## TRIPLE CHARGING CLOCK UP TO 15W FAST CHARGING

Model: iWW7  
Instruction Sheet

### Overview

#### WARNING:

- Remove metal type protective cases before charging.
- Magsafe compatible cases with metallic finishes will charge normally.
- Do not place metal objects on the charging pad at any time.

## FRONT

### Battery Backup Compartment

- Press in and pull the battery door to open and remove the battery door.
- Install 2 new "AAA" (R03) batteries (not included), matching the (+/-) markings in the battery compartment.
- Replace the door.

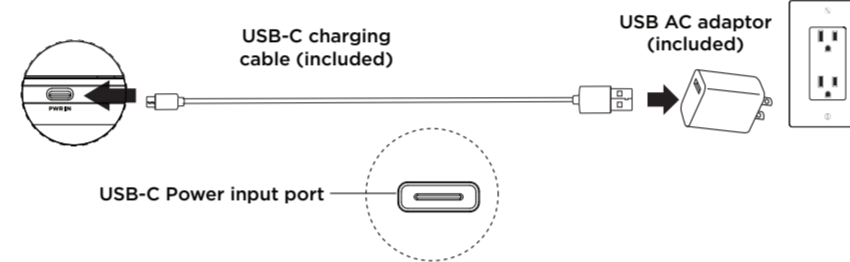

### Prepare iWW7 for Charging

Connect the included charging cable to the USB-C port on the back of the unit, and the standard end to the supplied USB QC3.0 adaptor.

(For optimal charging, an original QC 3.0 adapter is included with our product. If using a third-party adapter, we recommend selecting a 30W or higher power adapter with QC or PD 9V 3A protocol.)

- Place a Qi2 certified (Magsafe compatible) phone on the Qi2 magnetic charging pad.
- Place AirPods or Qi compatible earbuds charging case on AirPods/earbuds charger.
- Place Apple Watch on Watch charging pad.

Note: Please use the adapter and cable supplied with the iWW7 for best charging performance.

### TIME SET

Step 1: Press & Hold to Set Clock.

Step 2: Use +/- to set the hour and press time set to confirm. PM Indicator will display for PM time. (There is no AM Indicator)

Step 3: Use +/- to set the minute and press time set to confirm.

Short press the time set button to select 12/24hour mode and short press time set button to confirm.

### Clock Display Brightness

Use +/- to Increase/Decrease clock display brightness.

- When NOT in "Time Set" mode, short press "+" will increase display brightness.

- When NOT in "Time Set" mode, short press "-" will decrease brightness.

Display has 4 brightness levels: Hi, Med, Low, OFF.

### WIRELESS CHARGING LED INDICATORS

- Place wireless charging device on the charging pad. LED Status Indicators will show charging status:

Rapid blinking LED	Device is misaligned, or foreign object detected on charging pad.
White LED solid on	Device is charging
LED OFF	Device is fully charged

Note: There is no LED status indicator for Apple Watch charger.

### FOR THE BEST POSSIBLE PERFORMANCE

- Only use the recommended/supplied batteries or equivalent.
- Use alkaline batteries for longer life.
- Do not mix old and new batteries, and do not mix alkaline, carbon-zinc or rechargeable nickel-cadmium batteries.
- Insert batteries with proper polarity (+/-) as indicated.
- Remove exhausted batteries from product.
- Recharge rechargeable batteries under adult supervision.
- Do not attempt to recharge non-rechargeable batteries.
- Do not open batteries or heat them beyond normal ambient temperatures.
- To prevent battery leakage or damage remove batteries from a product if it will not be used for a month or longer.
- Use extreme caution handling leaking batteries (avoid direct contact with eyes and skin). If battery leakage comes in contact with eyes, IMMEDIATELY flush the eye with lukewarm and gently flowing water for at least 30 minutes. If skin contact occurs, wash skin with clean water for at least 15 minutes. Seek medical attention if any symptoms occur.
- Store in cool, dry, ventilated area away from hazardous or combustible material.
- Follow applicable laws and local regulations for the disposal and transportation of batteries.
- Rechargeable batteries are to be removed from the product before being charged;
- The supply terminals are not to be short-circuited.
- Do not dispose of batteries in fire; batteries may leak or explode.

CAUTION - RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

## BACK

### IMPORTANT SAFETY INSTRUCTIONS

Please heed all warnings, read and follow all instructions and keep these instructions handy for future reference.

1. Do not use this product near water.
2. Unplug unit and clean only with damp cloth. Stronger cleaning agents, such as Benzene, thinner or similar materials can damage the surface of the unit.
3. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
4. Heat - This product should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
5. Only use attachments/accessories specified by the manufacturer.
6. Unplug this product during lightning storms or when unused for long periods of time.
7. Damage Requiring Service - This product should be serviced by qualified service personnel when:
  - Plug has been damaged.
  - Objects have fallen into or liquid has been spilled into the enclosure.
  - The unit has been exposed to rain. The unit has been dropped or the enclosure damaged.
  - The unit exhibits a marked change in performance or does not operate normally.
9. Attention should be drawn to the environmental aspects of battery disposal. Many electronics retailers now recycle batteries and other electronic components at no charge. To find a drop-off location near you, visit [www.call2recycle.com](http://www.call2recycle.com)
10. This product is suitable for use in tropical and/or moderate climates.

#### WARNING:

- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- Do not dispose of batteries in the household trash or fire.
- The mains plug of power adaptor is used as the disconnect device, it shall remain readily operable.

### FCC Information

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with minimum distance 20cm (8 inches) between the radiator & your body.

### ISED Information

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device comply with ISED RF exposure requirement, users can obtain Canadian information on RF exposure and compliance.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Cet équipement est aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

L'appareil est conforme aux exigences d'exposition RF ISED, les utilisateurs peuvent obtenir des informations canadiennes sur l'exposition aux RF et la conformité.

Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité peut annuler l'autorité de l'utilisateur à utiliser l'équipement.

CAN ICES-3 (B) / NMB-3(B), CAN RSS-216 / CNR-216
