## IMPORTANT SAFETY RULES

Please read, understand, and follow all instructions carefully before installing and using this product. Keep for future reference.

# SX 2100

Krystal Clear™ Sand Filter Pump

Certified Model Number SF80220RC-2 220-240 V~, 50 Hz, 250 W, Hmax 5 m Hmin 0.19 m IPX4

# SX 2800

Krystal Clear™ Sand Filter Pump

Certified Model Number SF70220RC-2 220-240 V~, 50 Hz, 450 W, Hmax 7.5 m Hmin 0.19 m IPX4

# SX 3200

Krystal Clear™ Sand Filter Pump

Certified Model Number SF60220RC-2 220-240 V~, 50 Hz, 550 W, Hmax 7.5 m Hmin 0.19 m IPX4

MAX. WATER TEMPERATURE 35°C

For illustrative purposes only.

Don't forget to try these other fine Intex products: pools, pool accessories, inflatable pools and in-home toys, airbeds and boats available at fine retailers or visit our website.

Due to a policy of continuous product improvement, Intex reserves the right to change specifications and appearance, which may result in updates to the instruction manual without notice.

### RCD OPERATING INSTRUCTIONS

- Plug RCD into power outlet. Press RESET button on the RCD plug. Indicator should be "ON".
- Press TEST button on the RCD plug. Indicator should be "OFF".
- Press RESET button for use. Do not use if test fails. Contact a qualified electrician to determine cause of failure.

# IMPORTANT SAFETY RULES

Read, Understand and Follow All Instructions Carefully Before Installing and Using this Product.

## READ AND FOLLOW ALL INSTRUCTIONS

### WARNING

- Always supervise children and those with disabilities.
- Children must stay away from this product and electrical cord(s).
- Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Assembly and disassembly by adults only. Cleaning and user maintenance must be performed by an adult above 18 years old who is familiar with the risk of electric shock.
- Risk of electric shock. Connect this product only to a grounding type receptacle protected by a ground-fault circuit interrupter (GFCI) or residual current device (RCD). Contact a qualified electrician if you cannot verify that the receptacle is protected by a GFCI/RCD. Use a qualified electrician to install the GFCI/RCD, which has a maximum rate of 30 mA.
- Always unplug this product from the electrical outlet before removing, cleaning, servicing or making any adjustment to the product.
- Always unplug the appliance on raining days or if leave it for long time (such as going out for holidays).
- The plug must be accessible after product is installed.
- Do not bury the electrical cord. Locate the cord where it will not be damaged by lawn mowers, hedge trimmers and other equipment.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- To reduce the risk of electric shock, do not use extension cords, timers, plug adaptors or converter plugs to connect unit to electric supply; provide a properly located outlet.
- Do not attempt to plug in or unplug this product while standing in water or when your hands are wet.
- Keep this product more than 3.5 m away from the pool.
- Keep the plug of this product more than 4 m away from the pool and at a height of 1.2 m at least.
- Position this product away from the pool, so as to prevent children from climbing on it and accessing the pool.
- Do not operate this product when pool is occupied.
- This product is for use with storable pools only. Do not use with permanently installed pools. A storable pool is constructed so that it may be readily disassembled for storage and reassembled to its original configuration.
- To reduce the risk of entrapment hazard, never enter the pool if suction strainer component is loose, broken, cracked, damaged or missing. Replace loose, broken, damaged, cracked or missing suction strainer components immediately.
- Never play or swim near suction fittings. Your body or hair may be trapped causing permanent injury or drowning.
- To prevent equipment damage and risk of injury, always turn pump off before changing the filter control valve position.
- Never operate this product above the maximum working pressure stated on the filter tank.
- Hazardous Pressure. Improper tank valve cover assembly could cause the valve cover to blow off and cause serious injury, property damage or death.
- This product is intended to be used only for the purposes described in the manual!

**FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN PROPERTY DAMAGE, ELECTRIC SHOCK, ENTANGLEMENT OR OTHER SERIOUS INJURY OR DEATH.**

These product warnings, instructions and safety rules provided with the product represent some common risks of water recreation devices and do not cover all instances of risk and danger. Please use common sense and good judgement when enjoying any water activity.

# PARTS REFERENCE

Before assembling your product, please take a few minutes to check the contents and become familiar with all the parts.

**NOTE:** Drawings for illustration purpose only. Actual product may vary. Not to scale.

## PARTS REFERENCE (continued)

Before assembling your product, please take a few minutes to check the contents and become familiar with all the parts.

If the pump was purchased individually, only these inlet fitting parts are included:

If the pump was purchased as part of a pool set with 1-1/2" (38mm) connections/ hoses, below fitting parts are included:

If the pump was purchased as part of a pool set with 1-1/4" (32mm) connections/ hoses, below fitting parts are included:

**NOTE:** Drawings for illustration purpose only. Actual product may vary. Not to scale. Contact our Authorized Service Centers to order these parts if needed. When ordering parts, be sure to quote the model number and part numbers.

## POOL OUTLET - STRAINER & PLUNGER VALVE SETUP (optional)

The strainer grid prevents large objects from jamming and/or damaging the filter pump. If your pool has an inflatable top ring, install the strainer, nozzle and plunger valve before inflating the pool liner top ring. The part numbers here onward refer to the parts depicted in the Parts List section of this manual. To install, do the following:

1. In a counter-clockwise motion unscrew plunger valve union from the threaded strainer connector (26) (see drawing 1). Be careful not to lose the step rubber washer (23). Place the plunger valve on the ground in a safe place.
2. In a counter-clockwise motion unscrew the strainer nut (24) from the threaded connector (26). Leave the flat washer (25) on the connector (26).
3. Install the strainer and plunger valve at the lower position of pool outlet (marked "+"). From the inside of the pool liner insert the connector (26) into one of the pre-cut holes with the washer remaining on the connector to be placed against the inside of the liner wall.
4. Before assembly, lubricate the threads with a petroleum jelly. With the flat side of the strainer nut (24) facing the outside wall of the liner in a clockwise motion screw the strainer nut (24) back onto the threaded connector (26) (see drawing 2).
5. Finger tighten the strainer nut (24) onto the threaded connector (26).
6. Grasp the plunger valve assembly. Make sure the step washer (23) is in place.
7. In a clockwise motion screw the plunger valve union back onto the threaded connector (26) (see drawing 3).
8. In a clockwise motion turn the plunger valve handle to close position. Ensure the plunger valve is securely closed. This will prevent water from flowing out during filling of the pool (see drawing 4).

## POOL INLET - NOZZLE & PLUNGER VALVE SETUP (optional)

1. In a counter-clockwise motion unscrew plunger valve union from the inlet threaded air connector (42) (see drawing 5). Be careful not to lose the step rubber washer (23). Place the plunger valve on the ground in a safe place.
2. In a counter-clockwise motion unscrew the strainer nut (24) from the inlet threaded air connector (42). Leave the flat washer (25) on the connector (42).
3. Install the nozzle and plunger valve at the upper position of pool inlet. From the inside of the pool liner insert the nozzle union (27 & 42) into one of the pre-cut holes with the washer remaining on the connector to be placed against the inside of the liner wall.
4. Before assembly, lubricate the threads with a petroleum jelly. Then, with the flat side of the strainer nut (24) facing the outside wall of the liner in a clockwise motion screw the strainer nut (24) back onto the inlet threaded air connector (42) (see drawing 6).
5. Finger tighten the adjustable pool inlet jet nozzle (27) and the strainer nut (24) onto the inlet threaded air connector (42).
6. Grasp the plunger valve assembly. Make sure the step washer (23) is in place.
7. Screw the air jet valve (41) over the inlet threaded air connector (42). **NOTE:** Make sure the air jet valve is securely tighten and facing up. In a clockwise motion screw the plunger valve union back onto the inlet threaded air connector (42) (see drawing 7).
8. In a clockwise motion turn the plunger valve handle to close position. Ensure the plunger valve is securely closed. This will prevent water from flowing out during filling of the pool (see drawing 8).
9. Adjust the direction of nozzle head pointing away from the pool outlet for a better circulation result (see drawing 9).
10. The pool liner is now ready to fill with water. Consult the above-ground-pool owner's manual for filling instructions.

**NOTE:** Do not cover the air jet valve (41) with the valve cap (44) under normal situation or when the pump is operating. See Troubleshooting Guide section for more details.

## PRODUCT SPECIFICATIONS

The sand filter removes suspended particles but does not sanitize your pool. Pool chemistry is a specialized area and you should consult your local pool service specialist for details.

Certified Model Number:	SF80220RC-2	SF70220RC-2	SF60220RC-2
Power:	220-240 Volt AC	220-240 Volt AC	220-240 Volt AC
Wattage:	250 W	450 W	550 W
Maximum working pressure:	2 bar (30 psi)	2 bar (30 psi)	2 bar (30 psi)
Effective filtering area:	0.07 m <sup>2</sup> (0.79 ft <sup>2</sup> )	0.1 m <sup>2</sup> (1.07 ft <sup>2</sup> )	0.13 m <sup>2</sup> (1.44 ft <sup>2</sup> )
Pump flow rate (at pump outlet):	7.9 m <sup>3</sup> /h (2100 GPH)	10.5 m <sup>3</sup> /h (2800 GPH)	12 m <sup>3</sup> /h (3200 GPH)
Recommended filtering media quantity:	No. 20 silica sand 23 Kg (50 Lbs) or glass sand 16 Kg (35 Lbs).	No. 20 silica sand 35 Kg (77 Lbs) or glass sand 25 Kg (55 Lbs).	No. 20 silica sand 55 Kg (120 Lbs) or glass sand 38 Kg (85 Lbs).
Recommended filtering media (Not included):	No. 20 silica sand or glass sand. Particle size range 0.45 to 0.85 mm (0.018 to 0.033 inches). Uniformity Coefficient less than 1.75.		
Limited Warranty:	see "Limited Warranty"		

## SETUP INSTRUCTIONS

**TOOLS REQUIRED:** One (1) Phillips screwdriver

**Pump location and mounting:**

- The system must be installed on a solid level and vibration-free base.
- Provide a location protected from the weather, moisture, flooding and freezing temperature.
- Provide adequate access, space and lighting for routine maintenance.
- Pump motor requires free circulation of air for cooling. Do not install the pump in a damp or non-ventilated location.

A team of 2 or more people is recommended for setting up this product.

The appliance is intended only for household use.

**Motor pre-filtering assembly setup:**

1. Remove the sand filter and its accessories from the packaging carefully and inspect for any visible damage.
2. In a counter-clockwise motion unscrew the leaf trap cover (35) from the pre-filter housing. Take out the basket (16) and filter housing nut (17) (see drawing 10).
3. Connect the pre-filter housing to the motor water inlet. Note: Align the connector in the pre-filter housing with the water inlet on the motor (see drawing 11).

