distance between the left and right speakers for optimum staging. The adjustment will be made for each speaker in 3.4 cm steps.

Example 1. Listening Position: Front Left Seat

Adjust the time correction level of the front left speaker to a high value and the rear right to zero or a low value.

The sound is not balanced because the distance between the listening position and the various speakers is different. The difference in distance between the front left speaker and the rear right speaker is 1.75 m (68-7/8"). Here we calculate the time correction value for the front left speaker in the diagram on the above.

Conditions:

Farthest Speaker – listening position : 2.25 m (88-9/16")

Front left speaker – listening position : 0.5 m (19-11/16")

Calculation: $L = 2.25 \text{ m} - 0.5 \text{ m} = 1.75 \text{ m}$ (68-7/8")

Time correction $= 1.75 \div 343 \times 1,000 = 5.1$ (ms)

* Speed of sound: 343 m/s (765 mph) at 20°C

In other words, giving the front left speaker a time correction value of 5.1 ms makes it seem as if its distance from the listener is the same as the distance to the farthest speaker.

Time correction eliminates the differences in the time required for the sound to reach the listening position.

The time of the front left speaker is corrected by 5.1 ms so that its sound reaches the listening position at the same time as the sound of other speakers.

Example 2. Listening Position: All Seats

Adjust the time correction level of each speaker to almost the same level.

1 Sit in the listening position (driver's seat, etc.) and measure the distance (in meters) between your head and the various speakers.

2 Calculate the difference between the distance correction value to the farthest speaker and the other speakers.

$$L = (\text{distance to farthest speaker}) - (\text{distance to other speakers})$$

These values are the time correction values for the different speakers. Setting these values to make each sound reach the listening position at the same time as the sound of other speakers.

Time Correction Value List

Time Difference (msec)	Distance (cm)	Distance (inch)	Time Difference (msec)	Distance (cm)	Distance (inch)
0.0	0.0	0.0	5.1	173.4	68.3
0.1	3.4	1.3	5.2	176.8	69.7

Volume Setup

[Volume] is selected on the Setup menu screen.

Phone Volume Setup

[Phone] is selected on the Volume Setup menu screen.

Adjusting the Ring Tone Level

You can adjust the receive volume, during the call.

Setting item:

Ring Vol.

Setting contents:

01 to 11 (Initial setting: 05)

Adjusting the Caller Level

You can adjust the volume of the incoming call.

Setting item:

Caller Vol.

Setting contents:

01 to 11 (Initial setting: 05)

Adjusting the Microphone Level

You can adjust the transmit volume, during the call.

Setting item:

Mic Vol.

Setting contents:

01 to 11 (Initial setting: 05)

Volume Setup except for Phones (Other)

[Other] is selected on the Volume Setup menu screen.

Volume Setting

You can change the volume of the sound heard when a button is touched.

Setting item:

Key Sound Feedback

Setting contents:

Off, 2nd, On

System Setup

[System] is selected on the Setup menu screen.

Setting item:

System

Setting contents:

Clock, Dimmer, Language, Reset

Clock Setup

[Clock] is selected on the System Setup Menu screen.

Setting item:

Clock Adjust

Setting items:

12h (Initial setting), 24h

Setting contents:

01 - 12 or 00 - 23, 00 - 59, AM/PM

Setting Off Display

To not display the clock when turning the unit to OFF, set "Off Display" to [On].

Setting item:

Off Display

Setting contents

Off (Initial setting), On

Screen/Lighting Customize (Dimmer)

[Dimmer] is selected on the System Setup Menu screen.

Setting the Brightness of the Backlighting (Dimmer)

Backlighting is provided by LEDs light built into the liquid crystal panel. The illumination control adjusts the brightness of the backlighting based on the car ambient lighting for easier viewing.

Setting item:

Dimmer

Setting contents:

Off, On, AUTO (Initial setting)

Off: Deactivate Auto Dimmer mode to keep the background illumination of the monitor bright.

On: Keep the background illumination of the monitor dark.

AUTO: Adjust the brightness of the background illumination of the monitor automatically to the brightness of the car interior.

- When "On" is set, the setting is also applied for the button lighting in "Adjusting the Dimmer of Button Lighting at Night" (page 19) and "Adjusting the Minimum Level of Backlight" (page 19).

Adjusting the Minimum Level of Backlight

You can adjust the brightness of the backlight. This function could be used, for instance, to change the screen brightness while traveling at night.

Setting item:

Dimmer Level

Setting contents:

-14 to 14 (Initial setting: 0)

- This setting is only available when "Dimmer" is set to [On] or [AUTO].

Adjusting the Dimmer of Button Lighting at Night

You can adjust the brightness of the button lighting at night with the dimmer.

Setting item:

Key illumination

Setting level:

-2 to 2 (Initial setting: 0)

- This setting is only available when "Dimmer" is set to [On] or [AUTO].

Language Setup

[Language] is selected on the System Setup Menu screen. The Setup menu, feedback information, etc. for this unit can be changed to appear in the selected language.

Setting item:

Language

Setting contents:

English, Français, Español, Português

- The currently selected language is displayed.

Reset

[Reset] is selected on the System Setup Menu screen. You can initialize all data, to restore the factory settings. Remove the USB flash drive, etc. from the system before operation.

Setting item:
Reset

- 1 Touch [Reset].**
 - 2 After the confirmation message appears, touch [Yes].**
The system starts initialization.
- Do not turn on/off the power, change the ignition key position or remove the screen panel until system restart is completed.

Connectivity Setup

[Connectivity] is selected on the Setup menu screen.

Setting item:
Connectivity

Using Apple CarPlay mode

Setting item:
CarPlay

Setting contents
Off, On (Initial setting)

- To use iPhone as iPod mode, select [Off].

Adjusting the Guidance Volume

Setting item:
Guidance Vol.

Setting contents
00 to 10

SiriusXM Setup

[SiriusXM] is selected on the Setup menu screen.

Setting item:

SiriusXM

Setting contents:

Parental Lock On/Off

- 6** Use the keypad to enter the new 4-digit passcode, and then touch [OK].
- 7** Use the keypad to enter the new 4-digit passcode a second time to verify it, and then touch [OK].
 - Remember to keep a note of the passcode in a safe place in case you forget the code.

Parental Lock

You can lock out channels with passcode protection. Channels that are locked cannot be accessed without entering the passcode. You can unlock a channel or change the passcode using this menu option.

Setting item:

Parental Lock On/Off

- 1** Touch [Parental Lock On/Off].
A passcode input screen is displayed.
- 2** Touch the numeric keypad to input a 4-digit passcode.
The initial default 4-digit passcode is set to 0000.
After entering the digit, it is displayed as "●".
 - Touch [] to delete an entered number.
 - Touch [Delete All] to delete all entered numbers.
- 3** Touch [OK].

Setting the Lock status of individual channels

- 4** Touch [Manage Channels].
The channels list screen is displayed.
- 5** Touch [On] or [Off] of the channels list to set the Parent Lock.

Clearing the Lock of ALL the locked Channels

- 4** Touch [Reset].
- 5** Touch [Yes] to clear the lock of all the locked channels.
Touch [No] to cancel.

Changing the Lock Passcode

- 4** Touch [Manage Code].
The numeric keypad screen is displayed.
- 5** Use the keypad to enter the current (old) 4-digit passcode, and then touch [OK].
The initial passcode is set to "0000".
 - Touch [] to delete an entered number.
 - Touch [Delete All] to delete all entered numbers.

Bluetooth Setup

[Bluetooth] is selected on the Setup menu screen.

Setting item:

Bluetooth

Setting contents:

Devices, Info, Search

Device Setup

[Devices] is selected on the Bluetooth Setup Menu screen.

You can register and set up Bluetooth compatible devices.

Pairing the Bluetooth Device

1 Touch [Devices] on the Bluetooth Setup Menu screen.

2 Touch [+] of "No Device".

3 Select this unit (iLX-W650) to set the Bluetooth connection on the Bluetooth device.

When the device registration is complete, a message appears and the device returns to normal mode.

- The Bluetooth registration process differs depending on the device version and SSP (Simple Secure Pairing). If a 4 or 6 character Passcode appears on this system, enter the Passcode on the Bluetooth device.
- If a 6 character Passkey appears on this system, make sure the same passkey is displayed on the Bluetooth device, and follow the screen.

Setting the Bluetooth Device

Select one of 4 paired Bluetooth compatible devices that you previously registered.

1 Touch [Devices] on the Bluetooth Setup Menu screen.

2 Touch [🎵] (Audio) or [📞] (Hands-free) of the device you want to connect from the Paired Device list.

Deleting a Bluetooth Device from the list

You can delete the information of a previously connected Bluetooth compatible device.

1 Touch [Devices] on the Bluetooth Setup Menu screen.

2 Touch [—] of the Bluetooth compatible device to delete from the Paired Device list.

3 Touch [Yes].

- Touching [No] will cancel the setting.

Displaying Bluetooth Information

[Info] is selected on the Bluetooth Setup Menu screen.

You can display the Bluetooth device name and device address of this unit.

Setting item:

Info

- If you touch [Unpair all devices], all paired devices will be deleted from the unit.

Searching for a Bluetooth Device

Setting item:

Search

1 Touch [Search] on the Bluetooth Setup Menu screen.
The Bluetooth devices can be searched are displayed in a list.

2 Touch the device you want to connect from the list.

- You can register up to 4 Bluetooth compatible mobile phones.
- You can connect two Bluetooth Devices; one exclusively for Hands-Free Phone and one exclusively for Bluetooth Audio.

3 When the device registration is complete, a message appears and the device returns to normal mode.

- The Bluetooth registration process differs depending on the device version and SSP (Simple Secure Pairing). If a 4 or 6 character Passcode appears on this system, enter the Passcode using the Bluetooth device. If a 6 character Passkey appears on this device, make sure the same passkey is displayed on the Bluetooth compatible device.
- If all 4 devices have been registered, you cannot register a 5th device. To register another device, you need to delete one of the other 4 devices first.

Auto Connection

When the ACC is turned ON, the Bluetooth Hands-Free device is automatically connected. After connecting to the Hands-Free device, the Bluetooth Audio device is also connected automatically.

Downloading the Phonebook

If Hands-Free device is connected, you can download the phonebook from the device.

- When the device is disconnected, the downloaded phonebook is not shown.

Camera Setup

[Camera] is selected on the Setup Menu screen.
You can set up items related to the Camera.

Touch [Page 1], [Page 2] or [Page 3] to change the screen.

Camera Primary and Secondary Setting

When you connect two cameras or more, set the priority for displaying on the screen.

Setting item:

Primary, Secondary (Page 1)

Setting contents:

Off, Rear, Front, Side (R), Side (L), Other 1, Other 2

- If the content is set to "Primary", it is not displayed in "Secondary". If the content "Secondary", it is not displayed in "Primary". These do not apply if the content is set to [Off].

Camera Picture Quality Setup

You can adjust the picture quality for the primary and secondary cameras.

Setting item:

Picture Quality (Page 2)

Further setting item:

Adjustment

- You can switch to the setup screen for the secondary camera by touching the secondary camera button.
- When both "Primary" and "Secondary" are set to [Off], [Page 2] cannot be selected.

Adjusting Brightness

Setting item:

Brightness

Setting contents:

-5 to 5 (Initial setting: 0)

- You can adjust the brightness between MIN (-5) and MAX (5).

Adjusting Color of Display

Setting item:

Colors

Setting contents:

-5 to 5 (Initial setting: 0)

- You can adjust the color between MIN (-5) and MAX (5).

Adjusting Display Contrast

Setting item:

Contrast

Setting contents:

-5 to 5 (Initial setting: 0)

- You can adjust the contrast between MIN (-5) and MAX (5).

Setting the Camera Signal Input

When the camera is connected, the video input signal type can be chosen.

Further setting item:

Camera Signal (Page 2)

Setting contents:

NTSC (Initial setting) / PAL

- When both "Primary" and "Secondary" are set to [Off], [Page 2] cannot be selected.

Turning the Rear Camera Guide On/Off

When displaying the rear camera view on the screen, you can set to hide or show the camera guide.

Setting item:

Rear Camera Guide (Page 3)

Setting contents:

Off / On

- When both "Primary" and "Secondary" are set to [Off], [Page 3] cannot be selected.
- To use this setting, set "Primary" or "Secondary" to [Rear].

