Specifications

| | |
|--------------|--|
| Power Supply | AC 120V, 60Hz |
| Rated Power | 1500W |
| Capacity | 7 US cups / 1.7 L |
| Dimensions | 9 x 6.3 x 10 in / 23 x 16 x 25.6 cm |
| Weight | 2.5 lb / 1.1 kg |

READ AND SAVE THESE INSTRUCTIONS

IMPORTANT SAFEGUARDS

Always follow basic safety precautions when using your kettle.

Read all instructions.

CAUTION!

- **Do not** touch hot surfaces. Use handle. **Do not** touch the base or glass parts of the kettle during or immediately after operation.
 - **Do not** fill the kettle above the “**MAX**” line. This may cause water to boil over and may cause scalding.
 - **Always** handle with care when there is hot water inside the kettle to avoid scalding.
- **Do not** immerse the kettle, base, cord, or plug in water or other liquids.
 - Closely supervise children near the kettle. **Do not** allow children to use or play with the kettle.
 - Unplug the kettle when it is not being used and before cleaning. This will avoid electric shock and prevent moisture from causing a short circuit in the power base while it is plugged in.
 - Allow to cool before putting on or taking off parts, and before cleaning.
 - **Do not** use the kettle if it is malfunctioning, broken or chipped, or if the power cord or plug is damaged in any way. **Do not** try to repair the kettle. Contact **Customer Support** (see page 11).
 - Using accessory attachments not recommended by the manufacturer may result in fire, electric shock, or injury.
 - **Do not** use outdoors.
 - Place the kettle on a dry, flat surface. **Do not** place the kettle on or near heat sources such as stovetops, ovens, radiators, etc.
 - **Always** make sure the lid is closed while the kettle is operating. **Do not** cover the spout opening while the kettle is operating. **Do not** cover the slits near the **On/Off Switch**.
 - To disconnect, use the **On/Off Switch** to turn the kettle off, then remove the plug from the wall outlet.
 - **Only** use the kettle as directed in this manual.
 - Household use **only**.

Plug & Cord

- **Do not** let the cord hang over the edge of a table or counter. **Do not** allow the cord to touch hot surfaces.
- Your kettle has a polarized plug (one prong is wider than the other), which fits into a polarized outlet only one way. This is a safety feature to reduce the risk of electric shock. If the plug does not fit, reverse the plug. If it still does not fit, **do not** use the plug in that outlet. **Do not** bypass this safety feature.
- A short power-supply cord is provided with your kettle to reduce the risk of becoming entangled in or tripping over a longer cord.
- Extension cords may be used if care is exercised in their use.
- If an extension cord is used:
 - a. The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.
 - b. The cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over.

GETTING TO KNOW YOUR GLASS KETTLE

- A. Filter
- B. Spout
- C. Lid
- D. Kettle
- E. Heating Plate
- F. Indicator Light
- G. Power Base
- H. Lid Release Button
- I. Handle
- J. On/Off Switch

Note: The filter is made with food-grade 304 stainless steel.

BEFORE FIRST USE

Water Test

⚠ CAUTION!

Do not remove the glass kettle from the package if it is broken. Contact **Customer Support** immediately to replace your kettle (see page 11).

Perform the Water Test before using your kettle to make sure it's working properly.

Do not drink the water that is boiled during this test.

1. Remove all packaging from your kettle and its accessories, including any temporary stickers.
2. Completely unravel the power cable and place the power base on a flat, level surface.
3. Press the **Lid Release Button** to open the lid. *[Figure 1.1]*
4. Fill the kettle with water to the "**MAX**" line, then close the lid. *[Figure 1.2]*
Place the kettle onto the power base and plug in.
5. Press the **On/Off Switch**. The blue indicator light will turn on. *[Figure 1.3]*
6. The kettle will automatically turn off once it has finished boiling the water. Allow it to cool for at least 5 minutes, then pour out the water.

Figure 1.3

USING YOUR GLASS KETTLE

Boiling Water

This kettle should only be used for boiling water. **Do not** boil other liquids in this kettle.