## SETUP INSTRUCTIONS (continued)

4. In a clockwise motion screw filter housing nut (17) onto the motor water inlet (see drawings 12.1 & 12.2).

5. Replace the basket (16) and leaf trap cover (35) back to the pre-filter housing (see drawings 13.1 & 13.2).

### Sand tank installation:

1. Place the tank support base at the selected location.
2. Place the tank on the tank support base (see drawing 14.1).
3. Connect the motor pre-filtering assembly unit to the tank support base (see drawing 14.2).  
NOTE: Ensure the pre-filter housing water inlet hose connection is facing towards the pool.  
**IMPORTANT: Some countries, especially in the European community, require the product to be secured to the ground or to a base in a permanent upright position. Check your local authorities to determine if there is a regulation in your area regarding above-the-ground swimming pool filter-pumps. If yes, then the product can be mounted to a platform using the two holes located in the base. See drawing 14.3.**

The product can be mounted on a cement base or onto a wooden platform to prevent accidental falling over.

- The mounting holes are 6.4 mm in diameter and spaced 210 mm for model SF80220RC-2 (spaced 224 mm for model SF70220RC-2 & SF60220RC-2) apart.
- Use two bolts and lock nuts with a maximum of 6.4 mm in diameter.

## SETUP INSTRUCTIONS (continued)

### Sand loading:

**IMPORTANT:** Use No. 20 silica sand or glass sand with particle size range 0.45 to 0.85 mm (0.018 to 0.033 inches) and a Uniformity Coefficient less than 1.75.

Only use the filter media specified by the manufacturer.

**NOTE:** Before loading the tank with sand, ensure the center pipe hub assembly is securely in place at the bottom of the tank, and vertically centered inside the tank.

1. Place the sand shield (6) over the top of the center pipe. Pour the sand into the tank at a slow rate (see drawing 15).
2. Fill the tank approximately half way, remove the sand shield (6) from the top (see drawing 16).

3. Evenly distribute the sand inside the tank, then fill the tank with some water to provide a cushioning effect when the remaining sand is poured in. This prevents the center pipe hub (7) from excessive shock (see drawing 17). Place the sand shield (6) back and continue to pour the sand into the tank.
4. Sand shall be filled between the "MAX" and "MIN" marked gauge on the center pipe (see drawings 18).

5. Remove the sand shield (6) (see drawing 16) and evenly spread and level out the sand by hand (see drawing 17).
6. Wash away all sand around the top edge of the tank.

## SETUP INSTRUCTIONS (continued)

### ⚠ WARNING

**Improper tank valve and clamp assembly could cause the valve and clamp to blow off and cause serious injury, property damage or death.**

#### 6-way valve installation:

1. Lower the 6-way valve over the tank slowly, and ensure the bypass pipe protruding underneath the 6-way valve fits securely into the center pipe hub (7) top opening (see drawing 19).

**IMPORTANT:** There are three hose connection ports on the 6-way valve, ensure the outlet connection (from filter to the pool) on the valve is facing towards the pool, and the inlet connection (from motor to valve) is aligned with the motor outlet (see drawing 20).

2. Place an L-shape o-ring (11) on the 6-way valve inlet connection and on the pump motor outlet. In a clockwise motion connect the sand filter interconnecting hose (13) between the pump motor outlet and the 6-way valve inlet connection (see drawing 21).
3. Remove the clamp bolt, and install the clamp around the tank and 6-way valve flanges, then replace the clamp bolt and use a phillips screwdriver (not included) to tighten it (see drawing 22).

## SAND FILTER PUMP HOSE CONNECTION SETUP

### ⚠ WARNING

- Keep this product more than 3.5m away from the pool.
- Keep the plug of this product more than 4m away from the pool and at a height of 1.2m at least.
- Position this product away from the pool, so as to prevent children from climbing on it and accessing the pool.

The 6-way valve has three hose connection ports.

1. Connect one hose (12) end to the pre-filter inlet and the other end of the hose to the lower plunger valve with the strainer. Ensure the hose nuts are securely tightened.
2. Connect the second hose (12) between the 6-way valve water outlet and the upper plunger valve with the inlet-nozzle. Ensure the hose nuts are securely tighten.
3. The third hose connection port (drain/waste outlet) on the 6-way valve shall be directed to a proper draining receptacle using a hose or pipe (not provided). Remove the drain cap before attaching the drain/waste hose or pipe.
4. The sand filter pump is now ready to filter the pool.

According to the International Standard, IEC 60364-7-702, on electrical installation of swimming pools and other basins equipment, the following installation distances must be respected:

- The filter pump must be positioned more than 3.5m away from the pool walls.
- The power plug to the 220-240 volt electrical power source of the filter pump must be positioned more than 4m away from the pool walls.

Check your local authorities to determine the appropriate standard and requirements for "electrical installation of swimming pools and basins equipment". The following table is for reference only:

Country/Region	Standard Number
International	IEC 60364-7-702
France	NF C 15-100-7-702
Germany	DIN VDE 0100-702
The Netherlands	NEN 1010-702

# SAND FILTER PUMP HOSE CONNECTION SETUP (continued)

## For NON-INTEX pool:

Connect the hose (12) to the pool inlet/outlet connection with a large hose clamp. Tighten securely.

## For INTEX pool with 1-1/4" (32mm) connections/hoses:

Make sure the air jet valve (41) is securely tighten onto the pool inlet air adaptor (43) and facing up.

## OPERATING INSTRUCTIONS

### WARNING

- Risk of electric shock. Connect this product only to a grounding type receptacle protected by a ground-fault circuit interrupter (GFCI) or residual current device (RCD). Contact a qualified electrician if you cannot verify that the receptacle is protected by a GFCI/RCD. Use a qualified electrician to install the GFCI/RCD, which has a maximum rate of 30mA.
- To reduce the risk of electric shock, do not use extension cords, timers, plug adaptors or converter plugs to connect unit to electric supply; provide a properly located outlet.
- Do not attempt to plug in or unplug this product while standing in water or when your hands are wet.
- Never operate this product above the maximum working pressure stated on the filter tank.
- Always switch off pump before changing the 6-way valve position.
- Operating this product without water flowing through the system can cause a build up of hazardous pressure which can result in an explosive situation, serious injury, property damage or death.
- Never test this pump with compressed air. Never operate the system with water temperature above 35°C (95°F).

#### 6-way valve positions and function:

Valve Position	Function	Water Flow Direction
<b>FILTER</b> (see drawing 23)	Normal filtration and regular vacuuming of pool	From pump through filter media to pool
<b>BACKWASH</b> (see drawing 24)	Reverses water flow to clean filter media	From pump through filter media to valve waste/drain outlet
<b>RINSE</b> (see drawing 25)	For initial startup cleaning of the sand, and leveling the sand bed after backwashing	From pump through filter media to valve waste/drain outlet
<b>WASTE</b> (see drawing 26)	For vacuuming directly to waste, lowering pool level or to drain the pool	From pump to valve waste/drain outlet bypassing the filter media
<b>RECIRCULATE</b> (see drawing 27)	For circulating water back to pool without going through the filter media	From pump through valve to pool bypassing the filter media
<b>CLOSED</b> (see drawing 28)	Shuts off all flow to filter and pool <b>“Do not use this setting with pump running”</b>	

#### Control panel description:

 ON / OFF button	 LOCK / UNLOCK button	 TIMER button
---	--	--

LED Reading	Definition
00	Stand-by mode (start-up / operating cycle finished)
01	Minimum operating hour (1 hour remaining)
02-11	Operating hours (2 - 11 hours remaining)
12	Maximum operating hours (12 hours remaining)
FP	Timer OFF (pump operating continuously)
•	Power saving mode

## OPERATING INSTRUCTIONS (continued)

### Initial startup and operation:

#### Before operating, be sure that:

- All the hoses have been connected and tightened securely, and correct amount of filter sand have been loaded.
- The entire system is connected to a grounding type receptacle protected by a ground-fault circuit interrupter (GFCI) or residual current device (RCD).

## ⚠ CAUTION

**The filter control valve has a closed position. The pump should never be on when the valve is in the closed position. If the pump is operated with the valve closed, explosive situation could exist.**

1. Turn both plunger valve handles fully counter-clockwise until they stop. This opens the valves to allow water to flow into the sand filter pump. With water flowing into sand filter pump, the water pressure will allow the air trapped inside to escape from the air release valves (19). When all the air has escaped water will flow out of the valves (19). When this occurs gently finger tighten the valves (19) in a clockwise direction.

**IMPORTANT: To prevent air lock, open the lower plunger valve (connected inlet hose) first and then the upper plunger valve (connected outlet hose). Open the air release valves, wait until water starts to flow out of the air release valves, close air release valves.**

2. Ensure the drain/waste outlet on the 6-way valve is not covered and directed to a proper draining receptacle.
3. **BACKWASH** - Ensure the pump is off, depress the 6-way valve and turn it to the "BACKWASH" position (see drawings 24 & 29).  
**IMPORTANT: To prevent damage to the 6-way valve, always depress the valve handle before turning. Always switch off pump before changing the 6-way valve position.**

4. Press  to switch on the system, and then press  to set the operating TIMER hours (see "Operating the system under TIMER mode or manually" section for details). Water is circulating backward through the sand media and to waste/drain outlet. Backwash until a clear flow of water is observed in the waste/drain outlet or through the drain sediment window.

**NOTE:** If the LED display flashes "00", the device is in stand-by mode and the pump will not operate. The initial backwash of the filter is recommended to remove any impurities or fine sand particles in the sand media.

5. Switch off the pump, change the 6-way valve to "RINSE" position (see drawing 25).
6. Switch on the pump and run the pump for about one minute to level out the sand bed after backwashing the sand media.
7. Switch off the pump, change the 6-way valve to "FILTER" position (see drawing 23).
8. Switch on the pump. The system is now operating in the normal filtering mode. Run the pump until the desired pool water clearance is obtained and no more than 12 hours per day. For the initial startup, it is recommended setting the system to a longer TIMER operating hours or "FP" for the pump to operate continuously without the TIMER.
9. Record the initial pressure gauge reading when the filter media is clean.

**NOTE:** During initial setup of the system, it may be necessary to backwash frequently due to unusual heavy dirt present in the water and sand. After that, as the filter removes dirt and impurities from the pool water, the accumulated dirt in the sand media will cause the pressure to rise and the flow to diminish. If there is no vacuuming device attached to the system and the pressure gauge reading is in the yellow zone it is time to backwash the sand media, see "BACKWASH" under "initial startup and operation" section.

Vacuuming device (i.e. Intex auto pool cleaner) attached to the system may also cause the flow to diminish and the pressure to rise. Remove any vacuuming device from the system and check if the pressure gauge reading has dropped from the yellow zone to the green zone.

10. Monitor the pressure gauge reading, and check that the inlet and outlet openings are not obstructed on a weekly basis. If the pressure gauge indicates yellow it is time to backwash the filter media.

## OPERATING INSTRUCTIONS (continued)

### Operating the system under "TIMER" mode or manually:

#### To operate the sand filter pump in "FILTER" mode under "TIMER" control:

##### 1. Activate the unit:

Press  button. Flashing code "00" appears on the LED display, indicating that the unit is ready to be programmed.

##### 2. Set operating hours:

With code "00" flashing, press  button to set the desired operating hours. See the "Operating Time Table" for the required operating hours related to each pool size. Pressing  will increase the time from 01 to 12 hours maximum. If you have selected too many hours keep pressing  to repeat the cycle. The built-in timer will now activate the Sand filter pump, at the same time each day, for the number of hours you have set.

(1 to 12 hours max per cycle)

##### 3. Lock keypad controls:

With the desired hour value showing, press  button until you hear a "beep". Locking the control buttons into this setting prevents unauthorized changing of the operating cycle.