Adjusting the Rear Camera Guide

You can adjust the camera guide position.

Setting item:

Rear Camera Guide (Page 3)

Further setting item:

Adjustment

1 Touch [Adjustment] on “Page3”.

The camera guide adjustment screen is displayed.

- When both “Primary” and “Secondary” are set to [Off], [Page 3] cannot be selected.
- To use this setting, set “Primary” or “Secondary” to [Rear].
- To use this setting, set “Rear Camera Guide” to [On].

2 Touch the icon you want to move.

3 Touch [↑], [↓], [←] or [→] to move the icon.

- Touching [Reset] clears adjustments and returns to the setting before guide line alteration.

4 Touch [↶] to complete the adjustment and return to the previous screen.

Information

[Information] is selected on the Setup menu screen.

Information about this system is shown.

- To update the software of this system, refer to “Product Software Update” (page 41).

Apple CarPlay (Optional)

Apple CarPlay is a smarter, safer way to use your iPhone in the car. Apple CarPlay takes the things you want to do with your iPhone while driving and puts them right on the unit. You can get directions, make calls, send and receive messages, and listen to music, all in a way that allows you to stay focused on the road. Just plug in your iPhone to the unit and go.

- Before using this function, plug in your iPhone using Lightning to USB Cable (Supplied with iPhone) to the unit.
- Some functions may not be available while driving.
- About iPhone models usable with this unit, see "iPod mode on iPhone (Optional)" (page 29). Only an iPhone 5s or later compatible with Apple CarPlay function.
- Before operating Apple CarPlay, set "CarPlay" to [On] (page 20).

Access to Apple CarPlay

1 Touch the (HOME) button.

The HOME screen is displayed.

2 Touch [Apple CarPlay].

The Apple CarPlay screen is displayed.

Touch the desired App icon on the unit, or use Siri function by touching the  button.

- When a used iPhone 5s or later is reconnected, touch the pop-up message-"Apple CarPlay connected." within 5 seconds to access to Apple CarPlay screen.
- The App must be Apple CarPlay compatible in order to appear in the Home screen.

Android Auto (Optional)

What is Android Auto

Android Auto is designed to make it easier to use apps from your phone while you're on the road. Navigate with Google Maps, listen to playlists or podcasts from your favorite apps, and more.

Activate Android Auto

Download the Android Auto App from the Google Play store before continuing.

Just plug in your smartphone to the unit's USB connector, then follow the prompt to pair your smartphone with the unit.

- The connected smartphone with Android Auto will disconnect other phone's Bluetooth connection and pair to the unit.

1 Touch the (HOME) button.

The HOME screen is displayed.

2 Touch [Android Auto].

The Android Auto screen is displayed.

- You can make a call, use voice recognition function and Android Auto's compatible navigation app, etc.,.
- Only Google approved apps with necessary driver-safety measures in place can be used.

Radio

Radio main screen example

- ① Band button
Switches a band.
- ② Information display
- ③ Preset button
Displays the preset stations with a short touch.
Touch for at least 1 second to memorise the current station as a preset station.
- ④ Plays each preset station for about 5 seconds.
- ⑤ Memorises stations automatically
- ⑥ Searches a station, and then plays it for about 5 seconds.
- ⑦ Increases frequency
Touch and hold to change the frequency continuously.
- ⑧ Decreases frequency
Touch and hold to change the frequency continuously.

Radio Basic Operation

Listening to the Radio

- 1 Touch the [HOME] button and select radio mode.**
The display shows the radio mode screen.
- 2 Select the desired band from [FM1] / [FM2] / [FM3] / [AM].**
- 3 Touch [◀▶], [▶▶] to change the radio frequency up or down respectively.**
Touch and hold to change the frequency continuously.

Presetting Stations Manually

- 1 Tune in a desired radio station you wish to store in the preset memory by manual or automatic seek tuning.**
 - 2 Touch and hold the Preset number you want to store for at least 1 second.**
The selected station is stored.
 - 3 Repeat the procedure to store up to 5 other stations onto the same band.**
To use this procedure for other bands, simply select the desired band and repeat the procedure.

A total of 24 stations can be stored in the preset memory (6 stations for each band; FM1, FM2, FM3, or AM).
- If a preset memory has already been set in the same preset number, it will be cleared and the new station will be memorized.

Presetting Stations Automatically

The tuner can automatically seek and store 6 strong stations in the selected band in ascending order of frequency.

Select the desired band then touch and hold [A.MEMO].

The tuner automatically seeks and stores 6 strong stations into the preset buttons in ascending order of frequency.

When automatic storing has completed, the station stored in the preset 1 is selected.

- If no stations are stored, the tuner will return to the original station you were listening to before the automatic storing procedure began.
- You can cancel this process by touching [A.MEMO] while the tuner is automatically seeking stations. Canceling will return the tuner preset to the previous setting.

Tuning to Preset Station

After selecting the desired band, touch the desired preset button.

Scanning Stations

The tuner can automatically seek and plays the station for 5 seconds each.

- 1 After selecting the desired band, touch [F.SCAN].**
Scanning stations starts.
- 2 When the desired station is played, touch [F.SCAN] again.**

Scanning Preset Stations

The tuner can automatically play preset stations for 5 seconds each.

- 1 After selecting the desired band, touch [P.SCAN].**
Scanning preset stations starts.
- 2 When the desired station is played, touch [P.SCAN] again.**

USB Flash drive (Optional)

You can play back music files (MP3/WMA/AAC/FLAC/WAV), video files (MP4/AVI/WMV/MOV) and photo files (JPG/PNG/BMP) stored in a USB flash drive on the internal player of this system.

⚠ WARNING

It is dangerous for the driver to watch video while driving the vehicle. The driver may be distracted from looking ahead and an accident could occur.

Install the unit correctly so that the driver cannot watch a video unless the car is stopped and the parking brake is applied.

If the unit is not installed correctly, the driver will be able to watch a video while driving and may be distracted from looking ahead and cause an accident. The driver or other people could be severely injured.

The USB Video/USB Photo operation screen display during video/photo file playback

Touch the screen while the USB Video/USB Photo playback screen is displayed.

The USB Video/USB Photo operation screen is displayed.

- The operation screen changes to the visual screen in the USB Video/USB Photo mode for 5 seconds after an operation has been performed.
- For your safety, video is not displayed and only audio can be heard while driving.

Playback

- 1 **Touch the  (HOME) button and select USB mode.**
The display shows the USB mode screen.
- 2 **Touch [▶ Mode].**
- 3 **Select the desired mode.**
: USB Audio mode
: USB Video mode
: USB Photo mode
- 4 **Touch [◀◀] or [▶▶] to select the desired track (file).**
Returning to the beginning of the current (or previous) track (file):
Touch [◀◀].
Fast reverse :
Touch and hold [◀◀].
Advancing to the beginning of the next track (file) :
Touch [▶▶].
Fast forward :
Touch and hold [▶▶].
- 5 **To pause playback, touch [⏸] (USB Audio or Video).**
Touching [⏸] again will resume playback.

- The playback time may not be correctly displayed when a VBR (Variable Bit Rate) recorded file is played back.
- If there is tag information, artist name/album name/track name is displayed.
- ID3 tag/WMA tag
If an MP3/WMA/AAC/FLAC/WAV file contains ID3 tag/WMA tag information, the ID3 tag/WMA tag information is displayed. (e.g., song name, artist name, and album name)

Fast-forwarding/Fast-reversing (USB Video)

- 1 **During playback, touch and hold [◀◀] (Fast-reverse) or touch and hold [▶▶] (Fast-forward).**
Touch and hold for more than 1 second to fast-forward/fast-reverse.
- 2 **Release [◀◀] or [▶▶] to return to normal playback.**
 - No sound is played back during fast-forwarding/fast-reversing.

Repeat Play (USB Audio or USB Video)

- 1 **Touch and hold [↺].**
 - The [↺] button displays the currently selected mode.
 - 2 **Select your desired Repeat mode.**
: All files are repeatedly played back.
: Only the file currently playing is repeatedly played back.
: Only files in a folder are repeatedly played back.
- By only touching [ALL ], you can select the mode except for [File ].

Shuffle Play (USB Audio or USB Video)

- 1 **Touch and hold [↻].**
 - The [↻] button displays the currently selected mode.
 - 2 **Select your desired Shuffle mode.**
: All songs in the USB flash drive are played back in random sequence. Any one song does not play back again until all songs have been played back.
: A Folder is selected randomly and songs in the Folder are played back in order. After all songs are played in a Folder, the next Folder is selected randomly.
: Shuffle mode is Off.
- By only touching [↻], you can select the mode except for [ALL ].

Searching for a Desired Song/Video/Photo

- 1 **Touch [Q] (Search).**
- 2 **Touch [◀] or [▶] to select the folder.**
- 3 **Touch your desired File name.**

When you select a Folder name, repeat the same procedure to select another Folder name or File name.

Slide Show (USB Photo)

The Slide Show shows photos that change every 2 seconds.

Touch [▶ ] on the Photo mode screen.

About USB Video format

The video formats (USB Flash drive) supported by the unit are as follows.

- Supported Container: MP4/AVI/WMV/MOV
- Supported Video Coding: H.264/MPEG-4 AVC
- Supported Audio Coding: MP3, AAC
- MAX File Size: 4GB

iPod mode on iPhone (Optional)

A separately sold Lightning to USB cable (KCU-471i), etc., is required.

- This unit does not support video playback from iPhone which connected to this unit via USB Connector.
- Internet or telephone function, etc., of the iPhone is not controllable from the unit, but these functions can be controlled using the iPhone itself.
- Before operating iPod mode on iPhone, set "CarPlay" to [Off] (page 20).

About iPhone models usable with this unit

- The following devices have been tested and shown to work with this unit. Correct function of earlier versions cannot be guaranteed.
 - iPhone X
 - iPhone 8
 - iPhone 8 Plus
 - iPhone 7
 - iPhone 7 Plus
 - iPhone SE
 - iPhone 6s
 - iPhone 6s Plus
 - iPhone 6
 - iPhone 6 Plus
 - iPhone 5s

■ iPod main screen example

- ① Artwork display
- ② Information display*
- ③ Repeat mode
- ④ Current song no./Total song no.
- ⑤ Elapsed time/Total time for playing
- ⑥ Displays the search screen
- ⑦ Finds the beginning of the current file/Finds a previous file within one second after playback starts/Fast-reverses when touched for at least 1 second
- ⑧ Pause and Play
- ⑨ Finds the beginning of the current file/Finds a previous file within one second after playback starts/Fast-reverses when touched for at least 1 second
- ⑩ Shuffle mode

* Podcast mode.

Playback

- 1 Touch the  (HOME) button and select iPod mode.**
The display shows the iPod mode screen.
- 2 Touch [] or [] or to select the desired track (file).**
Returning to the beginning of the current (or previous) track (file):
Touch [].
Fast reverse the current track :
Touch and hold [].
Advancing to the beginning of the next track (file) :
Touch [].
Fast forward the current track :
Touch and hold [].
- 3 To pause playback, touch [].**

- If a song is playing on the iPhone before it is connected to the unit, it will continue playing when it is connected.
- An episode may have several chapters. The chapter can be changed by touching [] or [].
- If the artist, album or song name, created in iTunes, has too many characters, songs may not be played back when connected to the unit. Therefore, a maximum of 64 characters is recommended. The maximum number of characters for the unit is 64.
- Some characters may not be correctly displayed.

Searching for a Music File

An iPhone can contain thousands of songs. For this reason, this unit can make various searches using the search function as shown below. Using the Playlist/Artist/Album/Podcast/Audiobook/Genre/Composer/Song/iTunes Radio search mode's individual hierarchy, you can narrow down your search as shown in the table below.

<Music Search Menu>

Hierarchy 1	Hierarchy 2	Hierarchy 3	Hierarchy 4
Radio	—	—	—
Playlists	Songs	—	—
Artists	Albums	Songs	—
Albums	Songs	—	—
Songs	—	—	—
Genres	Artists	Albums	Songs
Composers	Albums	Songs	—
Podcast	Episodes	—	—
Audiobook	—	—	—

For example: Searching by Artist name

The following example explains how an Artists search is performed.

1 Touch [Q] (Search) during playback.

2 Touch [Artists].

The Artists search screen is displayed.

3 Select the desired artist.

4 Touch the desired album's name.

All songs of the selected album are displayed.

