### Operational Instructions

#### To charge your device

1. Place your device to the wireless charger and align it at the center of the wireless output.

2. Alternatively, connect the charging cable to the USB output or Type-C port.

Page 5

### Operational Instructions

#### To check battery status

1. Press the power button once to check the solar power status.

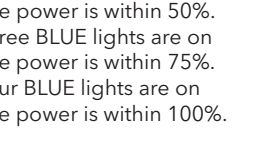

Page 6

### Operational Instructions

#### To charge the power bank

1. Place the solar panel in direct sunlight.

Page 7

### Operational Instructions

#### To charge the power bank

2. Check the remaining power of the power bank from the power indicators.

Page 8

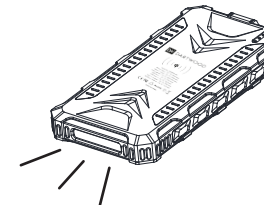

### Operational Instructions

#### To turn on/off the flashlight

1. Double click the power button to turn on the flashlight.

**Caution:** The Flashlight contains bright LEDs, never point it to the eyes.

2. Click once to switch the light pattern.

3. Double click to turn off the flashlight.

### Troubleshooting

1. If the power bank does not charge your device;
  - Make sure that the device being charged is compatible.
  - Make sure that the power bank is switched on.

Page 9

- Make sure that it has enough battery left to charge your phone.
2. Please refer to the operational instruction for any other troubleshooting.

### Product Specifications

|                         |                    |
|-------------------------|--------------------|
| Capacity                | : 16,000 mAh       |
| Solar charger power     | : 1.8 W            |
| Charging input          | : DC 5V 2A Max.    |
| Charging output         | : DC 5V 3A Max.    |
| Wireless charger output | : 5W Max.          |
| Flashlight              | : 4 x 0.5 W        |
| Product size            | : 7 x 3.4 x 8.3 in |
| Product net weight      | : 0.8 lb           |
| Working temperature     | : 32°F - 113°F     |
