Introduction to Parts

Operations

Note: Please ensure you fully charge the Bug Zapper Light before using it for the first time.

To charge the Bug Zapper Light, attach one end of the Micro USB cable to the Bug Zapper Light and the other end to a power outlet. The charging indicator located at the top of the UV LED inside, will turn red when charging and turns green after being fully charged.

1. Press the lantern switch button to make the lantern glow. Use the same button to control its brightness as follows:

Press once

Press twice

Press three
times

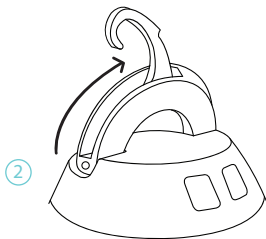

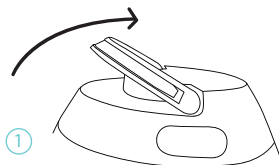

Press four
times

2. Press the mosquito killer switch button to turn on/off the mosquito/bug killing mode. When this mode is on, any incoming bugs/mosquitoes will be killed at the Mosquito Killer Grids.

Note: The Ultraviolet LED will light up blue when this mode is activated.

Using the Hanger

FAQ

1. The Bug Zapper Light will not turn on

Your battery may be running low, please recharge adequately and turn it on again.

2. Is the Bug Zapper Light safe for kids and pets?

Yes, absolutely. The Bug Zapper light is only meant for eliminating bugs, flies, and mosquitoes.