5 Touch the desired song's name.

The selected song is played back.

• If you touch [🔍], the category browsing mode screen is displayed.

Repeat Play

1 Touch [🔁].

• The [🔁] button displays the currently selected mode.

2 Select your desired Repeat mode.

ALL : All files are repeatedly played back.

File : Only the file currently playing is repeatedly played back.

OFF : Repeat mode is Off.

Shuffle Play

1 Touch [🔀].

• The [🔀] button displays the currently selected mode.

2 Select your desired Shuffle mode.

The selected Shuffle mode changes the button.

ALL : All songs in the iPod are played back in random sequence. Any one song does not play back again until all songs have been played back.

OFF : Shuffle mode is Off.

SiriusXM Satellite Radio Operation (Optional)

SiriusXM Tuner operation:

When an optional SiriusXM Tuner is connected to this unit, the following operations may be performed.

■ SiriusXM main screen example (Song Info. Mode)

- ① Signal Indicator
Indicates the signal strength of SiriusXM.
- ② Information display
Channel Info. Mode:
Channel No./Long Channel Name/Category Name
Song Info. Mode:
Artist Name/Song Name/Content Info
- ③ Preset buttons
Displays the preset channels with a short touch.
Touch for at least 1 second to memorize the current channel as a preset channel.
- ④ Select the channel number
- ⑤ Changes text information
- ⑥ Displays the search screen
- ⑦ Changes to category browsing mode
- ⑧ Changes to the next channel
- ⑨ Changes to the previous channel

Receiving Channels with the SiriusXM Tuner

About SiriusXM Satellite Radio

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy and entertainment. Welcome to the world of satellite radio. A SiriusXM Vehicle Tuner and Subscription are required. For more information, visit www.siriusxm.com.

After you have found the SiriusXM Radio ID, you can activate your radio. See section “Checking the SiriusXM Radio ID Number.”

In the USA, you can activate online or by calling SiriusXM Listener Care:

- Visit www.siriusxm.com/activatenow
- Call SiriusXM Listener Care at 1-866-635-2349

For Canadian Subscriptions, please contact:

- Visit www.siriusxm.ca/activatexm
- Call XM Customer Care at 1-877-438-9677
- The SiriusXM Satellite Radio controls on this unit are available only when a SiriusXM Tuner is connected.

- 1 Touch the (HOME) button and select SiriusXM mode. The display shows the SiriusXM mode screen.
- 2 Touch [◀] or [▶] to select the desired channel. Touching and holding either button will rapidly browse through the channels.

- Refer to the SiriusXM Tuner User Guide for details on how to install the SiriusXM Tuner.

Tuning Channels by Category

Channels are grouped into categories based on the type of content heard on the channels.

- 1 Touch [Category] on the SiriusXM main screen to activate the category browsing mode. The channels within the category of the current channel are listed.

■ Category browsing mode screen example

- Touching [Info] changes the display of information for the channels in the category with the following three options.
Channel No./Channel Name → Channel No./Artist Name → Channel No./Song Title → Channel No./Content Info → Channel No./ Channel Name

- 2 Touch [◀] or [▶] on the category browsing mode screen to select a desired category. The Category Name is shown at the top of the display.
- 3 Select the desired channel.

Changing the Display

Text information, such as the channel name, artist name/feature, and song/program title, is available with SiriusXM. The unit can display this text information as explained below.

Touch [Info].

Each time you touch this button, the Channel Info. mode and the Song Info. mode switch alternately. For displayed contents, see "SiriusXM main screen example (Song Info. Mode)" (page 31).

Checking the SiriusXM Radio ID Number

To subscribe to the SiriusXM Satellite Radio service, it is necessary to locate and identify the Radio ID of your SiriusXM Tuner. You can check the Radio ID on the bottom surface of the SiriusXM Tuner box. You can also check it from this unit by performing the following procedure.

1 While receiving SiriusXM Radio, touch [◀] or [▶] to select channel "0".

The unit displays the Radio ID number.

2 To cancel the Radio ID number display, change the channel to a channel other than "0".

- The SiriusXM Radio ID does not contain the letters I, O, S, or F.

Storing Channel Presets

You can store 18 of your favorite SiriusXM channels for easy recall with Preset buttons.

1 Touch and hold the Preset number you want to store for at least 1 second to store the channel.

The selected channel is designated as a SmartFavorites channel.

2 Repeat the procedure to store up to 17 other channels.

A total of 18 channels can be stored in the preset memory.

- If you store a new channel into a preset which already has a channel assigned, the current channel will be cleared and replaced with the new one.

Tuning Channels using Presets

Touch any one of the Preset numbers you have already stored in the Preset mode screen.

The preset channel is received.

Search Function

1 Touch 🔍.

The Search list screen appears.

Search item:

All Channels / Category Name*

* The Category name for the channel currently being received is displayed.

- You can switch the category by touching [◀] or [▶] on the List screen after selecting a Search item.
- You can switch the display format by touching [Info] in the List screen after selecting a Search item.

Channel No./Channel Name → Channel No./Artist Name → Channel

No./Song Title → Channel No./Content Info → Channel No./Channel Name

Searching by Channel

2 Touch [All Channels].

All Channels will be displayed in a list.

3 Touch the selected channel.

The channel you selected is received.

Searching by Category

2 Touch Category Name.

The channels within the category of the current channel are listed.

3 Touch the selected channel.

The channel you selected is received.

Selecting the Channel Directly

You can directly select the channel number by using the numeric keypad.

1 Touch [Direct Tune].

The numeric keypad input screen is displayed.

2 Touch to input the channel number.

3 Touch [OK].

The selected channel is received.

Parental Lock Function

The Parental Control feature allows you to limit access to any SiriusXM channels, including those with mature content. When enabled, the Parental Control feature requires you to enter a passcode to tune to the locked channels. For information on setting the Parental Control passcode, see "Parental Lock" (page 21).

When a locked channel is selected, "Channel [xxx] Locked" is displayed and then the numeric keypad appears for you to enter the passcode.

Input the 4-digit passcode you set in "Parental Lock" (page 21).

The initial number is 0000.

- If you input a wrong passcode, "Incorrect Pass Code entered" is displayed.
- After entering the correct passcode, you can access all locked channels without entering the passcode again until the unit is powered off and then back on.

Bluetooth Operation

Setup Before Using

About Bluetooth

Bluetooth is a wireless technology allowing communication between a mobile device or personal computer over short distances. This enables a hands-free call or data transmission between Bluetooth compatible devices. Bluetooth transmission is available in the unlicensed 2.4 GHz spectrum if the distance between devices is within 10 meters. For details, refer to the Bluetooth website (<http://www.bluetooth.com/>).

- Depending on the Bluetooth version, a Bluetooth compatible device may not be able to communicate with this unit.
- Proper function of this unit with all Bluetooth compatible devices is not guaranteed. For handling of the Bluetooth compatible device, consult your Alpine dealer or Alpine website.
- Depending on the surroundings, Bluetooth wireless connection may be unstable.
- When you place a call, or perform setup operations, be sure to stop your car in a safe place.
- Depending on the connected Bluetooth compatible device(s), the function may differ. Also refer to the Owner's Manual of the connected device(s).

About the Hands-free Phone

Hands-free calls are possible when using a HFP (Hands-Free Profile) compatible mobile phone with this unit.

- Avoid performing a hands-free call in heavy traffic or on narrow or winding streets.
- Close the windows while calling to reduce background noise.
- If both calling parties are using hands-free devices, or the call is made in a noisy location, difficulty hearing the other person's voice is normal.
- Depending on telephone line conditions or certain mobile devices used, voices may sound unnatural.
- When using a microphone, speak as directly as you can into the microphone to obtain the best sound quality.
- Certain mobile phone features are dependent on the capabilities and settings of your service provider's network. Additionally, certain features may not be activated by your service provider, and/or the provider's network settings may limit the feature's functionality. Always contact your service provider about feature availability and functionality.

All features, functionality, and other product specifications, as well as the information contained in the Owner's Manual are based upon the latest available information and are believed to be accurate at the time of printing.

Alpine reserves the right to change or modify any information or specifications without notice or obligation.

- Notice that when you connect an iPhone 5s or later/Android smartphone which installed Android Auto App, the operation screen may differ from this section.

Before Using Bluetooth

Before using the hands-free phone/audio function, the following settings need to be made.

Register a Bluetooth device in this unit.

- See "Bluetooth Setup" (page 22).
- You can search for this unit using a Bluetooth compatible device, and then connect that Bluetooth compatible device to this unit. The device name of this unit is "iLX-W650" and the initial number of the passcode is "0000." Also refer to the Owner's Manual of the connected device(s).

Hands-free Phone Control

Touch **[Bluetooth]** in the HOME screen to display the Bluetooth menu screen.

[Phone] button

Phone menu screen example

- Keypad screen**
Use to type a phone number.
- Recent Events list***
You can display up to 60 items, such as phone numbers of the most recent incoming calls, missed calls and outgoing calls, and contact names that are registered in the Phone Book. When 60 items exist in the list, the oldest item is deleted when a further item is to be added.
- Contacts list***
You can make a phone call from the Phone Book, or edit the Phone book.

* If the Hands-Free Phone is not connected, the Bluetooth Setup screen will be displayed. See "Bluetooth Setup" (page 22).

Answering a Call

- 1 An incoming call triggers the ringtone and an incoming call display.

- 2 Touch [Answer].
The call starts.

- During a call, the audio for the current mode on the unit is muted. After calling, playback will resume.
- When the caller's number is transmitted to the system, if the caller's name is stored in the phone book, the name is displayed. If the name is not stored, the number is displayed.
- Touch [Decline] to reject an incoming call.
- By touching [End Call] during phone call, you can change to the Phone Operation screen and adjust the speech volume, etc. For details, see "Phone Operation Screen" (page 36).

Hanging up the Telephone

- 1 Touch [End Call].
The call finishes.

Calling

Making a phone call using the Phone Menu

Entering a Phone Number to Make a Call

- 1 Touch [Keypad].
The number input screen (Keypad) appears.

Touch [X] to delete an entered number.

- 2 Enter the phone number you wish to call.
 - You can enter up to 21 digits.

- 3 Touch [Call].

The phone call is started.

- To change the Bluetooth device, touch ## to display the Bluetooth Setup screen. See "Bluetooth Setup" (page 22).

Making a phone call from the Recent Events list

- 1 Touch [Recents] to change to the Recent Events list screen.

- 2 Select a category from [Incoming], [Outgoing], or [Missed].

- 3 Touch the name of the contact or number you want to call.

The phone call is started.

Calling from the Contacts list (Phone Book)

- 1 Touch [Contacts] to change to the Contacts list screen.
- 2 Touch the name of the contact or number you want to call.

3 Touch the phone number.

The Phone Operation screen is displayed.

4 Touch the number you want to call.

The phone call is started.

- The Contacts list screen is also displayed by touching [📞] on the Phone Operation screen.

Using Voice Recognition function

You can use Siri function of your iPhone or make a telephone call by using voice operation of your smartphone.

- When using Apple CarPlay or Android Auto, the operation screen may differ from the screen design in the Owner's Manual.

Using Siri

You can use the Siri function of your iPhone. To use this function, set the Siri setting of your iPhone to ON.

- Connect your iPhone to the unit via Bluetooth, then set to "Hands-free" or "Both" (page 22).
- The available functions differ depending on the connected iPhone.
- Ask Siri to play a track from the music library applies only to USB source.
- Siri and other streaming services are enabled by connecting to compatible smartphones that are able to receive data. Please ensure that cellular data and/or Wi-Fi is turned on in the smartphone to enjoy these features.
- Extensive use of Siri or other streaming services may increase your phone's data usage. Please check with your phone company to ensure you have an appropriate Data plan.

1 Touch [📞] button.

The Voice Recognition mode screen is displayed.

2 Speak into the microphone supplied with this unit.

- If no speech is detected, the unit may pause depending on version of the connected iPhone. In that case, touch the microphone icon [📞] in the center of the Voice Control mode screen. You can continue to use the Voice Control mode.

3 To finish the Voice Control mode, touch [X].

- Depending on the iPhone, the Siri function may finish automatically.
- For adjusting the volume, see "Adjusting the Speech Volume" (page 36).

Voice Dial Function

You can make a telephone call by using voice operation.

- Connect your smartphone to the unit via Bluetooth, then set to “Hands-free” or “Both” (page 22).

