

# **SUNVIE**

## **Low Voltage Landscape Light**

### **PATHWAY LIGHT**

## **USER MANUAL**

## SPECIFICATIONS

Wattage: 3 Watts

Voltage: 12-24 Volts AC/DC

Construction: Aluminum

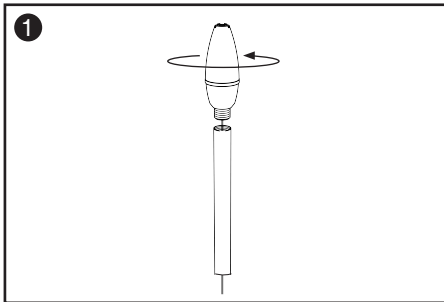

Finish Color: Black

Waterproof Rating: IP65

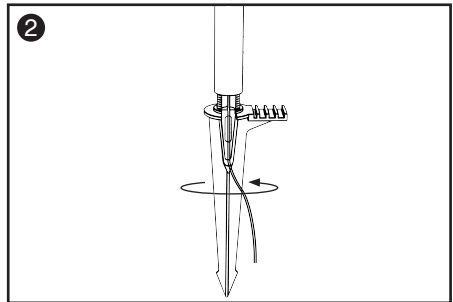

Working Temperature: -4 °F ~104 °F

## INSTALLATION INSTRUCTIONS

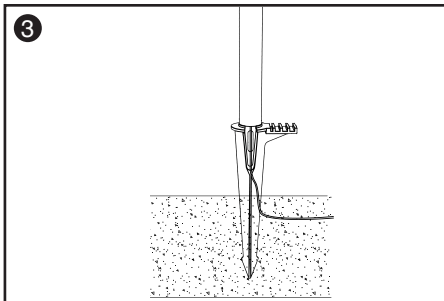

1. Thread the wire through the pole, then screw the light clockwise onto the pole.

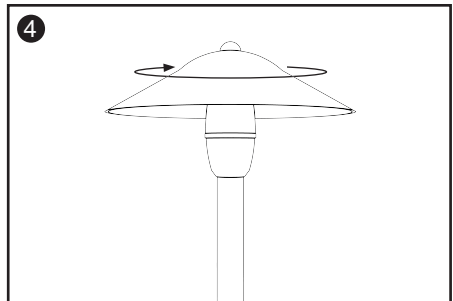

2. Place the wire at the notch of the stake, and screw the stake clockwise onto the pole.

3. Step on the pedal on the stake gently and insert it into the ground. (If the ground is too hard, loosen the soil first.)

4. Place the shade and screw it clockwise onto the fixture top.

## TROUBLE SHOOTING

Problem	Probable Cause
All of the lights fail to work	<ul style="list-style-type: none"><li>• Check that the transformer power is on.</li><li>• Check if there is a loose connection at the transformer screw terminal with the cable.</li><li>• Check that the power switch is not in an OFF setting.</li></ul>
Few lights not work properly	<ul style="list-style-type: none"><li>• Check the connector to make sure the pin has pierced the landscape cable.</li><li>• Test by connecting the faulty lights directly to transformer taps or a 12V battery.</li></ul>
