

Wax Warmer

User Manual

DW DARTWOOD

In the Box

1 x wax warmer

4 x bags of wax beads
(100g/bag)

10 x application
sticks

Warning

- Wax warmer unit gets very hot. Children should never be left unattended when this device is on or plugged in.
- Keep away from other heating sources while in use, such as portable heaters, radiators, stoves, open flames, etc.
- Keep away from dust, dirt, smoke, chemical/corrosive materials, and water.
- Make sure to clean and store safely after use.

Setup

1. Take off the lid from the wax warmer.

2. Take out the heating pot.

3. Open a bag of wax and pour your preferred amount into the heating pot. Put the heating pot back into the wax warmer.

4. Cover with the lid.

5. Plug the wax warmer directly into an outlet.

6. Turn the dial at the front to your preferred heating level.

7. Wait for the wax to melt down to a gooey consistency. Remove the lid and check with one of the application sticks.

Applying the Wax

1. Once the wax has melted down, dip the application stick into the wax and get a glob on the end of the stick.

2. Apply to your preferred area of your body.

3. Once the wax has dried on your body, peel it off in one quick motion.

Specifications
