FAQ

Q1: What should I do if my keyboard **doesn't work**?

A1: Please check whether the **USB** socket is loose or not connected.

Q2: How can I adjust the backlight brightness?

A2: Please **press FN + "▲"** to increase the backlight brightness, or **FN + "▼"** to decrease it.

Q3: How to switch the lighting mode and switch to maintain the single-color **backlight**?

A3: Cycle through backlight effect modes using the " " key: Mode 1 - Rainbow Breathing, Mode 2 - Rainbow Static.

Alternatively,

use the " " key to switch to single-color static backlight.

Q4: How can I report a problem with the product?

A4: You can report your issue via the email address on the cover or through customer service.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC rules. These limits are designed to protect reasonably against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and if not installed and used following the instructions, may cause harmful interference to radiocommunications. However, there is no guarantee that interference will not occur in a particular installation. Suppose this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. In that case, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help with changes or modifications not expressly approved by the party responsible for compliance, which could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Product Specification

Keyboard Parameters

Key Type:	Crater keys
Connection:	wired
Key Life:	10 million keystrokes
Dimension:	428x189x27mm
Weight:	633g