**NOTE:** If you forget to lock the keypad controls, the system will automatically lock it and start working 10 seconds later.

The sand filter pump is now filtering the water and will stop after the operating hours are completed.

##### 4. Readjust operating time if necessary:

The operating hours can be re-adjusted if necessary. Press  button until you hear a "beep" to unlock the keypad and the current programmed time will flash. Repeat steps 2 to 3.

##### 5. Stand-by/power saving mode:

- When the cycle ends, the LED display shows "00". The system is now in Stand-By mode. After 5 minutes the system goes into Power Saving mode and the LED display shows ".". The system will automatically turn itself back on in 24 hours.
- While the system is in Power Saving mode, press any button and the system will briefly display the programmed time and then "00".

#### To view the TIMER preset hours:

While the pump is operating, press  button, the display will briefly flash the preset hours for 10 seconds and then display back the remaining operating hours.

#### To operate the sand filter pump manually (without the "TIMER" mode):

1. To run the pump alone without the "Timer", press  button to turn on the pump, then press  button until the LED displays "FP", this indicates that the TIMER is off and the pump is now operating continuously.
2. To stop the pump, press  button again.

## INTEX POOLS OPERATING TIME TABLE (WITHOUT INTEX SALTWATER SYSTEM)

This table shows the required operating time for average use of the sand filter pump with above ground pools.

If the system is attached to an "Intex Saltwater System" unit, the filter pump running time should be longer than the required operating time of the Intex Saltwater System unit.

Pool Size	Water Capacity (Calculated at 90% for Frame Pool and 80% for Easy Set & Oval Pool)		Sand filter pump operating time (For one cycle) / (Hours)			
	(Gals)	(Liters)	SF80220RC-2	SF70220RC-2	SF60220RC-2	
<b>INTEX ABOVE GROUND POOLS (AGP's)</b>						
<b>EASY SET® POOL</b>	457cmx84cm (15'x33")	2587	9792	2	-	-
	457cmx91cm (15'x36")	2822	10681	2	-	-

18000	68130	12	9	8
19000	71915	12	9	8
20000	75700	-	10	9
21000	79485	-	10	9
22000	83270	-	11	9
23000	87055	-	11	10
24000	90840	-	12	10
25000	94625	-	12	11
26000	98410	-	12	11

## MOTOR PRE-FILTER CLEANING AND MAINTENANCE

**It is essential to change any damaged element or set of elements as soon as possible. Use only parts approved by the manufacturer.**

1. Make sure the filter pump is switched off, then disconnect the power cord from the electrical outlet.
2. Turn both plunger valve handles fully clockwise until they stop. This closes the valve, prevents the water from flowing out of the pool.
3. Release the pressure first by opening the sediment release valve **(19)** located on the lower side of the pre-filter housing **(see drawing 30)**.

4. In a counter-clockwise motion unscrew the leaf trap cover **(35)**, then remove the basket **(16)** and leaf trap o-ring **(15)** from the pre-filter housing **(see drawing 31)**.

5. Empty and flush the basket using a garden hose, may use a plastic brush to remove deposits from the basket. Do not use metal brush.
6. Clean and rinse the inside of the pre-filter housing and the leaf trap O-ring with a garden hose.
7. Reinstall the leaf trap O-ring, basket and leaf trap cover to the pre-filter housing.
8. Close the sediment release valve **(19)**.

**All filter and filter media shall be inspected regularly to ensure that there is no build-up of debris thus preventing a good filtration. Disposal of any used filter media should be in accordance with applicable local regulation and legislation.**

## POOL CARE & CHEMICALS

- All pools require care to keep the water clear and hygienically clean. With proper chemical control, your filter will help attain this objective. Consult your pool supply dealer for instructions regarding the proper use of chlorine, algaecide and other chemical agents required for sparkling clear water.
- Keep pool chemicals away from children.
- Do not replenish chemicals in pool while pool is occupied. Skin or eye irritations could occur.
- Daily pH checking and chemical treatment of the water is very important and cannot be overemphasized. Chlorine, algaecide and maintenance of proper pH levels are required when filling the pool as well as during the season. Consult your local swimming pool supply store for instructions.
- The season's first filling of the pool may have brackish water requiring extra water additives and extra filtering time. Do not allow swimming in pool until the pH level is balanced. Consult your local swimming pool supply store for instructions.
- Chlorinated water may damage lawns, gardens or shrubbery as children play in the pool and splash water outside the pool. Lawn areas underneath the pool liner will be destroyed. Note that some types of grass may grow through the liner.
- Filter run time depends on pool size, weather and usage level. Experiment with various run times so as to produce clean clear water.
- European standard EN16713-3 lists some additional pool water quality and water treatment information that can be found at [www.intexcorp.com/support](http://www.intexcorp.com/support).

### CAUTION

**Concentrated chlorine solutions may damage the pool liner. Always follow the chemical manufacturer's directions, and the health and hazard warnings.**

## LONG TERM STORAGE & WINTERIZATION

### CAUTION

**Allowing the water to freeze will damage the sand filter and void the warranty.**

1. Before emptying your pool for long term storage, or relocation, be sure the water is directed towards an acceptable drain water receptacle away from the house. Check local regulations for specific directions regarding disposal of swimming pool water.
2. Switch off the unit, and disconnect power cord from electrical outlet.
3. When the pool is empty, disconnect all hoses from pump and plunger valves and remove the strainers/plunger valves from the pool wall.
4. In a counter clockwise motion unscrew the drain valve cap (9) from the drain valve to thoroughly drain the tank. The drain valve is located at the bottom of the filter tank.
5. Disassemble the pump motor from the tank base.
6. Leave sand filter pump pieces and hoses outside to thoroughly air dry.
7. Coat the following o-rings and washers with petroleum jelly for long term storage:
  - L-shape o-ring (11 & 18).
  - Pump hose O-rings (22).
  - Strainer valve assembly step washers (23).
  - Flat strainer rubber washers (25).
8. Depress the 6-way valve handle and rotate so as to set the pointer on the valve top "N" position. This allows the water to drain from the valve. Leave the 6-way valve in this inactive position.
9. It is best to place all dry pieces and pump motor in the original packaging for storage. To avoid condensation or corrosion problem, do not cover or wrap pump motor with plastic bags.
10. Store the pump motor and accessories in a dry place. The storage's temperature should be controlled, between 0 degrees Celsius (32 degrees Fahrenheit) and 40 degrees Celsius (104 degrees Fahrenheit).
11. Cover the tank with a tarpaulin or plastic sheet to protect it from the weather.

## TROUBLESHOOTING GUIDE

TROUBLE	CAUSE	SOLUTION
FILTER MOTOR FAILS TO START	<ul style="list-style-type: none"> <li>The motor is not plugged in.</li> <li>The GFCI/RCD circuit breaker is tripped.</li> <li>Motor too hot and overload protection is shut off.</li> </ul>	<ul style="list-style-type: none"> <li>Line cord must be plugged into a 3 wire outlet that is protected by a Class A Ground Fault Circuit Interrupter, or RCD.</li> <li>Reset circuit breaker. If circuit breaker trips repeatedly, your electrical system may have a defect. Turn off circuit breaker and call an electrician to correct the problem.</li> <li>Let the motor cool down and restart again.</li> </ul>
FILTER DOESN'T CLEAN POOL	<ul style="list-style-type: none"> <li>Improper chlorine or pH levels.</li> <li>No filtering media in tank.</li> <li>Wrong 6-way valve setting position.</li> <li>Excessively dirty pool.</li> <li>The strainer screen is restricting the water flow.</li> </ul>	<ul style="list-style-type: none"> <li>Adjust the chlorine and pH level. Consult your local swimming pool supply stores.</li> <li>Load with filter sand, see "sand loading instructions".</li> <li>Set valve to "FILTER" position.</li> <li>Operate the filter for longer periods.</li> <li>Clean the strainer screen at the inlet.</li> </ul>
FILTER DOESN'T PUMP WATER OR FLOW IS VERY SLOW	<ul style="list-style-type: none"> <li>Clogged inlet or discharge.</li> <li>An air leak on the intake line.</li> <li>Excessively dirty pool.</li> <li>Sand media clogged with dirt.</li> <li>Nozzle and strainer connections are reversed.</li> <li>Crusting or caking on the filtering sand surface.</li> <li>Pool vacuuming device attached to the system.</li> <li>Inlet threaded air connector connected to the wrong hole on the liner.</li> </ul>	<ul style="list-style-type: none"> <li>Clear any obstructions in the intake hose by discharging it inside pool wall.</li> <li>Tighten hose nuts, check hoses for damage, check pool water level.</li> <li>Clean the pre-filtering basket more often.</li> <li>Backwash filter.</li> <li>Install the nozzle at the upper position of the pool inlet, and the strainer at the lower position of the pool outlet.</li> <li>Remove about 1" of sand if necessary.</li> <li>Remove any pool vacuuming device attached to the system line.</li> <li>Make sure the inlet threaded air connector is connected to the pool inlet upper hole.</li> </ul>
PUMP DOESN'T WORK	<ul style="list-style-type: none"> <li>Low water level.</li> <li>Strainer screen clogged up.</li> <li>An air leak on the intake hose.</li> <li>Faulty motor or the impeller is jammed.</li> </ul>	<ul style="list-style-type: none"> <li>Fill pool to correct water level.</li> <li>Clean strainer screens at pool inlet.</li> <li>Tighten hose nuts, check hose for damage.</li> <li>Contact Intex service center.</li> </ul>
6-WAY VALVE/COVER LEAKING	<ul style="list-style-type: none"> <li>Sand tank o-ring missing.</li> <li>Sand tank o-ring dirty.</li> <li>Flange clamp not tight.</li> <li>6-way valve damage.</li> </ul>	<ul style="list-style-type: none"> <li>Remove 6-way valve cover and ensure the o-ring is in place.</li> <li>Clean sand tank o-ring with garden hose water.</li> <li>Tighten securely.</li> <li>Contact Intex service center.</li> </ul>
HOSE LEAKING	<ul style="list-style-type: none"> <li>Hose nut not securely tight.</li> <li>Hose connection fitting o-ring/L-shape o-ring missing.</li> </ul>	<ul style="list-style-type: none"> <li>Tighten/reinstall hose nut.</li> <li>Ensure o-ring/L-shape o-ring is in place and not damaged.</li> </ul>
TIMER IS INACCURATE OR TIMER CAN'T BE SET	<ul style="list-style-type: none"> <li>Possible inner timer defective.</li> </ul>	<ul style="list-style-type: none"> <li>Turn off the pump and restart 5 minutes later.</li> <li>Re-set the timer.</li> <li>Contact Intex service center.</li> </ul>

## IMPORTANT

**If you continue to experience difficulty, please contact our Consumer Service Department for assistance. See separate "Authorized Service Centers" sheet.**

## GENERAL AQUATIC SAFETY

Water recreation is both fun and therapeutic. However, it involves inherent risks of injury and death. To reduce your risk of injury, read and follow all product, package and package insert warnings and instructions. Remember, however, that product warnings, instructions and safety guidelines cover some common risks of water recreation, but do not cover all risks and dangers.

