### Component Breakdown

### Product Specifications

Product Name	Smart Pet Feeder
Suit For	Cat,Dog,Rabbit,Squirrel,Small Pets
Rated Voltage	5V 1A
Product Power	5W
Power Supply	DC 5V Adapter & 4*AA Alkaline Battery
Material	Echo-Friendly ABS
Product Size	208*148*277mm 8.2*5.8*10.9in
Product Weight	1kg 2.2lb
Product Capacity	3.5L
Pet Food	Dry Food
Portion Size	~20g/Portion (differed due to the different pet food density)

### Packing List

### Product Hardware Assembly Steps

1.Installation of grain bin.

2.There are two ways to connect the power supply, you can choose to use the power adapter to connect the power supply, or you can choose to use 4 AA batteries as the power supply. (It is recommended to have two power supplies at the same time. When there is a power failure at home, AA batteries can be used as a backup power supply to prevent the feeder from stopping working).

Scan for more details  
[www.papifeedpet.com](http://www.papifeedpet.com)

3. Pour the grain.

3. Install the Safety Lock.

## Product Disassembly & Cleaning

Note: In addition to the host part of the feeder's other assembled parts can be disassembled and cleaned.

## Q&A Trouble Shooting

**Q: Why with the programmed meal, no food dispensing from the feeder?**

- A: Please check following:
1. There are some pet food in the food hooper.
  2. If there is any error indicating on the screen.
  3. Make sure you have pour into some non sticky dry food into the feeder instead of wet and canned one.

**Q: If the power cord is bitten off by a pet, will it electrocute the pet?**

A: We use a 5V safety voltage, No electrocution to pets!

**Q: Why the food hooper can not be washed?**

A: Non-detachable mainly because of the simple internal structure of the product, there is no blind Angle. Press one key to release the food from the hooper and wipe out the dispensing outlet and the inner wall to keep the food fresh.