1 Touch [🎤] button.

The Voice Dial mode screen is activated.

2 Say the telephone number* or name* you want to call, into the microphone.

* The number and name depend on the voice dial information stored in the smartphone.

3 To finish the Voice Dial mode, touch [X].

- You can perform this operation only when a voice dial compatible smartphone is connected.
- The Voice Dial function performance depends on the recognition range of the smartphone and mounting location of the microphone. Note when the microphone is mounted.
- Voice dial operation depends on the function being available on the smartphone. For details, refer to the owner's manual of the smartphone.
- Depending on the smartphone, the Voice Dial operation may finish automatically.
- For adjusting the volume, see “Adjusting the Speech Volume” (page 36).

Phone Operation Screen

Adjusting the Speech Volume

You can adjust Caller Level and Mic. Level (Microphone Level).

1 Touch [🔊].

2 Touch [–] or [+] of “Mic Vol.” or “Caller Vol.”

You can adjust the volume in 11 levels.

- This operation is not available for the Private Call setting.

Changing the Voice Output

The voice output for calls is switchable between car speakers and the mobile phone speaker.

Touch [Private] or [Handsfree].

- Depending on the mobile phone, this operation may not be possible.

DTMF (Touch-Tone) Function

Transmits a DTMF (Touch-Tone) during a call.

1 Touch [📄] (Keypad).

The number input screen (Keypad) appears.

2 Input number.

- You can transmit a Touch-Tone signal during a call.

Phone Book Function

Phone Book screen example

- ① Use to search by directly inputting a name or phone number with the Keypad.
For details, see "How to Input Characters and Numbers (Keypad)" (page 11).
- ② Use to narrow down your search for names, etc.

Synchronizing the Phone Book

You can synchronize the system's phone book with the mobile phone's phone book.

Touch [Download].

Synchronization of the phone books starts.

- You can store up to 1,000 registered name in the phone book.
- You can store up to 3 phone numbers by one person's name.

Searching in the Phone Book

You can make a call using the phone book search function.

1 Touch [Search].

The Input User Name screen (Keypad) is displayed.

2 Input the string of letters of the name that you want to search, then touch [OK].

A list of names beginning with the string of letters you entered is displayed.

3 Touch the name you want to call.

The Phone Operation screen is displayed.

4 Touch the phone number.

The phone call is started.

- For details of how to input characters using the keypad, see "How to Input Characters and Numbers (Keypad)" (page 11).

Bluetooth Audio

If a Bluetooth compatible mobile phone, portable player, etc. is connected by wireless, you can play back a song (operation is controllable from the unit).

- Operation may vary, depending on the Bluetooth compatible device.

Bluetooth Audio main screen example

- ① Information display
- ② Current track number/Total track number
- ③ Elapsed time/Total time for playing
- ④ Finds the beginning of next chapter/Fast-forwards when touched for at least 1 second
- ⑤ Pause and Play
- ⑥ Finds the beginning of the current file/Finds a previous file within one second after playback starts/Fast-reverses when touched for at least 1 second
- ⑦ Shuffle mode
- ⑧ Repeat mode

- The displayed onscreen buttons may differ depending on the AVRCP version.
- Song title/Artist title/Album title/Elapsed time do not display for AVRCP Ver. 1.0.
- To play back audio, a mobile phone or a portable player conforming to A2DP (Advanced Audio Distribution Profile) or AVRCP (Audio/Video Remote Control Profile) is required.
Not all functions work with all devices.
- During a call, sound on the Bluetooth audio source is paused.

Compatible AVRCP versions: 1.0, 1.3, 1.4, 1.5

- Available functions may differ depending on the AVRCP version.

Playback

1 Touch the (HOME) button and select Bluetooth Audio mode.

The display shows the Bluetooth Audio mode screen.

2 Touch [] or [] to select the desired track (file).

Returning to the beginning of the current file:

Touch [].

Fast backward the current file:

Touch and hold [].

Advance to the beginning of the next file:

Touch [].

Fast forward the current file:

Touch and hold [].

3 To pause playback, touch [].

Repeat Play

Available for AVRCP Ver. 1.4 and 1.5 only.

1 Touch [].

- [] displays the currently selected mode.

2 Select your desired Repeat mode.

The selected Repeat mode changes the button.

All Track : Once all of the songs have finished playing, play back is repeated, starting with the first song.

Single Track : Only the track currently playing is repeatedly played back.

Off : Repeat mode is Off.

- Operations may differ depending on the connected Bluetooth compatible device.

Shuffle Play

Available for AVRCP Ver. 1.4 and 1.5 only.

1 Touch [].

- The [] button displays the currently selected mode.

2 Select your desired Shuffle mode.

The selected Shuffle mode changes the button.

All Track : All songs in the Bluetooth compatible devices are played back in random sequence. Any one song does not play back again until all songs have been played back.

Off : Shuffle mode is Off.

- Operations may differ depending on the connected Bluetooth compatible device.

Camera Operation (Optional)

When an optional camera is connected, the view video of camera can be output to the monitor.

Rear camera:

If a rear camera is connected, when the vehicle is reversed, the rear camera view (guide marks for vehicle width and available distance) is displayed automatically on the screen of this unit.

Front camera:

You can check the front of the vehicle with a bad visibility road.

You can adjust the quality of the camera image.

Setting items: Brightness / Color / Contrast

See "Camera Picture Quality Setup" (page 23).

Camera Operation

Displaying the Camera Image from the Menu screen

1 Touch the (HOME) button.

The HOME screen is displayed.

[Camera] button

- If both "Primary" and "Secondary" are set to [Off] (page 23), the [Camera] button cannot be selected.

2 Touch [Camera].

The view of the camera which is set in the "Primary" setting is displayed.

- If "Primary" is set to [Off], the view of the camera set in the "Secondary" setting is displayed.
- Touch the screen when the camera image is displayed, and touch the secondary camera button to switch to the secondary camera view image.
- Touch the screen while the camera image is being displayed, and touch [X] to return to the main source screen or previous screen.
- You can perform a Guide Adjustment for the rear view image. For details, see "About the Rear Camera Guide" (page 39).

Displaying the rear view video while the car is in reverse

1 Shift the gear lever to the reverse (R) position.

The rear view image is displayed while the car remains in reverse.

- If neither "Primary" and "Secondary" is set to [Rear] (page 23), the rear view image is not displayed.

2 If you shift the gear lever to a position other than reverse (R), the monitor returns to the previous screen.

- Touch the screen when the camera image is displayed, and touch the secondary camera button to switch to the secondary camera view image.
- Never depend solely on the camera when backing up. Always turn and look and only use the camera for additional assistance.
- This function is effective when the reverse wire is properly connected.
- You can perform a Guide Adjustment for the rear view image. For details, see "About the Rear Camera Guide" (page 39).

About the Rear Camera Guide

To display the guide, set "Turning the Rear Camera Guide On/Off" (page 23) to On. Also, to adjust the guide, see "Adjusting the Rear Camera Guide" (page 24).

■ Indication mark meaning

When the car is put into reverse gear, the monitor switches to the rear view camera image. Guides appear to help visualize the car's width and distance from the rear bumper.

① Car width extension marks (red, yellow and green in order of distance)

If properly calibrated, the marks indicate the car's width. This helps guide the car's path when backing up in a straight line.

The marks represent the distance from the rear of the car (from the rear end of the bumper).

- The marks do not move in synchronization with the steering wheel.
- Set the marks to suit the car's width.

② Distance guidance marks

The marks represent the distance from the rear of the car (from the rear end of the bumper).

- The marks do not move in synchronization with the steering wheel.
- We recommend that you measure the actual distance to the marks when parked on a level surface.

- Depending on the condition of the car or road surface, the range of vision may vary.
- The camera has a limited range of vision. Objects at extreme angles to the camera (e.g. under the bumper or at opposite ends of the bumper) may not be in its field-of-vision.
- The rear camera image may have a tint which is different from the actual surroundings.
- Depending on the car, the guidance may deviate to the right or left. This is not a malfunction.

Distance guidance mark

The distance guides represent the ground level distance from the rear bumper. It is difficult to accurately estimate the distance to objects above ground level.

In the following example, the distance to A is 0.5 m and the distance to B is 1 m.

<Screen>

<Positions of A, B and C>

In the screen, according to the distance guidance marks, the truck seems to be parked about 1 m away (at the position B). In actual fact, however, if you reversed to position B, you would collide with the truck.

In the screen, positions A, B and C seem to be located in order of proximity. However, in actual fact, the position A and C are the same distance, and B is farther away than positions A and C.

- The car width extension mark represents the distance to the road surface. The distance to an object on the road is not accurately represented by the guides.

Error between the screen and the actual road surface

In the following conditions, errors are produced between the screen guidance and the actual road surface. (The illustrations represent a case when the camera is installed in the standard position.)

When there is a steep upward slope behind the car (example)

<Screen>

Distance guidance marks

<Situation of the car>

The distance guidance mark represents the distance to a flat road surface. Therefore in the case of an upward slope behind the car, the distance guides are displayed closer to the rear bumper than the actual distance. For example, if there is an obstacle on the upward slope, it may appear farther away than its actual position. Also, an error may occur between the guidance and the actual path of the car on the road surface.

When there is a steep downward slope behind the car (example)

<Screen>

<Situation of the car>

In the case of a downward slope behind the car, the distance guides are displayed farther from the rear bumper than the actual distance.

If there is an obstacle on the downward slope, it seems closer than its actual position.

Also, an error may occur between the guidance and the actual path of the car on the road surface.

Information

Product Software Update

This product uses software that can be updated through a USB flash drive. Download the software from the Alpine website and update the product using the USB flash drive.

- 1 Connect the USB flash drive which includes with the update software.**
- 2 Touch [Information] on the Setup menu screen.**
- 3 Touch [Firmware Upgrade].**
Software updating starts.

Updating this product

Check the Alpine website for details on updating.

<http://www.alpine-usa.com>

Important information on the software

About the software license of the product

The software installed in the product contains open-source software. See the open source licenses at the end of the manual (page 56) for details on the open source software.

About the Supported Formats

About MP3/WMA/AAC/FLAC/WAV

CAUTION

Except for private use, duplicating audio data (including MP3/WMA/AAC/FLAC/WAV data) or distributing, transferring, or copying it, whether for free or for a fee, without permission of the copyright holder is strictly prohibited by the Copyright Act and by international treaty.

What is MP3?

MP3, whose official name is "MPEG Audio Layer 3," is a compression standard prescribed by the ISO, the International Standardisation Organisation and MPEG which is a joint activity institution of the IEC.

MP3 files contain compressed audio data. MP3 encoding is capable of compressing audio data at extremely high ratios, reducing the size of music files to as much as one-tenth their original size. This is achieved while still maintaining near CD quality. The MP3 format realizes such high compression ratios by eliminating the sounds that are either inaudible to the human ear or masked by other sounds.

What is WMA?

WMA, or "Windows Media™ Audio," is compressed audio data. WMA is similar to MP3 audio data.

What is AAC?

AAC is the abbreviation for "Advanced Audio Coding," and is a basic format of audio compression used by MPEG2 or MPEG4.

What is FLAC?

FLAC (Free Lossless Audio Codec) is an audio file codec for lossless compression, developed and offered as open source software.

Codecs with lossy compression forms, such as MP3 and AAC, reduce part of the data to improve compression efficiency. However, FLAC can reconstruct compressed data to be an identical copy of the original data by performing lossless compression. The compression ratio of FLAC is about 50%.

Method for creating MP3/WMA/AAC/FLAC/WAV (USB Flash drive) files

Audio data is compressed using software with MP3/WMA/AAC/FLAC/WAV (USB Flash drive) codecs. For details on creating MP3/WMA/AAC/FLAC/WAV (USB Flash drive) files, refer to the user's manual for that software.

MP3/WMA/AAC/FLAC/WAV (USB Flash drive) files that are playable on this device have the file extensions.

MP3: ".mp3"

WMA: ".wma"

AAC: ".m4a"

FLAC: ".flac"/".fla"

WAV: ".wav"

WMA is not supported for the following files, Windows Media Audio Professional, Windows Media Audio 10 std or Windows Media Audio 10 Pro Lossless.

There are many different versions of the AAC format. Confirm that the software being used conforms to the acceptable formats listed above. It's possible that the format may be unplayable even though the extension is valid.