For additional safeguards, also familiarize yourself with the following general guidelines as well as guidelines provided by nationally recognized Safety Organizations:

- Demand constant supervision. A competent adult should be appointed as a "lifeguard" or water watcher, especially when children are in and around the pool.
- Learn to swim.
- Take the time to learn CPR and first aid.
- Instruct anyone who is supervising pool users about potential pool hazards and about the use of protective devices such as locked doors, barriers, etc.
- Instruct all pool users, including children what to do in case of an emergency.
- Always use common sense and good judgement when enjoying any water activity.
- Supervise, supervise, supervise.

## LIMITED WARRANTY

Your Sand Filter Pump has been manufactured using the highest quality materials and workmanship. All Intex products have been inspected and found free of defects prior to leaving the factory. This limited warranty applies only to the Sand Filter Pump and accessories listed below.

This limited warranty is in addition to, and not a substitute for, your legal rights and remedies. To the extent that this warranty is inconsistent with any of your legal rights, they take priority. For example, consumer laws across the European Union provide statutory warranty rights in addition to the coverage you receive from this limited warranty: for information on EU-wide consumer laws, please visit the European Consumer Center website at [http://ec.europa.eu/consumers/ecc/contact\\_en/htm](http://ec.europa.eu/consumers/ecc/contact_en/htm).

The provisions of this limited warranty apply only to the original purchaser and are not transferable. This limited warranty is valid for the period noted below from the date of the initial retail purchase. Keep your original sales receipt with this document, as proof of purchase will be required and must accompany warranty claims or the limited warranty will be invalid.

Sand Filter Pump Warranty – 2 Years

Hoses, Plunger Valves & Fittings Warranty – 180 days

If you find a manufacturing defect in the Sand Filter Pump during the warranty periods noted above, please contact the appropriate Intex Service Center listed in the separate "Authorized Service Centers" sheet. If the item is returned as directed by the Intex Service Center, the Service Center will inspect the item and determine the validity of the claim. If the item is covered by the provisions of the warranty, the item will be repaired or replaced, with the same or comparable item (at Intex's choice) at no charge to you.

Other than this warranty, and other legal rights in your country, no further warranties are implied. To the extent possibly in your country, in no event shall Intex be liable to you or any third party for direct or consequential damages arising out of the use of your Sand Filter Pump, or Intex or its agents' and employees' actions (including the manufacture of the product). If your country does not allow the exclusion or limitation of incidental or consequential damages, this limitation or exclusion does not apply to you.

You should note that this limited warranty does not apply in the following circumstances:

- If the Sand Filter Pump is subject to negligence, abnormal use or application, accident, improper operation, improper voltage or current contrary to operating instructions, improper maintenance or storage;
- If the Sand Filter Pump is subject to damage by circumstances beyond Intex's control, including but not limited to, ordinary wear and tear and damage caused by exposure to fire, flood, freezing, rain, or other external environmental forces;
- To parts and components not sold by Intex; and/or
- To unauthorized alterations, repairs or disassembly to the Sand Filter Pump by anyone other than Intex Service Center personnel.

The costs associated with the loss of pool water, chemicals or water damage are not covered by this warranty. Injury or damage to any property or person is not covered by this warranty.

Read the owner's manual carefully and follow all instructions regarding proper operation and maintenance of your Sand Filter Pump. Always inspect your product prior to use. This limited warranty will be void if use instructions are not followed.

## IMPORTANT SAFETY RULES

Read, understand, and follow all instructions carefully before installing and using this product. Keep for future reference.

## IMPORTANT SAFETY RULES

Read, Understand and Follow All Instructions Carefully Before Installing and Using this Product.

## WARNING

- Supervise children and those with disabilities at all times.
- Always assist children when they use the ladder to avoid falls and/or serious injury.
- Never dive or jump from this ladder.
- Locate the ladder on a level, solid base.
- One person on this ladder at a time.
- Maximum load: 300 lbs (136 kg). Complies with EN16582 strength requirements.
- Face the ladder at all times for entry/exit of pool.
- Remove and secure ladder when pool is not occupied.
- Do not swim under, through or behind ladder.
- Check all nuts and bolts regularly to ensure ladder stays sturdy.
- If swimming at night use artificial lighting to illuminate all safety signs, ladders, pool floor and walkways.
- Assembly and disassembly by adults only.
- This ladder is designed and manufactured for a specific pool wall height and/or deck of the pool. Do not use with other pools.
- Failure to follow the maintenance instructions and warnings may result in adverse health effects or injury, particularly to children.
- Only use this ladder for the purposes described in this manual.

**FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN BROKEN BONES, ENTRAPMENT, PARALYSIS, DROWNING OR OTHER SERIOUS INJURY.**

These product warnings, instructions and safety rules provided with the product represent some common risks of water recreation devices and do not cover all instances of risk and danger. Please use common sense and good judgment when enjoying any water activity.

This ladder is designed and manufactured for Intex pool wall height:

Item #	Pool Wall Height	Item #	Pool Wall Height
28076	48" (122cm)	28077	52" (132cm)

**IMPORTANT**

It is very important to lay out the parts correctly and identify which parts connect together before starting the assembly. Although some parts look alike, they are not always interchangeable. Refer to the parts list.

# SAVE THESE INSTRUCTIONS

### LADDER SETUP

**TOOLS REQUIRED:** One (1) Phillips screwdriver, one (1) small flat screwdriver  
One (1) pair of pliers or a small adjustable wrench  
Estimated assembly time 30-60 minutes. (Note the assembly time is only approximate and individual assembly experience may vary.)

## ⚠ WARNING

INCORRECTLY CONNECTED PARTS MAY RESULT IN AN UNSTABLE LADDER OR LADDER FAILURE WHICH CAN CAUSE FALLING AND PERSONAL INJURY OR DEATH.

### 1. SIDE A LEGS ASSEMBLY (refer to figures 1.1 through 1.4):

**IMPORTANT:** Ensure the J-shaped legs are pointing outwards before installing the steps.

# SAVE THESE INSTRUCTIONS

## LADDER SETUP (continued)

- UPPER SIDE A LEGS ASSEMBLY (refer to figure 1.4):

- 2. SIDE B LEGS ASSEMBLY (refer to figures 2.1 through 2.4):

# SAVE THESE INSTRUCTIONS

### LADDER SETUP (continued)

#### 3. SIDE C LEGS ASSEMBLY (refer to figures 3.1 through 3.4):

**IMPORTANT:** Make sure the legs are securely connected and locked.

#### 4. TOP PLATFORM INSTALLATION (refer to figure 4):

# SAVE THESE INSTRUCTIONS

## LADDER SETUP (continued)

### 5. U-SHAPED TOP RAIL INSTALLATION (refer to figures 5.1 through 5.2):

**IMPORTANT:** One side at a time. Do not attach the other side of the ladder until the U-shaped top rail is installed. Make sure all nuts and bolts are securely tightened. Do not fully tighten fasteners until last assembly operation.

### 6. SIDE B LEGS INSTALLATION (refer to figure 6):

# SAVE THESE INSTRUCTIONS

## LADDER SETUP (continued)

7. **MAINTENANCE:** Regularly check all nuts, bolts, steps and step anchor sleeves to ensure all parts are secured properly and the ladder is sturdy.

8. **BEFORE USE OF LADDER** (refer to figure 7):

With all parts now in place, verify that all fasteners/screws are fully tightened and apply downward pressure to each step to be sure they are fully anchored in place.

**IMPORTANT:** The removable steps side must be located outside of the pool.

## WARNING

BEFORE EACH USE, ENSURE THE REMOVABLE STEPS SIDE IS ANCHORED INTO THE SUPPORT BASE AND SECURELY LOCKED IN THE CLASPS LOCATED AT THE FRONT EDGE OF THE TOP PLATFORM.

9. **AFTER USE OF LADDER** (refer to figure 8):

# SAVE THESE INSTRUCTIONS

## LADDER SETUP (continued)

332  
A

### 10. Removing the steps from the secured position (refer to figure 9):

- With your right hand pull and hold the latch towards you, while at the same time with your left hand press the white protruding buttons and simultaneously lift that leg out of the cavity exposing the lower white protruding buttons.
- Allow the leg to rest over the top brace (make sure it does not fall back into the cavity), and quickly lift up the "removable step assembly" out of its secured position.
- See step 6 for re-attaching the removable steps.

## WINTERIZING / LONG TERM STORAGE

- Remove the "removable steps" as shown in the After Use of Ladder section, see figure 8.
- Remove the ladder from the pool, and make sure the ladder and the removable steps are thoroughly dry before long term storage.
- Bring the ladder and all its components indoors and store in a safe and dry area, preferably between 32°F (0°C) and 104°F (40°C).
- Be sure the ladder and all components are stored in a safe place away from children's reach.
- Step disassembly:

## ⚠ WARNING

WHEN NOT IN USE, LADDER SHOULD BE KEPT IN SAFETY POSITION. REMOVE THE FRONT STEPS SIDE WHEN THE POOL IS NOT IN USE OR OCCUPIED. STORE THE REMOVABLE STEPS SIDE IN A SAFE PLACE AWAY FROM CHILDREN REACH. CLOSE THE CLASPS BACK.

## LIMITED WARRANTY

Your Intex Pool Ladder has been manufactured using the highest quality materials and workmanship. All Intex products have been inspected and found free of defects prior to leaving the factory. This Limited Warranty applies to the Intex Pool Ladder only.

This limited warranty is in addition to, and not a substitute for, your legal rights and remedies. To the extent that this warranty is inconsistent with any of your legal rights, they take priority. For example, consumer laws across the European Union provide statutory warranty rights in addition to the coverage you receive from this limited warranty: for information on EU-wide consumer laws, please visit the European Consumer Center website at [http://ec.europa.eu/consumers/ecc/contact\\_en/htm](http://ec.europa.eu/consumers/ecc/contact_en/htm).

The provisions of this Limited Warranty apply only to the original purchaser and are not transferable. This Limited Warranty is valid for a period of 1 year from the date of the initial retail purchase. Keep your original sales receipt with this document, as proof of purchase will be required and must accompany warranty claims or the Limited Warranty will be invalid.

If you find a manufacturing defect in the Intex Pool Ladder during the warranty period, please contact the appropriate Intex Service Center listed in the separate "Authorized Service Centers" sheet. If the item is returned as directed by the Intex Service Center, the Service Center will inspect the item and determine the validity of the claim. If the item is covered by the provisions of the warranty, the item will be repaired or replaced, with the same or comparable item (at Intex's choice) at no charge to you.

Other than this warranty, and other legal rights in your country, no further warranties are implied. To the extent possibly in your country, in no event shall Intex be liable to you or any third party for direct or consequential damages arising out of the use of your Intex Pool Ladder, or Intex or its agents' and employees' actions (including the manufacture of the product). If your country does not allow the exclusion or limitation of incidental or consequential damages, this limitation or exclusion does not apply to you.

You should note that this limited warranty does not apply in the following circumstances:

- If the Intex Pool Ladder is subject to negligence, abnormal use or application, accident, improper operation, improper maintenance or storage.
- If the Intex Pool Ladder is subject to damage by circumstances beyond Intex's control, including but not limited to, ordinary wear and tear and damage caused by exposure to fire, flood, freezing, rain, or other external environmental forces;
- To parts and components not sold by Intex; and/or
- To unauthorized alterations, repairs or disassembly to the Intex Pool Ladder by anyone other than Intex Service Center personnel.