1. Press the **Lid Release Button** to open the lid.
2. Fill the kettle to the desired level. **Do not** fill above the "**MAX**" line. [Figure 2.1]
3. Close the lid and place the kettle on the power base and plug in. [Figure 2.2]
4. Press the **On/Off Switch**. The blue indicator light will turn on. [Figure 2.3]
5. The kettle will automatically turn off once it has finished boiling the water.

Note:

- **Always** fill the kettle with water to at least the "**MIN**" line to prevent overheating.
- You can stop the heating process by flipping the **On/Off Switch** back up while the kettle is operating.
- This kettle has a dry-run safety feature. If there is no water inside the kettle, it will automatically turn off to prevent the heating plate from overheating.
- If the kettle overheats, fill it with cold water and wait for 2 minutes before using again.

Figure 2.3

CARE & MAINTENANCE

Note: *Do not* remove the filter from the lid. Doing so will break the filter.

Cleaning

1. Unplug the kettle and allow it to cool before cleaning.
2. Wipe the kettle and base with a soft, damp cloth. Make sure that the electric socket on the underside of the kettle is kept dry.
3. Dry all parts after every use.

Note: *Never* immerse kettle or power base in water.

Descaling the Kettle

You should descale the kettle at least once a week if you use it frequently. Descaling removes any mineral deposits that have built up inside the kettle. **Always** descale the kettle before and after storing for long periods of time.

1. Unplug the kettle and pour out all water. Make sure the kettle is cool.
2. Squeeze half a lemon into the kettle, or add ½ US cup / 118 mL of distilled vinegar into the kettle.
3. If the kettle has thick scale buildup, scrub the kettle's inner walls with a non-scratch scrub sponge.

Note: *Do not* use steel wool, as this can scratch the kettle.

4. Add 2 US cups / 473 mL of water. Boil the mixture.
5. Pour out the mixture, then wipe off any remaining scale with a non-abrasive cloth, sponge, or cleaning brush.
6. Repeat as needed.

Note: *For quick descaling, add 3 US tbsp / 44 mL of baking soda to ½ US cup / 118 mL of vinegar into the kettle. Swirl the mixture around until it coats the walls of the kettle, wipe with a non-scratch sponge, and pour the mixture out. This method will **only** work for a thin layer of scale.*

Terms & Policy

Arovast Corporation ("Arovast") warrants this product to the original purchaser to be free from defects in material and workmanship, under normal use and conditions, for a period of **2 years** from the date of original purchase.

Arovast agrees, at our option during the warranty period, to repair any defect in material or workmanship or furnish an equal product in exchange without charge, subject to verification of the defect or malfunction and proof of the date of purchase.

There is no other express warranty. This warranty does not apply:

- If the product has been modified from its original condition;
- If the product has not been used in accordance with directions and instructions in the user manual;
- To damages or defects caused by accident, abuse, misuse or improper or inadequate maintenance;
- To damages or defects caused by service or repair of the product performed by an unauthorized service provider or by anyone other than Arovast;
- To damages or defects occurring during commercial use, rental use, or any use for which the product is not intended;
- To damages or defects exceeding the cost of the product.

Arovast will not be liable for indirect, incidental, or consequential damages in connection with the use of the product covered by this warranty.

This warranty extends only to the original consumer purchaser of the product and is not transferable to any subsequent owner of the product regardless of whether the product is transferred during the specified term of the warranty.

This warranty does not extend to products purchased from unauthorized sellers. Arovast's warranty extends only to products purchased from authorized sellers that are subject to Arovast's quality controls and have agreed to follow its quality controls.

All implied warranties are limited to the period of this limited warranty.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

If you discover that your product is defective within the specified warranty period, please contact Customer Support via **support@cosori.com**. **DO NOT** dispose of your product before contacting us. Once our Customer Support Team has approved your request, please return the product with a copy of the invoice and order ID.

Every Cosori product automatically includes a 2-year warranty. To make the customer support process quick and easy, register your product online at www.cosori.com/warranty.