Playback of AAC files encoded by iTunes is supported.

Supported playback sampling rates and bit rates

MP3 (USB Flash drive)

Sampling rates: 8 kHz, 11.025 kHz, 12 kHz, 16 kHz, 22.05 kHz, 24 kHz, 32 kHz, 44.1 kHz, 48 kHz

Bit rates: 8 - 384 kbps

WMA (USB Flash drive)

Sampling rates: 8 - 48 kHz

Bit rates: 8 - 384 kbps

AAC (USB Flash drive)

Sampling rates: 8 - 48 kHz

Bit rates: 8 - 384 kbps

FLAC (USB Flash drive)

Sampling rates: 8 - 48 kHz

Bit rates: 8 - 384 kbps

WAV (USB Flash drive)

Sampling rates: 8 - 48 kHz

Bit rates: 64 - 1,536 kbps

This device may not play back correctly depending on sampling rates.

ID3 tags/WMA tags

This device supports ID3 tag v1.0, v1.1, v2.2, v2.3, v2.4, and WMA tag Ver.1.x. If tag data is in an MP3/WMA/AAC file, this device can display the title (track title), artist name, and album name ID3 tag/WMA tag data.

For non-supported characters, "*" is displayed.

The number of characters may be limited, or not correctly displayed, depending on the tag information.

Playing back MP3/WMA/AAC/FLAC/WAV

MP3/WMA/AAC files are prepared, then written to a USB flash drive.

- Maximum numbers of playable files/folders
USB Flash drive: 3,000 files/255 folders (including Root Folder)
- Largest playable file size: 512 MB

Playback may not be performed if a disc exceeds the limitations described above.

If a file/folder name is long, the maximum possible number of files may decrease.

Media supported

The media that this device can play back a USB flash drive.

Corresponding File Systems

This device supports FAT 16/32.

The maximum nested folder depth is 8 (including the root directory). File names are limited to 128 characters (including the extension).

Valid characters for folder/file names are letters A-Z (all caps), numbers 0-9, and ' _ ' (underscore).

Order of files

Files are played back in the order that the writing software writes them to the disc. Therefore, the playback order may not be what's expected. Verify the writing order in the software's documentation. The playback order of the folders and files is as follows. (The following numbers may differ from actually displayed numbers.)

Terminology

Bit rate

This is the "sound" compression rate specified for encoding. The higher the bit rate, the higher the sound quality, but also the larger the files.

Sampling rate

This value shows how many times per second the data is sampled (recorded). For example, music CDs use a sampling rate of 44.1 kHz, so the sound is sampled (recorded) 44,100 times per second. The higher the sampling rate, the higher the sound quality, but also the larger the volume of data.

Encoding

Converting music CDs, WAVE (AIFF) files, and other sound files into the specified audio compression format.

Tag

Song information such as track titles, artist names, album names, etc., written into MP3/WMA/AAC/FLAC/WAV (USB flash drive) files.

Root folder

The root folder (or root directory) is found at the top of the file system. The root folder contains all folders and files. It is created automatically for all burned discs.

In Case of Difficulty

If you encounter a problem, please turn the power off, then on again. If the unit is still not functioning normally, please review the items in the following checklist. This guide will help you isolate the problem if the unit is at fault. Otherwise, make sure the rest of your system is properly connected, or then consult your authorized Alpine dealer.

Basic

No function or display.

- Vehicle's ignition is off.
 - If connected according to the instructions, the unit will not operate with the vehicle's ignition off.
- Improper power lead connections.
 - Check power lead connections.
- Blown fuse.
 - Check the fuse on the battery lead of the unit; replace with the proper value if necessary.

No sound or unnatural sound.

- Incorrect setting of volume/balance/fader controls.
 - Readjust the controls.
- Connections are not properly or securely made.
 - Check the connections and firmly connect.

Screen not displayed.

- Brightness/Contrast control is set at the minimum position.
 - Adjust the Brightness/Contrast control.
- Temperature in the vehicle is too low.
 - Increase the vehicle's interior temperature to operation temperature range.
- Connections to the Auxiliary Device are not securely made.
 - Check the connections and firmly connect.
- The Parking Brake Lead is not connected.
- The Parking Brake is not engaged.
 - Connect the Parking Brake Lead, then engage the Parking Brake.

Movement of displayed picture is abnormal.

- Temperature in the vehicle is too high.
 - Allow the vehicle's interior temperature to cool.

Radio

Unable to receive stations.

- No antenna, or open connection in the antenna cable.
 - Make sure the antenna is properly connected; replace the antenna or cable if necessary.

Unable to tune stations in the seek mode.

- You are in a weak signal area.
 - Change the radio frequency manually.
- If the area you are in is a primary signal area, the antenna may not be grounded and connected properly.
 - Check your antenna connections; make sure the antenna is properly grounded at its mounting location.
- The antenna may not be the proper length.
 - Make sure the antenna is fully extended; if broken, replace the antenna with a new one.

Broadcast is noisy.

- The antenna is not the proper length.
 - Extend the antenna fully; replace it if it is broken.
- The antenna is poorly grounded.
 - Make sure the antenna is grounded properly at its mounting location.
- The station signal is weak and noisy.
 - If above solution does not work, tune in another station.

USB Audio

Unit does not operate.

- Condensation.
 - Wait a while (about 1 hour) for the condensation to dry.

Picture is unclear or noisy.

- Vehicle's battery power is weak.
 - Check the battery power and wiring.
(The unit may malfunction if the battery power is under 11 volts with a load applied.)

If this Message Appears

Various messages are displayed on the screen during operation. In addition to the messages telling you the current status or providing guidance for the next operation, there are also the following error messages. If one of these error messages is displayed, carefully follow the instructions in the solution column.

System

For your safety, this function is only available while the vehicle is parked.

- A setup operation, etc., was carried out while the vehicle was running.
 - Move the vehicle to a safe location, stop, and engage the parking brake, then carry out this operation.

This device is not supported.

- A USB flash drive with a hub is connected.
 - You cannot play back from a USB flash drive with a hub. USB hub connections are also not supported.

Audio/Visual

This device is not supported.

- An iPhone that is not supported by the unit is connected.
 - Connect an iPhone that is supported by the unit.
- A USB device that is not supported by the unit is connected.
 - Attempt to connect another USB flash drive.
- Communication error.
 - Turn the ignition key off, and then set to ON again.
 - Check the display by reconnecting between the iPhone and the unit, using the iPhone cable.
 - Check the display by reconnecting between the USB flash drive and the unit.
- Caused by the iPod/iPhone Software Version not being compatible with this unit.
 - Update the iPhone Software Version to be compatible with this unit.
- The iPhone is not verified.
 - Change to another iPhone.

Please check the connection status.

- Communication error.
 - Check the display by reconnecting between the iPhone and the unit, using the iPhone cable.

No Artist (/ No Song / No album)

- There are no data in the iPhone.
 - Download data to the iPhone and connect to the unit.
- There are no tag-info in the USB Audio / iPod Audio.

No Files

- There are no data in the USB flash drive.
 - Download data to the USB flash drive and connect to this unit.
-

Bluetooth

No Bluetooth device connected

- The Bluetooth audio device was not connected correctly.
 - Check the settings for the unit and the Bluetooth audio device and reconnect.
-

SiriusXM

Check Tuner

- The SiriusXM Tuner is disconnected or the unit is having trouble communicating with the Tuner.
 - Connect the Tuner or check the Tuner connection to the back of the unit.
-

Check Antenna

- The SiriusXM Satellite Radio antenna or cable is either damaged or not connected correctly to the SiriusXM Tuner.
 - Check that the SiriusXM antenna cable is connected to the SiriusXM Tuner and check that the antenna cable is not kinked or otherwise damaged. Replace the antenna if necessary.
 - SiriusXM products are available at your local car audio retailer or online at www.shop.siriusxm.com.
-

No Signal

- The SiriusXM satellite signal is too weak at the current location.
 - Move the vehicle to a location with a clear view of the southern sky.
 - Make sure the Satellite Radio antenna is properly mounted and not obstructed by metal objects.
-

Channel [xxx] Not Subscribed

Call SiriusXM to Subscribe

- The active channel has become unsubscribed or the requested channel is not available in your subscription package.
 - In the U.S.A., visit www.siriusxm.com or call 1-866-635-2349 if you have questions about your subscription package or would like to subscribe to this channel. In Canada, visit www.siriusxm.ca or call 1-877-438-9677.
 - The unit will revert to the previously selected channel or to channel 1 automatically.
-

Channel [xxx] Not Available

- The active channel is no longer in the SiriusXM channel lineup or the user has entered an invalid channel number.
 - Visit www.siriusxm.com for information on the current channel lineup.
 - The unit will revert to the previous channel or to channel 1 automatically.
-

Subscription Updated

Press Any screen to Continue

- Your subscription has been updated.
 - Touch [OK] to clear this message.
-

Channel [xxx] Locked

- A locked channel is selected.
 - Input the passcode on the number keypad screen, see "Parental Lock Function" (page 32). If wrong passcode is entered, "Incorrect Pass Code entered" will be displayed and the unit will revert to the previous channel.
-

Specifications

MONITOR SECTION

Screen Size	7"
LCD Type	Transparent type TN LCD
Operation System	TFT active matrix
Number of Picture Elements	1,152,000 pcs. (800 × 480 × 3 (RGB))
Effective Number of Picture Elements	99% or more
Illumination System	LED

FM TUNER SECTION

Tuning Range	87.7 – 107.9 MHz
Mono Usable Sensitivity	9.3 dBf (0.8 μV/75 ohms)
50 dB Quieting Sensitivity	13.5 dBf (1.3 μV/75 ohms)
Alternate Channel Selectivity	80 dB
Signal-to-Noise Ratio	65 dB
Stereo Separation	35 dB
Capture Ratio	2.0 dB

AM TUNER SECTION

Tuning Range	530 – 1,710 kHz
Usable Sensitivity	25.1 μV/28 dBf

USB SECTION

USB requirements	USB 2.0
Max. Power Consumption	1,000 mA (CDP Support)
USB Class	USB (Play From Device)/ USB (Mass Storage Class)
File System	FAT16/32
Number of Channels	2-Channels (Stereo)
Frequency Response*1	5 – 20,000 Hz (±1 dB)
Total Harmonic Distortion	0.008% (at 1 kHz)
Dynamic Range	95 dB (at 1 kHz)
Signal-to-Noise Ratio	100 dB
Channel Separation	85 dB (at 1 kHz)

*1 Frequency response may differ depending on the encoder software/bit rate.

Bluetooth SECTION

Bluetooth Specification	Bluetooth V4.2
Output Power	+4 dBm Ave. (Power class 2)
Profile	HFP (Hands-Free Profile) PBAP (Phone Book Access Profile) A2DP (Advanced Audio Distribution Profile) AVRCP (Audio/Video Remote Control Profile)

GENERAL

Power Requirement	14.4 V DC (11–16 V allowable)
-------------------	----------------------------------

Operating temperature	-4°F to +140°F (-20°C to + 60°C)
-----------------------	-------------------------------------

Power Output	16 W RMS × 4*2
--------------	----------------

*2 Primary amplifier ratings per CEA-2006 Standard

- Power output: measured at 4 Ohms and ≤ 1% THD+N
- S/N: 80 dBA (reference: 1 W into 4 Ohms)

Weight	0.92 kg (2 lbs.)
--------	------------------

Audio output level	
Preout (Front, Rear):	4V/10k ohms (max.)
Preout (Subwoofer):	4V/10k ohms (max.)

CHASSIS SIZE

Width	178 mm (7")
Height	100 mm (4")
Depth	60 mm (2-6/16")

- Due to continuous product improvement, specifications and design are subject to change without notice.
- The LCD panel is manufactured using an extremely high precision manufacturing technology. Its effective pixel ratio is over 99.99%. This means that there is a possibility that 0.01% of the pixels could be either always ON or OFF.

Installation and Connections

Before installing or connecting the unit, please read the following and pages 7 to 12 of this manual thoroughly for proper use.

WARNING

KEEP SMALL OBJECTS SUCH AS SCREWS OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

MAKE THE CORRECT CONNECTIONS.

Failure to make the proper connections may result in fire or product damage.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

BEFORE WIRING, DISCONNECT THE CABLE FROM THE NEGATIVE BATTERY TERMINAL.

Failure to do so may result in electric shock or injury due to electrical shorts.