The costs associated with the loss of pool water, chemicals or water damages are not covered by this warranty. Injury or damage to any property or person is not covered by this warranty.

Read the owner's manual carefully and follow all instructions regarding proper operation and maintenance of your Intex Pool Ladder. Always inspect your product prior to use. This limited warranty will be void if use instructions are not followed.

### **Special Introductory note:**

Thanks for buying an Intex pool. Please read this manual before setting up your pool. This information will help extend the pool life and make the pool safer for your family's enjoyment. A team of 2-4 people is recommended for pool set up. Additional people will speed up the installation.

No tools are required for the assembly.

# IMPORTANT SAFETY RULES

Read, Understand and Follow All Instructions Carefully Before Installing and Using this Product.

## WARNING

- **Continuous and competent adult supervision of children and the disabled is required at all times.**
- Secure all doors, windows and safety barriers to prevent unauthorized, unintentional or unsupervised pool entry.
- Install a safety barrier that will eliminate access to the pool for young children and pets.
- Pool and pool accessories are to be assembled and disassembled by adults only.
- Never dive, jump or slide into an above-ground pool or any shallow body of water.
- Failure to set up pool on flat, level, compact ground or over filling could result in the pool's collapse and the possibility that a person lounging in the pool could be swept out/ejected.
- Do not lean, straddle, or exert pressure on the inflatable ring or top rim as injury or flooding could occur. Do not allow anyone to sit on, climb, or straddle the sides of the pool.
- Remove all toys and flotation devices from, in, and around the pool when it is not in use. Objects in the pool attract young children.
- Keep toys, chairs, tables, or any objects that a child could climb on at least four feet (1.22 meters) away from the pool.
- Keep rescue equipment by the pool and clearly post emergency numbers at the phone closest to the pool. Examples of rescue equipment: coast guard approved ring buoy with attached rope, strong rigid pole not less than twelve feet (12') [3.66m] long.
- Never swim alone or allow others to swim alone.
- Keep your pool clean and clear. The pool floor must be visible at all times from the outside barrier of the pool.
- If swimming at night use properly installed artificial lighting to illuminate all safety signs, ladders, pool floor and walkways.
- Stay away from the pool when using alcohol or drugs/medication.
- Keep children away from pool covers to avoid entanglement, drowning, or other serious injury.
- Pool covers must be completely removed before pool use. Children and adults cannot be seen under a pool cover.
- Do not cover the pool while you or anyone else is in the pool.
- Keep the pool and pool area clean and clear to avoid slips and falls and objects that may cause injury.
- Protect all pool occupants from recreational water illnesses by keeping the pool water sanitized. Don't swallow the pool water. Practice good hygiene.
- All pools are subject to wear and deterioration. Certain types of excessive or accelerated deterioration can lead to an operation failure, and can ultimately cause the loss of large quantities of water from your pool. Therefore, it is very important that you properly maintain your pool on a regular basis.
- This pool is for outdoor use only.
- Empty pool completely when not in use for a longer period and safely store the empty pool in such a way that it does not collect water from rain or any other source, and to prevent from being blown away by strong wind. See storage instructions.
- While the swimming pool is in use, you will need to operate the filter pump to ensure that there is at least one complete turnover of water a day. Consult your pump's manual to calculate the necessary operating hours.

**POOL BARRIERS AND COVERS ARE NOT SUBSTITUTES FOR CONTINUOUS AND COMPETENT ADULT SUPERVISION. POOL DOES NOT COME WITH A LIFEGUARD. ADULTS ARE THEREFORE REQUIRED TO ACT AS LIFEGUARDS OR WATER WATCHERS AND PROTECT THE LIVES OF ALL POOL USERS, ESPECIALLY CHILDREN, IN AND AROUND THE POOL.**

**FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN PROPERTY DAMAGE, SERIOUS INJURY OR DEATH.**

**Advisory:**

Pool owners may need to comply with local or state laws relating to childproof fencing, safety barriers, lighting, and other safety requirements. Customers should contact their local building code enforcement office for further details.

## IMPORTANT SAFETY RULES

Please read, understand, and follow all instructions carefully before installing and using this product. These warnings, instructions, and safety guidelines address some common risks of water recreation, but they cannot cover all risks and dangers in all cases. Always use caution, common sense, and good judgment when enjoying any water activity. Keep for future reference. Packaging must be read carefully and kept for future reference. See product for additional warnings.

### General

- Check pins, bolts and/or screws for rust; splinters or any sharp edges regularly, especially accessible surfaces, to avoid injuries.

### Non swimmers safety

- Continuous, active, and vigilant supervision of weak swimmers and non-swimmers by a competent adult is required at all times (remembering that children under five are at the highest risk of drowning).
- Designate a competent adult to supervise the pool each time it is being used.
- Weak swimmers or non-swimmers should wear personal protection equipment when using the pool.
- When the pool is not in use, or unsupervised, remove all toys from the swimming pool and its surrounding to avoid attracting children to the pool.

### Safety devices

- It is recommended to install a barrier (and secure all doors and windows, where applicable) to prevent unauthorized access to the swimming pool.
- Barriers, pool covers, pool alarms, or similar safety devices are helpful aids, but they are not substitutes for continuous and competent adult supervision.

### Safety equipment

- It is recommended to keep rescue equipment (e.g. a ring buoy) by the pool.
- Keep a working phone and a list of emergency phone numbers near the pool.

### Safe use of the pool

- Encourage all users especially children to learn how to swim.
- Learn Basic Life Support (Cardiopulmonary Resuscitation - CPR) and refresh this knowledge regularly. This can make a life-saving difference in the event of an emergency.
- Instruct all pool users, including children, what to do in case of an emergency.
- Never dive into any shallow body of water. This can lead to serious injury or death.
- Do not use the swimming pool when using alcohol or medication that may impair your ability to safely use the pool.
- When pool covers are used, remove them completely from the water surface before entering the pool.
- Protect pool occupants from water related illnesses by keeping the pool water treated and practicing good hygiene. Consult the water treatment guidelines in the user's manual.
- Store chemicals (e.g. water treatment, cleaning or disinfection products) out of the reach of children.
- Removable ladders shall be placed on a horizontal surface.
- Observe and follow the warnings and safety signs on the pool wall.

## POOL SETUP

### IMPORTANT SITE SELECTION AND GROUND PREPARATION INFORMATION

#### WARNING

- The pool location must allow you to secure all doors, windows, and safety barriers to prevent unauthorized, unintentional or unsupervised pool entry.
- Install a safety barrier that will eliminate access to the pool for young children and pets.
- Failure to set up the pool on flat, level, compact ground and to assemble and fill with water in accordance with the following instructions could result in the pool's collapse or the possibility that a person lounging in the pool could be swept out/ejected, resulting in serious injury or property damage.
- Risk of electric shock: connect the filter pump only to a grounding type receptacle protected by a ground-fault circuit interrupter (GFCI) or residual current device (RCD). To reduce the risk of an electrical shock, do not use extension cords, timers, plug adapters or converter plugs to connect the pump to an electrical supply. Always provide a properly located outlet. Locate the cord where it cannot be damaged by lawn mowers, hedge trimmers, and other equipment. See the filter pump manual for additional warnings and instructions.
- Risk of serious injury: do not attempt to assemble pool in high wind conditions.

#### Select an outdoor location for the pool with the following requirements in mind:

1. The area where the pool is to be set up must be **absolutely flat and level**. Do not set up the pool on a slope or inclined surface.
2. The ground surface must be compacted and firm enough to withstand the pressure and weight of a fully set up pool. **Do Not** set up the pool on mud, sand, soft or loose soil conditions.
3. **Do not** set up the pool on a deck, balcony or platform, which may collapse under the weight of the filled pool.
4. The pool requires at least 5 - 6 feet (1.5 - 2.0m) of space all around pool from objects that a child could climb on to gain access to the pool.
5. Grass under the pool will be damaged. Splash out chlorinated pool water could damage the surrounding vegetation.
6. If the ground is not concrete (i.e., if it is asphalt, lawn or earth) you must place a piece of pressure-treated wood, size 15" x 15" x 1.2" (38 x 38 x 3cm), under each U-shaped support and set **flush** or even with the ground. Alternatively you may use steel pads or reinforced concrete slabs. Consult your local pool supply retailer for advice on support pads.  
**NOTE:** Do not use support pads or slabs with slippery, smooth surfaces as the U-shaped side support will slide outward causing damage to the pool and void the warranty.
7. Eliminate all aggressive grasses first. Certain types of grass such as St. Augustine and Bermuda, may grow through the liner. Grass growing through the liner it is not a manufacture defect and is not covered under warranty.
8. The area shall facilitate drainage of the pool water after each use and/or for long term pool storage.

# POOL SETUP (continued)

You may have purchased this pool with the Intex Krystal Clear™ filter pump. The pump has its own separate set of installation instructions. First assemble your pool unit and then set up the filter pump.

Estimated assembly time 60~90 minutes. (Note the assembly time is only approximate and individual assembly experience may vary.)

- Find a flat, level location that is free and clear of stones, branches or other sharp objects that may puncture the pool liner or cause injury.
  - Open the carton containing the liner, joints, legs, etc., very carefully as this carton can be used to store the pool during the winter months or when not in use.

- Remove the ground cloth (14) from carton. Spread it out completely with its edges being at least 5 - 6' (1.5 - 2.0m) from any obstacle such as walls, fences, trees, etc. Remove the liner (15) from carton and spread it out over the ground cloth with the drain valve towards the draining area. Place the drain valve away from the house. Open it up to warm it in the sun. This warming will make installation easier. Make sure the liner is centered atop the ground cloth. Be sure to face the end with the 2 hose connectors towards the electrical power source.

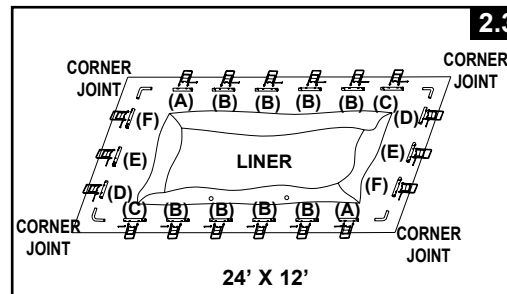

**IMPORTANT: Do not drag the liner across the ground as this can cause liner damage and pool leakage (see drawing 1).**

- During the set-up of this pool liner, point the hose connections or openings in the direction of the electric power source. The outer edge of the assembled pool is to be within reach of the electrical connection for the optional filter pump.

- Remove all the parts from the carton(s) and place them on the ground in the location where they are to be assembled. Check the parts listing and be sure all the pieces to be assembled are accounted for (see drawings 2.1-2.4).

**IMPORTANT: Do not start assembly if any pieces are missing. For replacement pieces call the Consumer Service telephone number in your area.** After all pieces are accounted for move the pieces away from the liner for of installation.

