FAQ

- Q1: How to keep the keyboard backlit all the time?
 A1: You can press "FN+2" keys to make it just freeze on one color at a time.
- Q2: What should I do if my keyboard doesn't work?
 A2: Please check whether the USB socket is loose or not connected.
- Q3: What should I do if the keyboard light does not come on?
 A3:
 • Please check whether the light switch is turned on, please press the "Fn+PrtSc SysRq" keys to turn on the backlight switch.
 • If the backlight is on, maybe the light is too dim, please press "Fn+↑" keys to adjust the brightness of the light.
- Q4: What should I do if the number keys on the right don't work?
 A4: Please try pressing the NL key (alphabetic lock key).
- If you encounter the above problems and cannot solve them, please contact our customer service and we will give you a satisfactory solution. We can provide you with 90 days warranty replacement service.

Note

The multimedia keys are for Win 8 and Win 10, for other systems, there may be no function for some combined keys.
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 -Reorient or relocate the receiving antenna.
 -Increase the separation between the equipment and receiver.
 -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 -Consult the dealer or an experienced radio/TV technician for help
 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference
 (2) This device must accept any interference received, including interference that may cause undesired operation.