DO NOT ALLOW CABLES TO BECOME ENTANGLED IN SURROUNDING OBJECTS.

Arrange wiring and cables in compliance with the manual to prevent obstructions when driving. Cables or wiring that obstruct or hang up on places such as the steering wheel, gear lever, brake pedals, etc. can be extremely hazardous.

DO NOT SPLICE INTO ELECTRICAL CABLES.

Never cut away cable insulation to supply power to other equipment. Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock.

DO NOT DAMAGE PIPE OR WIRING WHEN DRILLING HOLES.

When drilling holes in the chassis for installation, take precautions so as not to contact, damage or obstruct pipes, fuel lines, tanks or electrical wiring. Failure to take such precautions may result in fire.

DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.

Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.

DO NOT INSTALL IN LOCATIONS WHICH MIGHT HINDER VEHICLE OPERATION, SUCH AS THE STEERING WHEEL OR GEARSHIFT.

Doing so may obstruct forward vision or hamper movement etc. and results in serious accident.

CAUTION

HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.

The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done.

USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.

Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure.

ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.

Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges. This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole.

DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.

Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

Precautions

- Be sure to disconnect the cable from the (–) battery post before installing your unit. This will reduce any chance of damage to the unit in case of a short-circuit.
- Be sure to connect the color coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage to the vehicle's electrical system.
- When making connections to the vehicle's electrical system, be aware of the factory installed components (e.g. on-board computer). Do not tap into these leads to provide power for this unit. When connecting the unit to the fuse box, make sure the fuse for the intended circuit of the unit has the appropriate amperage. When in doubt, consult your Alpine dealer.
- The unit uses female RCA-type jacks for connection to other units (e.g. amplifier) having RCA connectors. You may need an adaptor to connect other units. If so, please contact your authorized Alpine dealer for assistance.
- Be sure to connect the speaker (–) leads to the speaker (–) terminal. Never connect left and right channel speaker cables to each other or to the vehicle body.

Accessory List

Main unit.....	1
Power cable.....	1
USB extension cable	1
PRE OUT cable.....	1
Microphone	1
Owner's Manual	1 set

Installation

Caution

- Do not block the unit's fan, thus preventing air circulation. If blocked, heat will accumulate inside the unit and may cause a fire.

Caution concerning the installation location

Angle of installation

Install at an angle between horizontal and 30°. Note that installing at an angle outside of this range will result in a loss of performance and possibly damage.

Mounting the Microphone

For safe use, make sure of the following:

- Location is stable and firm.
- Does not interfere with safety equipment.
- Driver's view and operations are not obstructed.
- Microphone is located where the driver's voice can be easily picked up (for example, on the sun visor).

When you speak into the microphone, you should not have to change your driving posture. This may cause a distraction, taking your attention away from safely driving your vehicle. Carefully consider direction and distance while mounting the microphone. Confirm that the driver's voice can be easily picked up at the selected location.

Installation example using the Original Mounting Bracket

- Mount the original mounting bracket to the unit using the supplied screws.

- Connect all other leads of the unit according to details described in the "Connections" (page 48).

- Mount the unit in a car.

* To securely connect the ground lead, use an already installed screw on a metal part of the vehicle (marked (★)) or a clean, bare metal spot on the vehicle's chassis.

- Fix the cables carefully. Do not damage them by mounting them into movable parts, such as the seat rail, or by locating them against sharp or pointed edges.

- Reattach the removed vehicle parts (panels, etc.) or other aftermarket dash kit back onto the vehicle.

Connections

- ① **Radio Antenna Receptacle**
- ② **Remote Turn-On Lead (Blue/White)**
Connect this lead to the remote turn-on lead of your amplifier or signal processor.
- ③ **Reverse Lead (Orange/White)**
- ④ **Power Antenna Lead (Blue)**
Connect this lead to the +B terminal of your power antenna, if applicable.
 - *This lead should be used only for controlling the vehicle's power antenna. Do not use this lead to turn on an amplifier or a signal processor, etc.*
- ⑤ **Parking Brake Lead (Yellow/Blue)**
Connect this lead to the power supply side of parking brake switch to transmit the parking brake status signals to the unit.
- ⑥ **Switched Power Lead (Ignition) (Red)**
Connect this lead to an open terminal on the vehicle's fuse box or another unused power source that provides (+) 12V only when the ignition is turned on or in the accessory position.
- ⑦ **Fuse Holder (15A)**
- ⑧ **Battery Lead (Yellow)**
Connect this lead to the positive (+) post of the vehicle's battery.
- ⑨ **Ground Lead (Black)**
Connect this lead to a good chassis ground on the vehicle. Make sure the connection is made to bare metal and is securely fastened using the sheet metal screw provided.
- ⑩ **Left Rear (+) Speaker Output Lead (Green)**
- ⑪ **Left Rear (-) Speaker Output Lead (Green/Black)**
- ⑫ **Left Front (+) Speaker Output Lead (White)**
- ⑬ **Left Front (-) Speaker Output Lead (White/Black)**
- ⑭ **Right Front (-) Speaker Output Lead (Gray/Black)**
- ⑮ **Right Front (+) Speaker Output Lead (Gray)**
- ⑯ **Right Rear (-) Speaker Output Lead (Violet/Black)**
- ⑰ **Right Rear (+) Speaker Output Lead (Violet)**
- ⑱ **REAR CAMERA Input RCA Connector**
Use when connecting a rear camera with RCA Output Connector.
- ⑲ **FRONT CAMER Input RCA Connector**
Use when connecting a front camera with RCA Output Connector.
- ⑳ **Subwoofer RCA Connectors**
- ㉑ **Front Output RCA Connectors**
Can be used as Front Output RCA Connectors. RED is right and WHITE is left.
- ㉒ **Rear Output RCA Connectors**
Can be used as Rear Output RCA Connectors. RED is right and WHITE is left.
- ㉓ **MIC Input Connector**
To microphone (included)
- ㉔ **Steering Remote Control Interface Connector**
To steering remote control interface.
For details about connections, consult your nearest Alpine dealer.
- ㉕ **USB Connector**
To USB flash drive, iPhone or Android smartphone.
- ㉖ **SiriusXM Tuner Input Connector**
To SiriusXM Tuner (sold separately).
 - *For more information on how to install the SiriusXM Connect Vehicle tuner, consult the installation guide included with the tuner.*
- ㉗ **CAMERA/PRE OUT Connector**
- ㉘ **Power Supply Connector**

If an ACC power supply is not available

Connection Diagram of SPST Switch (sold separately)

- If your vehicle has no ACC power supply, add an SPST (single-pole, single-throw) switch (sold separately) and fuse (sold separately).
- The diagram and the fuse amperage shown above are in the case when the unit is used individually.
- If the switched power (ignition) lead of the unit is connected directly to the positive (+) post of the vehicle's battery, the unit draws some current (several hundred milliamperes) even when its switch is placed in the OFF position, and the battery may be discharged.

IMPORTANT

Please record the serial number of your unit in the space provided below and keep it as a permanent record. The serial number plate is located on the bottom of the unit.

SERIAL NUMBER: _____

INSTALLATION DATE: _____

INSTALLATION TECHNICIAN: _____

PLACE OF PURCHASE: _____

To prevent external noise from entering the audio system.

- Locate the unit and route the leads at least 10 cm away from the car harness.
- Keep the battery power leads as far away from other leads as possible.
- Connect the ground lead securely to a bare metal spot (remove any paint, dirt or grease if necessary) of the car chassis.
- If you add an optional noise suppressor, connect it as far away from the unit as possible. Your Alpine dealer carries various noise suppressors, contact them for further information.
- Your Alpine dealer knows best about noise prevention measures so consult your dealer for further information.

System Example

Connection of an iPhone

- Do not leave an iPhone in a vehicle for a long time. Heat and humidity may damage the iPhone, and you may not be able to play it again.

Connection of a USB Flash Drive

- Do not leave a flash drive in a vehicle for a long time. Heat and humidity may damage the flash drive.

Connection of an External Amplifier

② Remote Turn-On Lead (Blue/White)

① RCA Extension Cable (sold separately)

②① Subwoofer RCA Connectors

②① Front Output RCA Connectors

②② Rear Output RCA Connectors

Connection of a Rearview camera

③ **Reverse Lead (Orange/White)**

① **RCA Extension Cable (sold separately)**

⑱ **REAR CAMERA Input RCA Connector**

⑲ **FRONT CAMERA Input RCA Connector**

- Set the Camera Primary or Secondary setting to **[Rear]**. For details, refer to "Camera Primary and Secondary Setting" (page 23).

LIMITED WARRANTY

ALPINE ELECTRONICS OF AMERICA, INC. ("Alpine"), is dedicated to quality craftsmanship and is pleased to offer this Warranty. We suggest that you read it thoroughly. Should you have any questions, please contact your Dealer or contact Alpine at one of the telephone numbers listed below.

● PRODUCTS COVERED:

This Warranty covers Car Audio Products and Related Accessories ("the product"). Products purchased in the Canada are covered only in the Canada. Products purchased in the U.S.A. are covered only in the U.S.A.

● LENGTH OF WARRANTY:

This Warranty is in effect for one year from the date of the first consumer purchase.

● WHO IS COVERED:

This Warranty only covers the original purchaser of the product, who must reside in the United States, Puerto Rico or Canada.

● WHAT IS COVERED:

This Warranty covers defects in materials or workmanship (parts and labor) in the product.

● WHAT IS NOT COVERED:

This Warranty does not cover the following:

- ① Damage occurring during shipment of the product to Alpine for repair (claims must be presented to the carrier).
- ② Damage caused by accident or abuse, including burned voice coils caused by over-driving the speaker (amplifier level is turned up and driven into distortion or clipping). Speaker mechanical failure (e.g. punctures, tears or rips). Cracked or damaged LCD panels. Dropped or damaged hard drives.
- ③ Damage caused by negligence, misuse, improper operation or failure to follow instructions contained in the Owner's manual.
- ④ Damage caused by act of God, including without limitation, earthquake, fire, flood, storms or other acts of nature. Any cost or expense related to the removal or reinstallation of the product.
- ⑤ Service performed by an unauthorized person, company or association.
- ⑥ Any product which has the serial number defaced, altered or removed.
- ⑦ Any product which has been adjusted, altered or modified without Alpine's consent.
- ⑧ Any product not distributed by Alpine within the United States, Puerto Rico or Canada.
- ⑨ Any product not purchased from an Authorized Alpine Dealer.

● HOW TO OBTAIN WARRANTY SERVICE:

- ① You are responsible for delivery of the product to an Authorized Alpine Service Center or Alpine for repair and for payment of any initial shipping charges. Alpine will, at its option, repair or replace the product with a new or reconditioned product without charge. If the repairs are covered by the warranty, and if the product was shipped to an Authorized Alpine Service Center or Alpine, Alpine will pay the return shipping charges.
- ② You should provide a detailed description of the problem(s) for which service is required.

- ③ You must supply proof of your purchase of the product.

- ④ You must package the product securely to avoid damage during shipment. To prevent lost packages it is recommended to use a carrier that provides a tracking service.

● HOW WE LIMIT IMPLIED WARRANTIES:

ANY IMPLIED WARRANTIES INCLUDING FITNESS FOR USE AND MERCHANTABILITY ARE LIMITED IN DURATION TO THE PERIOD OF THE EXPRESS WARRANTY SET FORTH ABOVE AND NO PERSON IS AUTHORIZED TO ASSUME FOR ALPINE ANY OTHER LIABILITY IN CONNECTION WITH THE SALE OF THE PRODUCT.

● HOW WE EXCLUDE CERTAIN DAMAGES:

ALPINE EXPRESSLY DISCLAIMS LIABILITY FOR INCIDENTAL AND CONSEQUENTIAL DAMAGES CAUSED BY THE PRODUCT. THE TERM "INCIDENTAL DAMAGES" REFERS TO EXPENSES OF TRANSPORTING THE PRODUCT TO THE ALPINE SERVICE CENTER, LOSS OF THE ORIGINAL PURCHASER'S TIME, LOSS OF THE USE OF THE PRODUCT, BUS FARES, CAR RENTALS OR OTHERS COSTS RELATING TO THE CARE AND CUSTODY OF THE PRODUCT. THE TERM "CONSEQUENTIAL DAMAGES" REFERS TO THE COST OF REPAIRING OR REPLACING OTHER PROPERTY WHICH IS DAMAGED WHEN THIS PRODUCT DOES NOT WORK PROPERLY. THE REMEDIES PROVIDED UNDER THIS WARRANTY ARE EXCLUSIVE AND IN LIEU OF ALL OTHERS.