**NOTE: Sprinkle some talcum powder over the horizontal beams before sliding them into the pool liner sleeve. This will make removal of the beams from the liner easier during the disassembly of the pool.**

## POOL SETUP (continued)

3. Be sure the liner is opened and spread out to its fullest extent on top of the ground cloth. Starting with one side, slide the "A" beams first into the sleeve openings located in each corner. Continue with "B" beam snapping into the "A" beam, and another "C" beam snapping into the "B" beam (see drawing 3).

Keep the metal beam holes aligned with the white liner sleeve holes.

Continue inserting all "A-B-C & D-E-F" beams into the sleeve openings. Start the "D-E-F" combination for pool's short sides by inserting the "D" beam first into the opening.

The combinations for beams are different for different sizes of pools, see the chart below for detail. (Be sure all 4 sides end up with the metal beam holes aligned with the white liner sleeve holes.)

Size of Pool	No. of "U-shape" Leg on longer side	No. of "U-shape" Leg on shorter side	Horizontal Beam Combinations on longer side	Horizontal Beam Combinations on shorter side
157-1/2"x78-3/4" (400cm x 200cm)	4	2	A-B-B-C	D-F
118-1/8"x68-3/4" (300cm x 175cm)	3	1	A-B-C	D-E-F
15' x 9' (457cm x 274cm)	4	2	A-B-B-C	D-F
16' x 8' (488cm x 244cm)	4	2	A-B-B-C	D-F
18' x 9' (549cm x 274cm)	4	2	A-B-B-C	D-F
24' x 12' (732cm x 366cm)	6	3	A-B-B-B-B-C	D-E-F
32' x 16' (975cm x 488cm)	8	4	A-B-B-B-B-B-B-C	D-E-E-F

4. Slide the restrainer strap (13) onto the large U-shaped side support (11). Repeat for all restrainer straps and U-supports. **IMPORTANT: The liner is to remain flat on the ground during the next step #5. This is why 5 - 6' of clearance space around the pool is necessary (see drawing 4).**

## POOL SETUP (continued)

5. The tops of the U-shaped side supports have a double button spring loaded clip (10) that is factory pre-installed. Insert the side supports into the "A-B-C & D-E-F" beam holes by squeezing the bottom button inward with your fingers. Squeezing this bottom button will allow the support to enter the beam. Once the U-support is inside the beam release the finger pressure allowing the support to "SNAP" into place. Repeat this procedure for all U-shaped side supports (see drawing 5).

6. With one person standing inside the pool, raise one corner; insert the connecting rod (12) into the overlapping openings, to connect the liner straps to the restrainer straps. Repeat the operation in the other corners and then on the sides (see drawings 6.1 & 6.2).

7. Pull the bottoms of the side supports out away from the liner to make the straps taut. Repeat for all locations (see drawing 7).

8. If the ground is not concrete (asphalt, lawn or earth) you must place a piece of pressure-treated wood, size 15" x 15" x 1.2", under each leg and flush with the ground. The U-shaped side supports must be placed in the center of the pressure-treated wood and with the wood grain perpendicular to the support leg (see drawing 8). **NOTE:** Make sure each support pad is recessed and set flush with the ground and not just placed on the ground. Do not use support pads or slabs with slippery, smooth surfaces as the U-shaped side support will slide outward causing damage to the pool and void the warranty.

## POOL SETUP (continued)

9. Position the long wall top rails so they are leaning over the short wall top rails. Install the corner joints (8) at the 4 corners (see drawing 9).

**IMPORTANT:** The four corner joints are designed to be moveable relative to the horizontal beams and not fixed to the horizontal beams. This allows the pool side walls to move inward or outward when the pool is in use.

10. Assemble the ladder. The ladder has separate assembly instructions in the ladder box.
11. Place the assembled ladder over one of the sides with one of the liner installation team members entering the pool to smooth out all bottom liner wrinkles. While inside the pool this team member should check the 2 drain valves (in corners) to be sure the inside drain plug is inserted into the valve. This team member should push inside corner in an outward direction.
12. Before filling the pool with water, ensure that the drain plug inside the pool is closed and that the drain cap on the outside is screwed on tightly. Fill the pool with no more than 1 inch (2.5cm) of water. Check to see whether the water is level.

**IMPORTANT:** If the water in the pool flows to one side, the pool is not completely level. Setting up the pool on unlevelled ground will cause the pool to tilt resulting in the sidewall material to bulge. If the pool is not completely level, you must drain the pool, level the area and re-fill the pool.

Smooth out the remaining wrinkles (from inside the pool) by pushing out where the pool floor and pool sides meet. Or, (from outside pool) reach under the side of the pool, grasp the pool floor and pull it out. If the ground cloth is causing the wrinkles, have 2 people pull from either side to remove all wrinkles.

13. Fill the pool with water up to just below the sleeve line (see drawing 10).

**NOTE:** The pool side walls and frame structure will lean inward after having been filled with water to the recommended level. Do not be concerned by the inward leaning of the side walls, this is to accommodate the water movement and pressure when the pool is in use.

## IMPORTANT

Before allowing anyone to use the pool, hold a family meeting. Establish a set of rules that include, at a minimum, the important safety rules and general aquatic safety information in this manual. Review these rules on a regular basis and with all users of the pool, including guests.

## POOL MAINTENANCE & CHEMICALS

### ⚠ WARNING

#### REMEMBER TO

- Protect all pool occupants from possible water-related illnesses by keeping the pool water clean and sanitized. Do not swallow the pool water. Always practice good hygiene.
- Keep your pool clean and clear. The pool floor must be visible at all times from the outside barrier of the pool.
- Keep children away from pool covers to avoid entanglement, drowning, or other serious injury.

#### Water maintenance

The maintenance of a proper water balance through appropriate use of sanitizers is the single most important factor in maximizing the life and appearance of the liner as well as ensuring clean, healthy and safe water. Proper technique is important for testing and treating the pool water. See your pool professional for chemical, test kits and testing procedures. Be sure to read and follow the written instructions from the chemical manufacturer.

1. Never let chlorine come in contact with the liner if it is not completely dissolved. Dissolve granular or tablet chlorine first in a bucket of water, then add it to the pool water. Likewise with liquid chlorine; mix it immediately and thoroughly with the pool water.
2. Never mix chemicals together. Add the chemicals to the pool water separately. Thoroughly dissolve each chemical before adding another one to the water.
3. An Intex pool skimmer and an Intex pool vacuum are available to assist in maintaining clean pool water. See your pool dealer for these pool accessories.
4. Do not use a pressure washer to clean the pool.

## TROUBLESHOOTING

PROBLEM	DESCRIPTION	CAUSE	SOLUTION
<b>ALGAE</b>	<ul style="list-style-type: none"> <li>• Greenish water.</li> <li>• Green or black spots on pool liner.</li> <li>• Pool liner is slippery and/or has a bad odor.</li> </ul>	<ul style="list-style-type: none"> <li>• Chlorine and pH level need adjustment.</li> </ul>	<ul style="list-style-type: none"> <li>• Super chlorinate with shock treatment. Correct pH to your pool store's recommended level.</li> <li>• Vacuum pool bottom.</li> <li>• Maintain proper chlorine level.</li> </ul>
<b>COLORED WATER</b>	<ul style="list-style-type: none"> <li>• Water turns blue, brown, or black when first treated with chlorine.</li> </ul>	<ul style="list-style-type: none"> <li>• Copper, iron or manganese in water being oxidized by the added chlorine.</li> </ul>	<ul style="list-style-type: none"> <li>• Adjust pH to recommended level.</li> <li>• Run filter until water is clear.</li> <li>• Replace cartridge frequently.</li> </ul>
<b>FLOATING MATTER IN WATER</b>	<ul style="list-style-type: none"> <li>• Water is cloudy or milky.</li> </ul>	<ul style="list-style-type: none"> <li>• "Hard water" caused by a too high pH level.</li> <li>• Chlorine content is low.</li> <li>• Foreign matter in water.</li> </ul>	<ul style="list-style-type: none"> <li>• Correct the pH level. Check with your pool dealer for advice.</li> <li>• Check for proper chlorine level.</li> <li>• Clean or replace your filter cartridge.</li> </ul>
<b>CHRONIC LOW WATER LEVEL</b>	<ul style="list-style-type: none"> <li>• Level is lower than on previous day.</li> </ul>	<ul style="list-style-type: none"> <li>• Rip or hole in pool liner or hoses.</li> </ul>	<ul style="list-style-type: none"> <li>• Repair with patch kit.</li> <li>• Finger tighten all caps.</li> <li>• Replace the hoses.</li> </ul>
<b>SEDIMENT ON POOL BOTTOM</b>	<ul style="list-style-type: none"> <li>• Dirt or sand on pool floor.</li> </ul>	<ul style="list-style-type: none"> <li>• Heavy use, getting in and out of pool.</li> </ul>	<ul style="list-style-type: none"> <li>• Use Intex pool vacuum to clean bottom of pool.</li> </ul>
<b>SURFACE DEBRIS</b>	<ul style="list-style-type: none"> <li>• Leaves, insects etc.</li> </ul>	<ul style="list-style-type: none"> <li>• Pool too close to trees.</li> </ul>	<ul style="list-style-type: none"> <li>• Use Intex pool skimmer.</li> </ul>

## POOL MAINTENANCE & DRAINAGE

### CAUTION

ALWAYS FOLLOW THE CHEMICAL MANUFACTURER'S DIRECTIONS, AND THE HEALTH AND HAZARD WARNINGS.

**Do not add chemicals if the pool is occupied. This can cause skin or eye irritation.** Concentrated chlorine solutions can damage the pool liner. In no event is Intex Recreation Corp., Intex Development Co. Ltd., their related companies, authorized agents and service centers, retailers or employees liable to the buyer or any other party for costs associated with the loss of pool water, chemicals or water damage. **Keep spare filter cartridges on hand. Replace cartridges every two weeks.** We recommend the use of a Krystal Clear™ Intex Filter Pump with all of our above-ground-pools.

**EXCESSIVE RAIN:** To avoid damage to the pool and over filling, immediately drain rain water that causes the water level to be higher than the maximum.

#### How to Drain Your Pool and Long Term Storage

**NOTE:** This pool has drain valves installed in 2 corners. Connect the garden hose to the corner valve that directs the water to the appropriate location.

1. Check local regulations for specific directions regarding disposal of swimming pool water.
2. Check to make sure that the drain plug inside the pool is plugged in place.
3. Remove the cap from the drain valve on the outside pool wall.
4. Attach the female end of the garden hose to the drain connector (16).
5. Place the other end of the hose in an area where the water can be safely drained away from the house and other nearby structures.
6. Attach the drain connector to the drain valve. **NOTE: The drain connector will push the drain plug open inside the pool and water will start to drain immediately.**
7. When the water stops draining, start lifting the pool from the side opposite the drain, leading any remaining water to the drain and emptying the pool completely.
8. Disconnect hose and adapter when finished.
9. Re-insert drain plug in drain valve on inside of pool for storage.
10. Replace drain cap on outside of pool.
11. Reverse the set-up instructions to disassemble the pool, and remove all connecting parts.
12. Be sure that the pool and all parts are completely dry before storage. Air dry the liner in the sun until completely dry before folding (see drawing 11). Sprinkle some talcum powder to prevent vinyl from sticking together and to absorb any residual moisture.
13. Create rectangular shape. Starting at one side, fold one-sixth of liner in on itself twice. Do the same on the opposite side (see drawings 12.1 & 12.2).
14. Once you have created two opposing folded sides, simply fold one over the other like closing a book (see drawings 13.1 & 13.2).
15. Fold the two long ends to the middle (see drawing 14).
16. Fold one over the other like closing a book and finally compact the liner (see drawing 15).
17. Store the liner and accessories in a dry, temperature controlled, between 32 degrees Fahrenheit (0 degrees Celsius) and 104 degrees Fahrenheit (40 degrees Celsius), storage location.
18. The original packing can be used for storage.

## WINTER PREPARATIONS

### Winterizing your Above Ground Pool

After usage, you can easily empty and store away your pool in a safe place. You must drain, disassemble and properly store the pool when the temperature drops below 41 degrees Fahrenheit (5 degrees Celsius) to prevent ice damage to the pool and related components. Ice damage can result in sudden liner failure or pool collapse. Also see the section "How To Drain Your Pool".

**Should temperatures in your area not drop below 41 degrees Fahrenheit (5 degrees Celsius), and you choose to leave your pool out, prepare it as follows:**

1. Clean the pool water thoroughly. If the type is an Easy Set Pool or an Oval Frame Pool, make sure that the top ring is properly inflated.
2. Remove the skimmer (if applicable) or any accessories attached to the threaded strainer connector. Replace strainer grid if necessary. Be sure all accessories parts are clean and completely dry before storage.
3. Plug the Inlet and Outlet fitting from the inside of the pool with the plug provided (sizes 16' and below). Close the Inlet and Outlet Plunger Valve (sizes 17' and above).
4. Remove the ladder (if applicable) and store in a safe place. Be sure the ladder is completely dry before storage.
5. Remove the hoses that connect the pump and filter to the pool.
6. Add the appropriate chemicals for the winter period. Consult your local pool dealer as to which chemicals you should use and how to use them. This can vary greatly by region.
7. Cover pool with Intex Pool Cover. **IMPORTANT NOTE: INTEX POOL COVER IS NOT A SAFETY COVER.**
8. Clean and drain the pump, filter housing and hoses. Remove and discard the old filter cartridge. Keep a spare cartridge for the next season.
9. Bring pump and filter parts indoors and store in a safe and dry area, preferably between 32 degrees Fahrenheit (0 degrees Celsius) and 104 degrees Fahrenheit (40 degrees Celsius).

## GENERAL AQUATIC SAFETY

**Water recreation is both fun and therapeutic. However, it involves inherent risks of injury and death. To reduce your risk of injury, read and follow all product, package and package insert warnings and instructions. Remember, however, that product warnings, instructions and safety guidelines cover some common risks of water recreation, but do not cover all risks and or dangers.**

**For additional safeguards, also familiarize yourself with the following general guidelines as well as guidelines provided by nationally recognized Safety Organizations:**

- Demand constant supervision. A competent adult should be appointed as a "lifeguard" or water watcher, especially when children are in and around the pool.
- Learn to swim.
- Take the time to learn CPR and first aid.
- Instruct anyone who is supervising pool users about potential pool hazards and about the use of protective devices such as locked doors, barriers, etc.
- Instruct all pool users, including children what to do in case of an emergency.
- Always use common sense and good judgement when enjoying any water activity.
- Supervise, supervise, supervise.

## LIMITED WARRANTY

Your Intex Pool has been manufactured using the highest quality materials and workmanship. All Intex products have been inspected and found free of defects prior to leaving the factory. This Limited Warranty applies to the Intex Pool only.

This limited warranty is in addition to, and not a substitute for, your legal rights and remedies. To the extent that this warranty is inconsistent with any of your legal rights, they take priority. For example, consumer laws across the European Union provide statutory warranty rights in addition to the coverage you receive from this limited warranty: for information on EU-wide consumer laws, please visit the European Consumer Center website at [http://ec.europa.eu/consumers/ecc/contact\\_en/htm](http://ec.europa.eu/consumers/ecc/contact_en/htm).

The provisions of this Limited Warranty apply only to the original purchaser and are not transferable. This Limited Warranty is valid for the period noted below from the date of the initial retail purchase. Keep your original sales receipt with this document, as proof of purchase will be required and must accompany warranty claims or the Limited Warranty will be invalid.

Ultra XTR™ Pool Liner and Frame Warranty – 2 Years

Prism Frame™ Pool Liner and Frame Warranty – 1 Year

If you find a manufacturing defect in the Intex Pool during the warranty period, please contact the appropriate Intex Service Center listed in the separate "Authorized Service Centers" sheet. If the item is returned as directed by the Intex Service Center, the Service Center will inspect the item and determine the validity of the claim. If the item is covered by the provisions of the warranty, the item will be repaired or replaced, with the same or comparable item (at Intex's choice) at no charge to you.

Other than this warranty, and other legal rights in your country, no further warranties are implied. To the extent possibly in your country, in no event shall Intex be liable to you or any third party for direct or consequential damages arising out of the use of your Intex Pool, or Intex or its agents' and employees' actions (including the manufacture of the product). If your country does not allow the exclusion or limitation of incidental or consequential damages, this limitation or exclusion does not apply to you.

You should note that this limited warranty does not apply in the following circumstances:

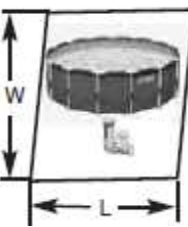

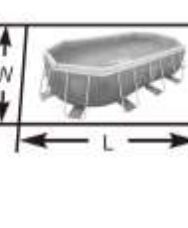

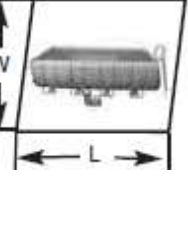

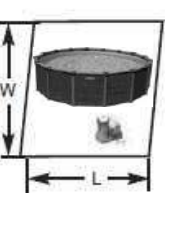

- If the Intex Pool is subject to negligence, abnormal use or application, accident, improper operation, improper maintenance or storage.
- If the Intex Pool is subject to damage by circumstances beyond Intex's control, including but not limited to, punctures, tears, abrasions, ordinary wear and tear and damage caused by exposure to fire, flood, freezing, rain, or other external environmental forces;
- To parts and components not sold by Intex; and/or
- To unauthorized alterations, repairs or disassembly to the Intex Pool by anyone other than Intex Service Center personnel.

The costs associated with the loss of pool water, chemicals or water damages are not covered by this warranty. Injury or damage to any property or person is not covered by this warranty.

Read the owner's manual carefully and follow all instructions regarding proper operation and maintenance of your Intex Pool. Always inspect your product prior to use. This limited warranty will be void if use instructions are not followed.

1701

**NOTE:** When the pump is off there might be some tear drop water coming out of the air jet valve. This is normal!

**NOTE:** Lorsque la pompe est arrêtée, des gouttes d'eau peuvent apparaître au niveau de la valve d'entrée d'air. Ceci est normal.

**NOTA:** Cuando la bomba esté apagada puede que salga alguna gota de agua por la válvula de salida de aire. Esto es normal.

**HINWEIS:** Wenn die Pumpe ausgeschaltet ist, könnten einige kleine Wassertropfen aus dem Luftventil kommen. Das ist normal!

**NOTA:** Quando la pompa è spenta potrebbe uscire un po' di acqua dalla valvola, è normale!

**NB:** Wanneer de pomp uitgeschakeld is, kan er een druppel water uit het ventiel komen. Dit is normaal.

**NOTE:** Quando a bomba estiver desligada, pode haver um pouco de água saindo da válvula de ar. Isto é normal!

**BEMERK:** Når pumpen er slukket kan der komme vanddråber ud af luftventilen. Dette er normalt!

**UWAGA:** Kiedy pompa jest wyłączona z zaworu może się sączyć woda. To jest normalne.

**ПРИМЕЧАНИЕ:** В выключенном состоянии возможно появление капель воды в районе воздушного клапана. Это норма!

备注：关闭过滤器后，单向阀可能会有水滴落，属正常现象！

(1701) Aeration adaptor air valve EN, FR, SP, GE, IT, DU, PT, DA, PL, RU, CH SIZE: 3.5" X 2.5" 06/02/2021

Accessories such Solar Mat, Hydroelectric LED Light and/or Auto Pool Cleaner must be removed from the filtration system circulation line. If they are attached, aeration performance will be reduced and some tear drop water will come out of the air jet valve. This is normal, place the included air jet valve cap (12373) on top of the air jet valve. / Les accessoires, tels que le tapis solaire, le luminaire LED hydroélectrique et/ou le nettoyeur automatique de piscine doivent être retirés du circuit du système de filtration. S'ils restent installés, les performances d'aération seront réduites et la vanne à air gouttera. C'est normal, placez le bouchon de vanne à air fourni (12373) sur la vanne à air. / Los accesorios tales como la alfombra solar, la luz LED hidroeléctrica y/o el limpiador automático de la piscina deben retirarse de la línea de circulación del sistema de filtración. Si estuvieran conectados, el desempeño de la ventilación disminuirá y saldrán algunas gotas de agua de la válvula del chorro de aire. Esto es normal. Coloque el tapón suministrado de la válvula del chorro de aire (12373) en la parte superior de la válvula del chorro de aire. / Zubehör wie Solamatte, hydroelektrische LED-Leuchte und/oder automatischer Poolreinger müssen aus der Zirkulationsleitung des Filtersystems entfernt werden. Wenn diese Elemente befestigt sind, wird die Lüftungsleistung verringert und aus dem Luftdüsenventil wird etwas Wasser tropfen. Dies ist normal. Setzen Sie den mitgelieferten Luftdüsenventilverschluss (12373) auf das Luftdüsenventil. / Gli accessori come il Tappetino solare, la Luce LED idroelettrica e/o il Pulitore automatico della piscina devono essere rimossi dalla condotta di circolazione del sistema di filtraggio. Nel caso siano inseriti, le prestazioni di aerazione risulterebbero ridotte e la valvola a getto d'aria emetterebbe alcune gocce d'acqua di scarico. Ciò è normale, inserire il cappuccio della valvola a getto d'aria (12373) sulla valvola. / Accessoires, zoals een solamat, hydro-elektrische LED-lamp en/of automatische zwembadreinger moeten van de circulatieleiding van het filtratiesysteem verwijderd worden. Als deze aan de leiding bevestigd blijven, zullen de beluchtingsprestaties lager zijn en zullen er waterdruppels uit het luchtstroomventiel stromen. Dit is normaal, breng de meegeleverde luchtstroomventieldop (12373) op het luchtstroomventiel aan. / Acessórios como o Tapete Solar, a Luz LED Hidroelétrica e/ou o Dispositivo de Limpeza Automática de Piscina têm de ser retirados da linha de circulação do sistema de filtragem. Se estiverem fixados, o desempenho de arejamento diminuirá e alguma água sairá da válvula do jato de ar. Isto é normal. Coloque a tampa da válvula do jato de ar incluída (12373) no topo da válvula do jato de ar. / Tilbehør, såsom solcellemat, hydroelektriske LED-lys og/eller automatiske pool-rensere skal fjernes fra omløbslinjens filtreringssystem. Hvis disse bruges, reduceres luftstrømmen og luftdyseventilen kan begynde at dryppe med vand. Dette er normalt. Sæt den medfølgende hætte (12373) på luftdyseventilen. / Akcesoria takie jak mata słoneczna, hydroelektryczna lampa LED i/lub automatyczny odkurzacz basenowy muszą zostać usunięte z linii cyrkulacji systemu filtrowania. Jeśli będą one podłączone, wówczas wydajność napowietrzania zmniejszy się, a z zaworu strumienia powietrza będzie się sączył woda. Jest to normalne, na zawór należy nałożyć załączoną nasadkę na (12373). / Все принадлежности, такие как солнечный нагревательный ковер, гидроэлектрическая светодиодная подсветка и (или) автоматический очиститель бассейна, должны быть отсоединены от циркуляционной линии системы фильтрации. В противном случае эффективность аэрации будет снижена, а из воздушного клапана могут сочиться капли воды. Это нормально, накройте воздушный клапан прилагаемым колпачком (12373). / 请不要将加热垫、水力发电LED彩灯和清洁小伞安装在文丘里产品使用，因为文丘里的功能将会被减弱并且单向阀会滴水。此为正常现象，请盖上文丘里的防滴水盖（配件号码12373）使用。

**vagy szkennelje a fenti QR kódot**

A QR kód leolvasható letölthető az App Store-ból.  
Közvetlen QR kód link a medence falán található a modell szám mellett vagy a szivattyú típusábláján.