● HOW STATE/PROVINCIAL LAW RELATES TO THE WARRANTY:

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province. In addition, some states/provinces do not allow limitations on how long an implied warranty lasts, and some do not allow the exclusion or limitation of incidental or consequential damages. Accordingly, limitations as to these matters contained herein may not apply to you.

● IN CANADA ONLY:

This Warranty is not valid unless your Alpine car audio product has been installed in your vehicle by an Authorized Installation Center, and this warranty stamped upon installation by the installation center.

● HOW TO CONTACT CUSTOMER SERVICE:

Should the product require service, please call the following number for your nearest Authorized Alpine Service Center.

CAR AUDIO	1-800-ALPINE-1 (1-800-257-4631)
NAVIGATION	1-888-NAV-HELP (1-888-628-4357)

Or visit our website at: <http://www.alpine-usa.com>

ALPINE ELECTRONICS OF AMERICA, INC., 1500 Atlantic Blvd, Auburn Hills, Michigan 48326, U.S.A.

Do not send products to this address.

Call the toll free telephone number or visit the website to locate a service center.

About the Rules of Bluetooth Electromagnetic Radiation Regulation

USA/Canada	FCC/IC CAUTION This device complies with Industry Canada’s licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person’s body.
	Le présent appareil est conforme aux CNR d’Industrie Canada applicables aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes : (1) l’appareil ne doit pas produire de brouillage; (2) l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement. Cet équipement est conforme aux limites d’exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles les radioélectriques (RF) de la FCC lignes directrices d’exposition et d’exposition aux fréquences radioélectriques (RF) CNR-102 de l’IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l’exposition maximale autorisée (MPE). Cependant, il est souhaitable qu’il devrait être installé et utilisé en gardant une distance de 20 cm ou plus entre le radiateur et le corps humain.

Don’t forget to take a moment to protect your purchase by registering your product now at the following address: www.alpine-usa.com/registration.

N’oubliez pas de consacrer un moment à la protection de votre achat en enregistrant votre produit dès maintenant à l’adresse suivante : www.alpine-usa.com/registration.

Recuerde que con solo unos pocos pasos podrá proteger su producto, registrándolo a través de la siguiente dirección: www.alpine-usa.com/registration.

IMPORTANT

Please record the serial number of your unit in the space provided below and keep it as a permanent record.

SERIAL NUMBER: _____

INSTALLATION DATE: _____

INSTALLATION TECHNICIAN: _____

PLACE OF PURCHASE: _____

For details on all functions, refer to the Owner's Manual published on our website at [http:// www.alpine-usa.com](http://www.alpine-usa.com). If required, an ALPINE dealer will readily provide you with a print out of the Owner's Manual published on the website.

WARNING

WARNING

This symbol means important instructions. Failure to heed them can result in serious injury or death.

INSTALL THE PRODUCT CORRECTLY SO THAT THE DRIVER CANNOT WATCH TV/VIDEO UNLESS THE VEHICLE IS STOPPED AND THE EMERGENCY BRAKE IS APPLIED.

It is dangerous for the driver to watch TV/Video while driving a vehicle. Installing this product incorrectly enables the driver to watch TV/Video while driving. This may cause a distraction, preventing the driver from looking ahead, thus causing an accident. The driver or other people could be severely injured.

DO NOT WATCH VIDEO WHILE DRIVING.

Watching the video may distract the driver from looking ahead of the vehicle and cause an accident.

DO NOT OPERATE ANY FUNCTION THAT TAKES YOUR ATTENTION AWAY FROM SAFELY DRIVING YOUR VEHICLE.

Any function that requires your prolonged attention should only be performed after coming to a complete stop. Always stop the vehicle in a safe location before performing these functions. Failure to do so may result in an accident.

KEEP THE VOLUME AT A LEVEL WHERE YOU CAN STILL HEAR OUTSIDE NOISES WHILE DRIVING.

Excessive volume levels that obscure sounds such as emergency vehicle sirens or road warning signals (train crossings, etc.) can be dangerous and may result in an accident. LISTENING AT LOUD VOLUME LEVELS IN A CAR MAY ALSO CAUSE HEARING DAMAGE.

MINIMIZE DISPLAY VIEWING WHILE DRIVING.

Viewing the display may distract the driver from looking ahead of the vehicle and cause an accident.

DO NOT DISASSEMBLE OR ALTER.

Doing so may result in an accident, fire or electric shock.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

KEEP SMALL OBJECTS SUCH AS SCREWS OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

USE THE CORRECT AMPERE RATING WHEN REPLACING FUSES.

Failure to do so may result in fire or electric shock.

DO NOT BLOCK VENTS OR RADIATOR PANELS.

Doing so may cause heat to build up inside and may result in fire.

USE THIS PRODUCT FOR MOBILE 12V APPLICATIONS.

Use for other than its designed application may result in fire, electric shock or other injury.

MAKE THE CORRECT CONNECTIONS.

Failure to make the proper connections may result in fire or product damage.

BEFORE WIRING, DISCONNECT THE CABLE FROM THE NEGATIVE BATTERY TERMINAL.

Failure to do so may result in electric shock or injury due to electrical shorts.

DO NOT ALLOW CABLES TO BECOME ENTANGLED IN SURROUNDING OBJECTS.

Arrange wiring and cables in compliance with the manual to prevent obstructions when driving. Cables or wiring that obstruct or hang up on places such as the steering wheel, gear lever, brake pedals, etc. can be extremely hazardous.

DO NOT SPLICE INTO ELECTRICAL CABLES.

Never cut away cable insulation to supply power to other equipment. Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock.

DO NOT DAMAGE PIPE OR WIRING WHEN DRILLING HOLES.

When drilling holes in the chassis for installation, take precautions so as not to contact, damage or obstruct pipes, fuel lines, tanks or electrical wiring. Failure to take such precautions may result in fire.

DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.

Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.

DO NOT INSTALL IN LOCATIONS WHICH MIGHT HINDER VEHICLE OPERATION, SUCH AS THE STEERING WHEEL OR GEARSHIFT.

Doing so may obstruct forward vision or hamper movement etc. and results in serious accident.

CAUTION

This symbol means important instructions. Failure to heed them can result in injury or material property damage.

HALT USE IMMEDIATELY IF A PROBLEM APPEARS.

Failure to do so may cause personal injury or damage to the product. Return it to your authorized Alpine dealer or the nearest Alpine Service Center for repairing.

HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.

The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done.

USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.

Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure.

ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.

Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges. This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole.

DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.

Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

Getting Started

Controls Position

The screen design used in the Quick Reference Guide may differ from the actual screen.

- | | |
|--|---|
| <p>① Dimmer Sensor
Sense the brightness of the car interior.</p> <p>② - / + (DOWN/UP) button
Touch to adjust the volume.</p> <p>③ [MUTE] button
Touch to activate/deactivate the mute mode.</p> <p>④ [HOME]/(Power Off) button
Activates the HOME screen.
Touch and hold this button for at least 2 seconds to turn the power off.</p> | <p>⑤ [MIC] button
Depending on the connected smartphone, touch to activate Siri function or voice recognition mode.</p> <p>⑥ [PHONE] button
When a Hands-Free Phone is not connected:
The Bluetooth setting screen is displayed.
When a Hands-Free Phone is connected:
The phone number input screen (Keypad) is activated.
Touch and hold the button for at least 2 seconds to redial the most recent incoming call.
During an incoming call:
The phone call is started.
During a call:
The call finishes.</p> |
|--|---|

Turning Power On or Off

1 Turn the ignition key to the ACC or ON position.

The system is turned on.

2 Touch and hold the (HOME) button for at least 2 seconds to turn the power off.

- When the system is used for the first time, the language selection menu is displayed. Select the desired language, and then touch [OK].

About the HOME Screen

Select a widget on the HOME screen to perform various settings and operations of the function.

1 Touch the (HOME) button.

The HOME screen is displayed.

■ HOME screen example

Radio	Displays the Radio main screen.
USB	You can play back music files (MP3/WMA/AAC/FLAC/WAV), video files (MP4/AVI/WMV/MOV) and photo files (JPG/PNG/BMP) stored in a USB flash drive. • If a USB flash drive is not connected, this widget is not available.
iPod	Displays the iPod main screen. • If an iPhone is not connected, this widget is not available.
Connectivity (Apple CarPlay)/ (Android Auto)	You can use Apple CarPlay or Android Auto. • If an iPhone 5s or later compatible with the Apple CarPlay function or a smartphone installed with the Android Auto App is not connected, this widget is not available. • When Apple CarPlay or Android Auto is available, the widget changes to [Apple CarPlay] / [Android Auto].
SiriusXM	Displays the SiriusXM main screen. • If a SiriusXM Tuner (Optional) is not connected, this widget is not available.
Bluetooth Audio	Displays the Bluetooth audio main screen.
Camera	Displays camera images.
Setup	Displays the Setup screen.

Apple CarPlay Operation (Optional)

Apple CarPlay is a smarter, safer way to use your iPhone in the car. Apple CarPlay takes the things you want to do with your iPhone while driving and puts them right on this unit. You can get directions, make calls, send and receive messages, and listen to music, all in a way that allows you to stay focused on the road. Just plug in your iPhone to this unit and go.

1 Touch the (HOME) button.

The HOME screen is displayed.

2 Touch [Apple CarPlay].

The Apple CarPlay screen is displayed.

- Refer to "Apple CarPlay" in the Owner's Manual for information on how to operate Apple CarPlay.

Android Auto™ (Optional)

Android Auto is designed to make it easier to use apps from your phone while you're on the road. Navigate with Google Maps, listen to playlists or podcasts from your favorite apps, send messages via voice, and more. Download the Android Auto App from the Google Play store before continuing.

1 Touch the (HOME) button.

The HOME screen is displayed.

2 Touch [Android Auto].

The Android Auto screen is displayed.

- Refer to "Android Auto" in the Owner's Manual for information on how to operate Android Auto.

Radio Operation

- The patterns of some keys in the Quick Reference Guide may differ from the actual screen.

USB Flash drive Operation (Optional)

You can play back music files (MP3/WMA/AAC/FLAC/WAV) and video files (MP4/AVI/WMV/MOV) stored in a USB flash drive on the internal player of this system.

USB Audio main screen example

- The patterns of some keys in the Quick Reference Guide may differ from the actual screen.

SiriusXM Satellite Radio Operation (Optional)

When an optional SiriusXM Tuner is connected to this unit, the following operations may be performed.

- The patterns of some keys in the Quick Reference Guide may differ from the actual screen.

iPod mode on iPhone (Optional)

A separately sold Lightning to USB cable (KCU-471i) is required depending on the type of iPhone.

- This unit supports iPhone (iPhone 5s or later) only. For using music playback only, set the "Apple CarPlay" setting to "Off" before connecting with your iPhone.
- The patterns of some keys in the Quick Reference Guide may differ from the actual screen.

Searching for a Music File

For example: Searching by Artist name

- 1 Touch [Q (Search)] during playback.**
- 2 Touch [Artists].**

- 3 Touch the desired artist's name.**

- 4 Touch the desired album's name.**
- 5 Touch the desired song's name.**
The selected song is played back.

Hands-Free Phone Control

The unit can connect with up to two hands-free phones.

How to connect to a Bluetooth compatible device (Pairing)

To display the Setup HOME screen:

1. Bring your vehicle to a complete stop at a safe location. Engage the parking brake.
 2. Release the parking brake. (For safety, release the parking brake while depressing the foot brake pedal).
 3. Engage the parking brake again.
- For automatic transmission vehicles, place the transmission lever in the Park position.

1 Touch [Setup] on the HOME screen.

2 Touch [Bluetooth].

3 Touch [Search] to search for a new device.

4 Touch the device you want to connect from the list.

5 The device registration is complete.

- You can register up to 4 Bluetooth compatible mobile phones.
- The Bluetooth registration process differs depending on the device version and SSP (Simple Secure Pairing). If a 4 or 6 character Passcode appears on this device, enter the Passcode using the Bluetooth compatible device. If a 6 character Passkey appears on this device, make sure the same passkey is displayed on the Bluetooth compatible device and touch "Yes."

Answering a Call

1 An incoming call triggers the ringtone and an incoming call display.

2 Touch [Answer].

The call starts.

Hanging up the Telephone

1 Touch [End Call].

The call finishes.

Installation

Note on installation

- Install at an angle between horizontal and 30°. Note that installing at an angle outside of this range will result in a loss of performance and possible damage.

- Do not block the unit's heat sink, which would prevent air circulation. If blocked, heat will accumulate inside the unit and may cause a fire.

Mounting the Microphone

For safe use, make sure of the following:

- Location is stable and firm.
- Driver's view and operations are not obstructed.
- Microphone is located where the driver's voice can be easily picked up (on the sun visor, etc.).

When you speak into the microphone, you should not have to change your driving posture. This may cause a distraction, taking your attention away from safely driving your vehicle. Carefully consider direction and distance while mounting the microphone. Confirm that the driver's voice can be easily picked up at the selected location.

Installing the Unit

- 1 Mount the original mounting bracket to the unit using the supplied screws.**

- 2 Connect all other leads of the unit according to details described in the "Connections" (page 13).**

- 3 Mounting the unit in a car.**

- * To securely connect the ground lead, use an already installed screw on a metal part of the vehicle (marked (★)) or a clean, bare metal spot on the vehicle's chassis.
- Fix the cables carefully. Do not damage them by tucking them into movable parts, such as a seat rail, or by locating them against sharp or pointed edges.

Connection Diagram of SPST Switch (sold separately)

(If the ACC power supply is not available)

- If your vehicle has no ACC power supply, add an SPST (Single-Pole, Single-Throw) switch (sold separately) and fuse (sold separately).
- The diagram and the fuse amperage shown above are in the case when iLX-W650 is used individually.
- If the switched power (ignition) lead of the iLX-W650 is connected directly to the positive (+) post of the vehicle's battery, the iLX-W650 draws some current (several hundred milliamperes) even when its switch is placed in the OFF position, and the battery may be discharged.

Connections

- ① **Radio Antenna Receptacle**
- ② **Remote Turn-On Lead (Blue/White)**
Connect this lead to the remote turn-on lead of your amplifier or signal processor.
- ③ **Reverse Lead (Orange/White)**
- ④ **Power Antenna Lead (Blue)**
Connect this lead to the +B terminal of your power antenna, if applicable.
This lead should be used only for controlling the vehicle's power antenna. Do not use this lead to turn on an amplifier or a signal processor, etc.
- ⑤ **Parking Brake Lead (Yellow/Blue)**
Connect this lead to the power supply side of parking brake switch to transmit the parking brake status signals to the unit.
- ⑥ **Switched Power Lead (Ignition) (Red)**
Connect this lead to an open terminal on the vehicle's fuse box or another unused power source that provides (+) 12V only when the ignition is turned on or in the accessory position.
- ⑦ **Fuse Holder (15A)**
- ⑧ **Battery Lead (Yellow)**
Connect this lead to the positive (+) post of the vehicle's battery.
- ⑨ **Ground Lead (Black)**
Connect this lead to a good chassis ground on the vehicle.
Make sure the connection is made to bare metal and is securely fastened using the sheet metal screw provided.
- ⑩ **Left Rear (+) Speaker Output Lead (Green)**
- ⑪ **Left Rear (-) Speaker Output Lead (Green/Black)**
- ⑫ **Left Front (+) Speaker Output Lead (White)**
- ⑬ **Left Front (-) Speaker Output Lead (White/Black)**
- ⑭ **Right Front (-) Speaker Output Lead (Gray/Black)**
- ⑮ **Right Front (+) Speaker Output Lead (Gray)**
- ⑯ **Right Rear (-) Speaker Output Lead (Violet/Black)**
- ⑰ **Right Rear (+) Speaker Output Lead (Violet)**
- ⑱ **REAR CAMERA Input RCA Connector**
Use when connecting a rear camera with RCA Output Connector.
- ⑲ **FRONT CAMERA Input RCA Connector**
Use when connecting a front camera with RCA Output Connector.
- ⑳ **Subwoofer RCA Connectors**
- ㉑ **Front Output RCA Connectors**
Can be used as Front Output RCA Connectors. RED is right and WHITE is left.
- ㉒ **Rear Output RCA Connectors**
Can be used as Rear Output RCA Connectors. RED is right and WHITE is left.
- ㉓ **MIC Input Connector**
To Microphone (included)
- ㉔ **Steering Remote Control Interface Connector**
To steering remote control interface.
For details about connections, consult your nearest Alpine dealer.
- ㉕ **USB Connector**
To USB flash drive, iPhone or Android smartphone.
- ㉖ **SiriusXM Tuner Input Connector**
To SiriusXM Tuner (sold separately).
For more information on how to install the SiriusXM Connect Vehicle tuner, consult the installation guide included with the tuner.
- ㉗ **CAMERA/PRE OUT Connector**
- ㉘ **Power Supply Connector**

Specifications

MONITOR SECTION

Screen Size	7"
LCD Type	Transparent type TN LCD
Operation System	TFT active matrix
Number of Picture Elements	1,152,000 pcs. (800 × 480 × 3 (RGB))
Effective Number of Picture Elements	99% or more
Illumination System	LED

FM TUNER SECTION

Tuning Range	87.7 – 107.9 MHz
Mono Usable Sensitivity	9.3 dBf (0.8 μ V/75 ohms)
50 dB Quieting Sensitivity	13.5 dBf (1.3 μ V/75 ohms)
Alternate Channel Selectivity	80 dB
Signal-to-Noise Ratio	65 dB
Stereo Separation	35 dB
Capture Ratio	2.0 dB

AM TUNER SECTION

Tuning Range	530 – 1,710 kHz
Usable Sensitivity	25.1 μ V/28 dBf

USB SECTION

USB requirements	USB 2.0
Max. Power Consumption	1,000 mA (CDP Support)
USB Class	USB (Play From Device)/ USB (Mass Storage Class)
File System	FAT16/32
Number of Channels	2-Channels (Stereo)
Frequency Response*1	5 – 20,000 Hz ($\pm$ 1 dB)
Total Harmonic Distortion	0.008% (at 1 kHz)
Dynamic Range	95 dB (at 1 kHz)
Signal-to-Noise Ratio	100 dB
Channel Separation	85 dB (at 1 kHz)

*1 Frequency response may differ depending on the encoder software/bit rate.

Bluetooth SECTION

Bluetooth Specification	Bluetooth V4.2
Output Power	+4 dBm Ave. (Power class 2)
Profile	HFP (Hands-Free Profile) PBAP (Phone Book Access Profile) A2DP (Advanced Audio Distribution Profile) AVRCP (Audio/Video Remote Control Profile)

GENERAL

Power Requirement	14.4 V DC (11–16 V allowable)
Operating temperature	-4°F to +140°F (-20°C to +60°C)
Power Output	16 W RMS $\times$ 4 *2

*2 Primary amplifier ratings per CEA-2006 Standard

- Power output: measured at 4 Ohms and $\leq$ 1% THD+N
- S/N: 80 dBA (reference: 1 W into 4 Ohms)

Weight	0.92 kg (2 lbs.)
Audio output level	
Preout (Front, Rear):	4V/10k ohms (max.)
Preout (Subwoofer):	4V/10k ohms (max.)

CHASSIS SIZE

Width	178 mm (7")
Height	100 mm (4")
Depth	60 mm (2-6/16")

- Due to continuous product improvement, specifications and design are subject to change without notice.
- The LCD panel is manufactured using an extremely high precision manufacturing technology. Its effective pixel ratio is over 99.99%. This means that there is a possibility that 0.01% of the pixels could be either always ON or OFF.

LIMITED WARRANTY

ALPINE ELECTRONICS OF AMERICA, INC. ("Alpine"), is dedicated to quality craftsmanship and are pleased to offer this Warranty. We suggest that you read it thoroughly. Should you have any questions, please contact your Dealer or contact Alpine at one of the telephone numbers listed below.

● PRODUCTS COVERED:

This Warranty covers Car Audio Products and Related Accessories ("the product"). Products purchased in the Canada are covered only in the Canada. Products purchased in the U.S.A. are covered only in the U.S.A.

● LENGTH OF WARRANTY:

This Warranty is in effect for one year from the date of the first consumer purchase.

● WHO IS COVERED:

This Warranty only covers the original purchaser of the product, who must reside in the United States, Puerto Rico or Canada.

● WHAT IS COVERED:

This Warranty covers defects in materials or workmanship (parts and labor) in the product.

● WHAT IS NOT COVERED:

This Warranty does not cover the following:

- ① Damage occurring during shipment of the product to Alpine for repair (claims must be presented to the carrier).
- ② Damage caused by accident or abuse, including burned voice coils caused by over-driving the speaker (amplifier level is turned up and driven into distortion or clipping). Speaker mechanical failure (e.g. punctures, tears or rips). Cracked or damaged LCD panels. Dropped or damaged hard drives.
- ③ Damage caused by negligence, misuse, improper operation or failure to follow instructions contained in the Owner's manual.
- ④ Damage caused by act of God, including without limitation, earthquake, fire, flood, storms or other acts of nature. Any cost or expense related to the removal or reinstallation of the product.
- ⑤ Service performed by an unauthorized person, company or association.
- ⑥ Any product which has the serial number defaced, altered or removed.
- ⑦ Any product which has been adjusted, altered or modified without Alpine's consent.
- ⑧ Any product not distributed by Alpine within the United States, Puerto Rico or Canada.
- ⑨ Any product not purchased from an Authorized Alpine Dealer.

● HOW TO OBTAIN WARRANTY SERVICE:

- ① You are responsible for delivery of the product to an Authorized Alpine Service Center or Alpine for repair and for payment of any initial shipping charges. Alpine will, at its option, repair or replace the product with a new or reconditioned product without charge. If the repairs are covered by the warranty, and if the product was shipped to an Authorized Alpine Service Center or Alpine, Alpine will pay the return shipping charges.
- ② You should provide a detailed description of the problem(s) for which service is required.
- ③ You must supply proof of your purchase of the product.
- ④ You must package the product securely to avoid damage during shipment. To prevent lost packages it is recommended to use a carrier that provides a tracking service.

● HOW WE LIMIT IMPLIED WARRANTIES:

ANY IMPLIED WARRANTIES INCLUDING FITNESS FOR USE AND MERCHANTABILITY ARE LIMITED IN DURATION TO THE PERIOD OF THE EXPRESS WARRANTY SET FORTH ABOVE AND NO PERSON IS AUTHORIZED TO ASSUME FOR ALPINE ANY OTHER LIABILITY IN CONNECTION WITH THE SALE OF THE PRODUCT.

● HOW WE EXCLUDE CERTAIN DAMAGES:

ALPINE EXPRESSLY DISCLAIMS LIABILITY FOR INCIDENTAL AND CONSEQUENTIAL DAMAGES CAUSED BY THE PRODUCT. THE TERM "INCIDENTAL DAMAGES" REFERS TO EXPENSES OF TRANSPORTING THE PRODUCT TO THE ALPINE SERVICE CENTER, LOSS OF THE ORIGINAL PURCHASER'S TIME, LOSS OF THE USE OF THE PRODUCT, BUS FARES, CAR RENTALS OR OTHERS COSTS RELATING TO THE CARE AND CUSTODY OF THE PRODUCT. THE TERM "CONSEQUENTIAL DAMAGES" REFERS TO THE COST OF REPAIRING OR REPLACING OTHER PROPERTY WHICH IS DAMAGED WHEN THIS PRODUCT DOES NOT WORK PROPERLY. THE REMEDIES PROVIDED UNDER THIS WARRANTY ARE EXCLUSIVE AND IN LIEU OF ALL OTHERS.

● HOW STATE/PROVINCIAL LAW RELATES TO THE WARRANTY:

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state and province to province. In addition, some states/provinces do not allow limitations on how long an implied warranty lasts, and some do not allow the exclusion or limitation of incidental or consequential damages. Accordingly, limitations as to these matters contained herein may not apply to you.

● IN CANADA ONLY:

This Warranty is not valid unless your Alpine car audio product has been installed in your vehicle by an Authorized Installation Center, and this warranty stamped upon installation by the installation center.

● HOW TO CONTACT CUSTOMER SERVICE:

Should the product require service, please call the following number for your nearest Authorized Alpine Service Center.