## REPAIR KIT

Due to shipping restrictions, glue is not provided. Use PVC or silicone based glue, which is readily available at most retail stores. Read and follow the warnings and instructions on the glue package before proceeding with the steps following.

### REPAIR INSTRUCTIONS:

- Clean area thoroughly where repair is to be made. NOTE: To allow better adhesion on flocced airbed surfaces, apply some glue to the repair area and rub away the flocced texture until a smooth surface is exposed.
- Cut patch material to size.
- Use only enough liquid cement to wet the back to repair area.
- Press tightly to repair area.
- If article is an inflatable, do not inflate for 12 hours.

### REPARATUR-SET

Aufgrund von Transportbeschränkungen ist kein Kleber enthalten. Verwenden Sie Kleber auf PVC- oder Silikonbasis, welcher in den meisten Geschäften leicht erhältlich ist. Lesen und befolgen Sie die Warnhinweise und Anweisungen auf der Verpackung des Klebers, bevor Sie mit den folgenden Schritten fortfahren.

### REPARATUR-ANLEITUNG:

- Reinigen Sie die beschädigte Stelle gründlich vor der Reparatur. ANMERKUNG: Um eine bessere Haftung auf beflockten Luftbett-Oberflächen zu ermöglichen, geben Sie etwas Klebstoff auf die zu reparierende Stelle und reiben Sie die beflockte Textur solange weg, bis eine glatte Oberfläche erscheint.
- Schneiden Sie den Flecken auf die entsprechende Größe zu.
- Verwenden Sie nur soviel flüssigen Kleber, daß der Flecken gut angefeuchtet ist.
- Drücken Sie den Flecken fest auf die beschädigt Stelle auf.
- Aufblasbare Artikel erst nach 12 Stunden wieder aufblasen.

## KIT DE RÉPARATION

En raison des restrictions de transport, la colle n'est pas fournie. Utilisez de la colle à base de PVC ou de silicone, disponible dans de nombreux magasins. Lisez et suivez les avertissements et les instructions sur l'emballage de la colle avant de procéder aux étapes suivantes.

### MODE D'EMPLOI :

- Nettoyer soigneusement la surface à réparer. REMARQUE: Pour permettre une meilleure adhérence sur les surfaces floquées des airbeds, appliquez de la colle sur la zone réparée puis frottez la surface floquée jusqu'à ce que la surface soit lisse.
- Couper la pièce de réparation aux dimensions,
- Poser un léger fil de colle au dos de la pièce,
- Presser fermement et uniformément sur la surface à réparer,
- Ne pas gonfler pendant 12 heures.

### KIT DI RIPARAZIONE

A causa delle restrizioni nelle spedizioni, la colla non viene fornita. Usare una colla a base PVC o silicone, che trovate disponibile nella maggior parte dei negozi al dettaglio. Leggere e seguire le avvertenze e le istruzioni sulla confezione della colla prima di procedere con i punti successivi.

### ISTRUZIONI PER KIT DI RIPARAZIONE:

- Pulire accuratamente la zona in cui si deve effettuare la riparazione. NOTE: Per permettere una migliore adesione alle superfici dei lettini da aria, applicare uno strato di colla sulla superficie da riparare e strofinare fino a che la superficie non diventi liscia.
- Tagliare il materiale per la pezza nelle dimensioni necessarie.
- Usare la quantità di adesivo liquido sufficiente solo ad inumidire il retro della pezza.
- Premere fortemente sulla zona da riparare.
- Se l'articolo riparato è di tipo gonfiabile, non gonfiare per almeno 12 ore.

## PARCHE DE REPARACIÓN

Debido a restricciones en el transporte, no se incluye cola de pegado. Utilice una cola de pegado con base de PVC o silicona y que se encuentra disponible en la mayoría de hipermercados. Antes de proceder con los siguientes pasos, lea y siga las instrucciones que aparecen en el manual de la cola de pegado.

### INSTRUCCIONES PARA REPARACIÓN:

- Limpie cuidadosamente el área a reparar. ADVERTENCIA: Para lograr una mejor adherencia en las superficies rugosas coloque un poco de pegamento en la zona a ser reparada y frótelo hasta que se suavice la textura de la superficie.
- Corte parche según sea necesario.
- Sólo use líquido necesario para humedecer la parte posterior del parche.
- Presione fuertemente en el área a reparar.
- Si el artículo es inflable, no lo infle por 12 horas.

### REPARATIE SET

Vanwege restricties in verband met vervoer is lijm niet inbegrepen. Wij raden u aan lijm specifiek voor PVC of lijm op basis van siliconen te gebruiken.

### AANWIJZINGEN:

- Maak de te repareren plaats goed schoon en droog. OPMERKING: Om betere adhesie op gevlokte luchtbedoppervlakken toe te staan, breng wat lijm aan op het reparatiegebied en veeg de gevlokte textuur weg totdat een glad oppervlak vrijkomt.
- Knip een plakstuk op maat.
- Gebruik net genoeg lijm om de achterkant van het plakstuk nat te maken (randen!).
- Op het lek plakken en goed aandrukken.
- Na reparatie minimaal 12 uur NIET opblazen.

201-\*\*\*-R0-2205

(201) REPAIR KIT ENGLISH, FRENCH, SPANISH, GERMAN, ITALIAN, DUTCH SIZE: 7.5" x 4.25" 05/14/2021

## KIT REPARO (LÂMINA DE PVC E COLA VINIL)

Devido a restrições de embarque, a cola não é fornecida. Use cola à base de PVC ou silicone, a qual é facilmente encontrada em lojas de varejo. Leia e siga os avisos e instruções na embalagem da cola antes de prosseguir com os passos seguintes.

### INSTRUXES PARA O KIT DE REPARO:

- Limpe cuidadosamente a área adjacente ao furo e seque-a. NOTE: Para permitir melhor aderência na superfície flocada do colchão, aplique um pouco de cola para reparar a área e esfregue a textura flocada até que superfície lisa fique exposta.
- Corte o remendo ao tamanho necessário
- Utilize a cola suficiente para humedecer a parte de trás do remendo
- Pressione firmemente sobre a área a reparar.
- Aguarde 12 Horas, antes de voltar a encher o inflável

### РЕМОНТНЫЙ КОМПЛЕКТ

Ремонтный комплект включает в себя виниловый цемент, который при неосторожном использовании может являться причиной дефектов при деторождаемости и влиять на детскую репродуктивность.

### РЕМОНТНЫЙ НАБОР

- Тщательно очистить и просушить ремонтируемую поверхность. ПРИМЕЧАНИЕ: Для достижения большего склеивания сморщенных поверхностей надувного матраса при ремонте используйте небольшое количество клея и протирайте сморщенную текстуру до тех пор, пока она не стане гладкой.
- Вырезать заплатку нужного размера
- Промазать внутреннюю сторону заплатки достаточным количеством клея
- Плотно прижмите заплатку к месту повреждения
- Не надувать надувные изделия в течение 12ч.

## REPARATIONSSÆT

På grund af forsendelsesrestriktioner medfølger ikke lim. Brug PVC- eller silikonebaseret lim, som kan fås i de fleste udsalg. Læs og følg advarselserne og instruktionerne på pakningen, inden du fortsætter.

### REPARATIONSSÆT INSTRUKTION:

- Rengør og aftør omhyggeligt området. OBS: For at tillade bedre adhærens på fløjs luftmadrasse overflader, påsætте lidt lim til reparationsområdet og gnubbe fløjsstrukturen væk indtil en glat overflade ses.
- Klip lappen til i korrekt størrelse.
- Fugt bagsiden af lappen med lim helt ud til kanten.
- Tryk lappen omhyggeligt fast på hullet.
- Et oppustelige produkt må ikke fyldes med luft før 12 timer efter reparation.

### 修理用キット

接着剤は輸送規制のために提供できませんが、本品の修理にはPVCビニールまたはシリコンの接着剤を使用しますが、それは多くの小売店ですぐに手に入ります。接着剤のパッケージの注意事項と使用説明を必ずよく読んでから指示に従ってご使用ください。

### 補修手順:

- 補修箇所の汚れを落とし、きれいにしてください。注: 表面がフロック式のエアベッド製品等は、補修箇所に油性接着剤を塗布しますと、フロック部分が簡単に取れ除くことができ、PVCの底面が平らな状態になります。
- 補修箇所のサイズに合うように補修パッチを切断してください。
- 補修パッチの裏面全体に接着剤をつけてください。
- 補修箇所にしっかりと貼ってください。
- 補修後、12時間は空気を入れないでください。

## ZESTAW NAPRAWCZY

Ze względu na ograniczenia transportowe, klej nie jest zawarty w zestawie. Użyj kleju do PCV lub silikonowego, dostępnych w ogólnej sprzedaży. Zapoznaj się z instrukcją stosowania kleju, zanim przejdziesz do kolejnych kroków.

### Instrukcja obsługi:

- Dokładnie oczyść miejsce naprawy. UWAGA: W celu zapewnienia lepszej przyczepności do powierzchni materaca, nałóż klej na obszar wymagający naprawy i pocieraj do uzyskania gładkiej powierzchni.
- Wytnij odpowiedni kawałek łatki.
- Nanieś klej na spód łatki.
- Przycisnij dokładnie do naprawianego miejsca.
- Jeśli urządzenie wymaga napompowania, nie pompuj go przez co najmniej 12 godzin.

### 修理包

受运输条件限制, 此产品不附带胶水。您可以很方便的从很多零售店里购买到适合修补的聚氯乙烯或硅树脂胶水。在进行以下步骤前, 请先认真阅读并遵循附在胶水背卡彩纸上的警告及修补说明。

### 修补步骤:

- 洗净并烘干修补处。注意, 若使用于植毛空气床, 为使其达到更好的粘附效果请先在需要修补的表面上涂抹一层胶水, 然后再将植毛去除, 直到出现亮滑的表面。
- 剪下修补片。
- 先在修补片背部上胶。
- 再与修补处贴合。
- 粘合后, 12小时内请勿充气。
